in the back) and bought flowers: HIRP/wsp a backet of sweet welliam, claysanthemum courations & goldenod, SRP a bouguet of red tulips, yellow Carnation and baby's brests. Rom 359 - Dwp and Holly look tired but extremely well. the baby slept peacefully in the nursy; the baby has a very respectable crop world's most perfect body. HLRP remarked to Duf: deadline "This will Change Originally, a line drawn outside the fence at you life. " SRP to Andersonville, the notorious Civil War prison Golly: "Good show.

I'm proud of ym."

camp, beyond which captured Union soldiers were shot on sight by the Confederate guards; hence, today, any limit that cannot safely be crossed or exceeded.

1/29 - "Looking by the Hill from the Ranson millard Stone, 505 PM"

Cametery are completely, covered with anony especially the 20 th Century stories (while tend to be lower). Most of the stones in their photograph are meneteenth—century monuments. The hanson millark stone is one of my favorites in the Elkdole Cemetery dust so of went down to have a look at it after a fed the birds, and while there, I looked back up the hiel and took their photograph.

Substitute day 51 - Mrs. Pileavage / CAHS Herds and herds of seventh graders, almost - all of whom are abustions in the extreme. What a way to spend the Thomses Paine, 1737-1800 day. Suring the day of ded "A day is a miniature manage to get a fair amount of work done, however, I sorted through my very substantial Historical fourty UCHSAM meeting at 7:30 P.M. De plus, I wrote and then mailed time cards of congratulations to PaPI family. no cars that I sent to master Porraled walter Powell has a text on it that I capied from a card that aunt Nettie and aunt Jenne sent to DWP & SRP on the occasion of our birth. I wonder if PWP will recognize the re-cycled text. If not, I will point out the text, at the fistorical Society meeting tonight it was water tent the Society would send a bouquet of congratulations to DWP and family on the spick-and-span occasion of the birth of muster Pup. From an early nautical description of a brand-new Jackie Warrington ship; i.e., one in which every spic ("spike") and span ("wood chip") had just recently been driver. will make all the arrangements. The Gestonical Society meeting was very productive Present were; SRP, Hank, John K, JVB, Swan, Jean colville, Course Speicher, Jae Passe, Jackee Warrington, Barbara & Howard Gepson. Very

Moderature meeting. The highlight of the meeting was the "un-veiling" of the Society's American Constitution 200 to birthday displays - under the direction of Hank lafter, Ir.

Dup dals some "plan speaking" to Jackee Keefer at a coffee stop at Burger King on the way back to Carlomdale; during the Concert, Jackie, who, as usual, looked like a Careap broker, was very rude throughout the Concert; emplessly coughing, not because she had to but becomes sere wanted to draw attention to hereef she also was tapping her foot very nowly during the Sensitive. Dup told her that he thought it was ill manneal and rude on her part. Hank to d, ofcome, agreed, but said nothing. Jackie, of course, became emaged. Too bad. and So, she will never go with in again. Amen.

1/30 - "The Driveway, from the Loving Baker Tombstone, 4:55 P.M."

Bosh of Joseph Pell, the CAHS. Agrin, 7th, 18th graden - Weiers weekers. In Greenfield Township at the age of the Mark Hormbook dup to Many the Mark Structure of the Market of the

****Working on behalf of Carbondale's Past, Present and Future****

December 12, 1986

The Honorable Charlotte Moro Mayor of Carbondale Carbondale Ciry Hall One North Main Street Carbondale, PA 18407

Dear Charlottes

In accordance with your request of mid-November 1986 that I represent the cry of Catondale at the December Il meeting in Olyphant relative to the Lackawanna Valley Expressway, I prepared for that meeting and was, in fact, on my way to that meeting when I experienced an automobile breakdown. For over an hour I tried, in vain, to get my automobile in operating order and/or to get a ride to Olyphant from passing motorists, when I finally solved my automobile difficulties, the meeting in Olyphant was surely over.

I very much regret that I was not able to attend the Lackayanna Valley Expressivay meeting, at which I was prepared not only to explain to those present that both you and Jack Giordano were unable to attend due to previous commitments on behalf of the city of Carbondale, but also to declare the strong interest of the city of Carbondale, but also to declare the strong interest of the city of Carbondale in the construction of the Lackayanna Valley Expressivay.

If you would like me to attend, either singly or as a member of a Carbondale delegation, any future meetings relative to the proposed Lackawanna Valley Expressway, I shall, of course, be very happy to do so.

Sincerely yours,

Mober Powell

INSTRUCTIONS FOR PLANTING AND PRUNING DWARF APPLE AND PEAR TREES ESPALIER STYLE

Espalier trees should be pruned during the summer, between the mooths of Max and October. Here are Illustrated instructions on how to pinch back or prune new shoots.

- Pinch back side shoots to about 4 inches from leading branches, or as indicated by the heavy marks (ww) on the left side of the above drawing.
- 2. Do not pinch ends of serial branches (marked B)
- Central stem (marked C) should be out back about 10 mehas above the topmost serial, to force a new serial to branch out

HOW TO TRAIN YOUR ESPALIER TREES

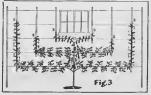

To Train Tree Around Window

This drawing illustrates the melbod of shaping, a tree around a window. In addition to weir trillil, vertical wooden strong are used to support the vertical serials. The central stem (C) was beaded back the previous season to establish the two central vertical serials. The illustration shows the appearance of the tree in early summer, with shoots properly proceed back.

The illustration at left shows how to head back the central uprofile seen or stems (marked C.1 me artly summer (above middle of June) to start new serials. Cut back shows 10 inches above serial branch below if. He sure to cut stem, just above a leaf where hud is forming. Punch back new shoots on lower serials as indicated by heavy, marks (mm).

Always use raffia or strips of cloth to the branches to traffia. Never use string, I wine or wire because they will injure the branches.

HOW TO BUILD YOUR TRELLIS

POR PLANTING AS A HEDGE OR FENCE

For not posts, drive 5-loos lengths of Jinchgelvanized poem to the ground a loos deepgluvanized poem to the ground a loos deeptile longer pipes il you wish trees to grow more than 5-lest high. Stricth of agoing galvanized were between posts. Bottom wire aboud the same height as first seinat branch of tree, all other wires 10 inches apart. When three or more trees are planted in a single row, addrinneal posts may be used between every second tree to support with

FOR PLANTING AGAINST BUILDING WALL

Drive Minch galvanised papes into the ground. On the top, serve on an "L", a 6-inch nipple and fining. Fasten the flange to wall with screwa. Stretch 14 gauge gal vanised with backetin pipes as in illustration at 1614. Plant about ten inches as ay from wall or foundation, new fasce than its nicket.

AN INEXPENSIVE WALL TREELIS

This simple trells is racily made with 6'git" shell brack its. Screw 6 inch arm of bracket to wall in line with the wire (horisontally). Streich 14 gauger galvanized wire between brackets as shown in illustration.

HOW TO PLANT DWARF TREES

Dig the hole large enough to accommodate the cools without craving (See Hillistatism lower left). Set the tree to the same depth is used only and the source of the same depth is used only and the source of the same depth is used to be sourced to be sourced. The same depth is used to be sourced t

WATERING

During prolonged periods of hot weather, it is advisable to water the trees occasionally.

SPRAYING

Use a good Iruit tree spray Follow manulecturer's directions gives on container.

Dunmore-Carbondale industrial highway link Claim Gov. Robert Casey favoring proposed

By Stan Lukowski

Gov Robert P. Casey is said to avor a proposed super highway that would run from Dunmore to That was disclosed at the second

conducted Thursday night in the Olyphani Borough Building, Former Otyphant Mayor John Chichilla revealed that he has learned that the governor indeed Olyphant Countelman Chester supports the proposed 11-mile link,

highway, which many years ago Cipilewski offered further evidence of renewed support for the was seriously considered for construction before losing its high priority status, saying, "PennDOT appears very receptive, unlike in

Cipilewski emphastized that the name for the proposed new \$100 million, highway will be the Lackawanna County Industrial Highway and not the Lackawanna Lalley Parkway as it has been

Representatives from five area comunities, Carbondale, Carbon-dale Township Jessup, Mayfield is important." Cipilewski Cipilewski pointed out that the state will conduct three public hearings on the proposed readway with one slated for Lacka and Olyphant attended the session A arma County in late March

said that we present a complete inluding safety hazards on Route 6 package on the proposed highway, and major arteries throughout the allocted srea "

The package, Cipilewski added. could include an aerial video Cipilewaki asked representatives of the communities supporting the survey of focal roads

"We don't want to fight the state the 'to work individually within your own municipality in gatheron this. Cipilewski said. ing the required information. want to cooperate

Chichilla said that since the federal government will allocate \$12.5 billion for highway construction. It would be a good idea to enist the aid of Cong. Joseph McDade in lunnelling some of those funds to the area for the construction of the local highway

"I'm happy this is being brought Jessup Mayor John Mancak said in referring in the we've got to slick logether and proposed new highway. "and if work hard to get it going agoin." up again,

Carbondale representative Robert Powell said . "We must gel a new highway system to develop the Upper Valley " Carbondaie Mayor Charlotte Moro revealed in a letter to the milial committee meeting several

committee that car Irouble grevented her from attending the

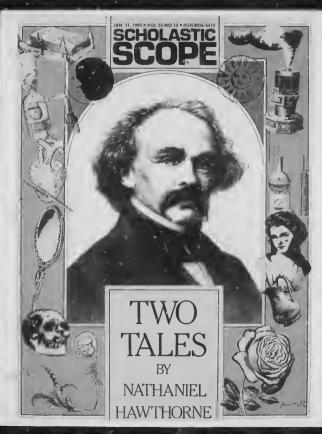

Jessup Council President Jim Brunozzi suggested the meelings be 'moved around to gain citizen

With that the committee agreed to meet to Carbondais at a data and time to be announced.

Glardina. Archbald: Robert Powell and Henry J. Loftus Jr., Carbondale, Joe Wahy and Joseph Brunoari, Jessup: Edward Callahan, Jermys: Alex Chelik. Mayfleid: Chichilia and Opplewski, Olyphant, and John J. Natichak, Carbondale Township; Joseph Dominick, Dunmore. Stecco, Thrusp. The highway committee consists of Joseph Chindemi and James J.

WILLAM J. R. C. HAZLER

FLYING TIPPLER ASSOCIATION OF AMERICA BULLETIN #5 DECEMBER 1986

Mambers of the F.T.A. I would like to bring the fellowing to your attention just incase you have been left in the dark like I have been. I have been informed that there is a new hippler Club desiened to help 'lippler heriers in the U.S.A. The slub is malled Hydry Tippler Serbety if United States of America, I don't know by the Tippler Punciers in my area did not not invited to join the F.T.S. I guess we were not no the list compiled by the founding members of the F.T.S. that they felt should be invited into their slub. If the were not reserval ordises of the slubs invitational latter of which I have enclosed raphes for the F.T.S. and several telephone rails by some F.T.A. nembers I would not even know of the F.T.S. today.

The F.T.S. was originally started by Promer F.T.S. Posident and member

The F.T.S. was originally started by romer F.1.A. Problems an assume Param Seabridge. I was alse informed that fit-bard Seabridge resigned frue office agmetine in early November of 1980. I don't know sho the Former President ent his letter of resignation to but if anyone has Rieard Seabridge's letter please scal no a gyp of the F.T.A. members can and should be informed why he has Resigned.

I would also like the members of the executive board and members of the F.T.A. te know what has happened to the proposals that ware sent to the Former Fresheart in May of 1986. The proposals were to be sent out to the Executive Board in May but were not. I spoke to the President on the Telephone and he informed they would go out to tage Board smoothine in June than that became Soptember and I never heard canymore about them until they arrived in the mail on December 17, 1965. It is furny how the Former F.T.A. Pring that the officiers Communications for the F.T.A. yet be found time to use proposals ent to sin for the F.T.A. For the sew Tippler Club that he started. The I hour release and 1½ bour mixing rule are a few examples of the F.T.A. proposals that were used for the F.T.A. Proposals that were used for the F.T.A. by this for His new club.

Expound about the F.T.S. I appe that Riemani Seabridge gets all the help he statement that the sale of the surprised that in a few years from now there is amplitude of the F.T.S. is like that of the F.T.A. at this time. If it is as touch as the F.T.A. Competition then you will know may another club has been started, there probably a few people now were a know for a fact whose rule is if you can't beet expectation start a new club and be on tro for a little while.

**Complete fly results listed in january bulletin.

THE FLYING TIPPLER SOCIETY

Dear Tippler Fancier!

This letter is to invite you to join "FIS", the Tippler Society of the U.S.A. This Society is organized to help the tippler fancier of the United States of America and to promote the tippler sport in the United States.

As you know the "FTA" has been going down for the last two years and we are finding ourselves wondering about the future of the flying tippler sport. Not only is the "FTS" new, but also the bylaws and fly rules are easier to understand and are designed

to promote the tippler sport, not end it.

There are two fly schedules, one for the Eastern United States and the other for the Western United States. There are a total of ten files and a stock fly each year for each part of the country. The birds can be liberated one hour before the sun rise. There is no honor system in the "PTS", but everyone shall fly, the only thing each flyer needs is someone registered with "PTS" as a timer to time his birds. Birds should be seen once every one and a half houre

instead of once every hour.

There will be a bulletin each month and a year book at the end of the year. Each month, "loft of the month" will be featured. The yearly dues for "FTS" at present are \$7.00 per year, and the year book would include an additional charge and each fly would cost only one dollar. The diplomas are going to be very nice.

At this time, I am seeking your support. Please come forward and let us make it happen. Please join the "PTS".

Founder Membere are:

R. Seabridge (President) E. Buraczewski (B. Director) R. Morechen (E. V. Pres.) N. Garlbay (W. V. Pres.)

N. Garibay (W. V. Pree. Rex Leon (Tressurer) J. Closson

A. Tarkez

Yours in the sport,

Felix Khan (Secretary) 10646 Placita Los Reyes Tucson, Az. 85748

Wide Row Planting

This is the best proven method for growing beans and peas Simply stake out a wide row, say fayan example) 18 Inches wide by 25 feet long Take your seeds and broadcan them into the well worked soil He certain that seeds are not planted too densely por log thinly. Try to seeds Cover with 1 to 2 Inches of oi 2 inches and till in the seeds Thin the wide row early. The plants will grow up shading out the werds and retaining much needed morelure in the ground Also, you will experience a higher yield while using sarden space much more effielently NOTE: For pear we singlest you try wide row planting hut with a parrower wide row (12"), Support such as Trellis Netting is helpful for Deas

Robert -

Suzi S. just telephoned (3 PM). Apparent she just told Jackt off. Jackt was going on about "my father did this.. my father did that..." and Suzi stopped Jacki and said, "Wait a minute, Robert did all the work for the NRHS, not your father." Jacki is apparently quite mad. Suzi wants to reschedule the meeting, or some thing like that. She wants you to call her, of course. I told her I would convey the message.

****Working on behalf of Carbondale's Past, Present and Future****

January 20, 1987

Dear Future Member:

This is an invitation to you to become a member of the Carbondale Historical Society and Museum for 1987.

As you probably know, the Historical Society has, in recent years, worked very actively on behalf of Carbondale, and we have accomplished a great deal.

- raised \$3,000 and had repaired the Tower Clock of Carbondale City Hall;
- designed and created a Carbondale City Flag;
- restored and re-installed three Carbondale Historical Markers in the city;
- instituted the annual celebration of Carbondale's birthday (March 15) and Gravity Railroad Day (October 9):
- designed, built and installed flower boxes in the downtown area;
- initiated a Summer Concert Series (featuring the Crystal Band and the Marywood Jazz Ensemble) in Carbondale's Memorial Park;
- sponsored, in conjunction with the National Gallery of Art, a series of films on historical topics;
- raised, in conjunction with the Carbondale Memorial Day Committee, over \$6,000, and had restored the century-old Civil War Monument in Memorial Park:
- created and produced the 1987 CARBONDALE BIRTHDAY AND HISTORICAL CALENDAR;
- raised over \$1,000, and purchased 50 American flags, which are installed in the downtown area on all city and national holidays;
- planned for 1987 a comprehensive multi-media celebration of the 200th birthday of the American Constitution.

In addition, we continue to record the history of the area and to acquire and catalogue artifacts that are associated with that rich history.

Without the support of individuals and organizations such as you, we will not be able to continue (1) to serve as the guardians of Carbondale's wich history, and (2) to work for Carbondale's future.

Please help us in our efforts on behalf of Carbondale's past, present and future. Fill out the membership form that is enclosed and mail it, together with your membership fees, to: Carbondale Historical Society, Post Office Box [5], Carbondale, PA 18407-0151.

Sincerely yours,

Mobut Powell

Meetings on Proposed Highway To Be Continued The second meeting of the Lackawanna ntry, and hopefully the area will see a

County Industrial Highway Committee was recently held at Olyphant Borough Building, with five communities represented Chairman Chester Cipilewski, Olyphant, presided.

A review of the minutes of the first meeting was made and discussed, and a letter from Carbondale Mayor Charlotte Moro was read in which she stated that due to car trouble, she was unable to attend the initial meeting of the committee, and that representatives from that city would be present at all future meetings. At this

second session was S. Robert Powell. president of the Carbondale Historical Society Cipilewsiu reported that the county commissioners had contacted PennDOI and that three regional meetings will be conducted concerning the expressway sometime during March, with one of them scheduled for Lackawanna County at a time

and place to be announced and published. Preparations are being made to assembie a comillete package plan for the proposed highways, to include traifie volumes figures on major traffic routes presently in use in the area, safety hazards, motor vehicle accidents, and an aerial view of the proposed highway area, in addition to a video cassette of the traffic

volume on present main highways John Chichilla Sr. suggested that Cong Joseph McDade be contacted for his support, since the federal government is expected to allocate \$12.5 billion los highway construction throughout the coushare of Pennsylvania's allocation for the proposed highway. Chichilla also reported that some officials had contacted then-Governor-elect Bob Casny, who indicated his support for the route

Jessun Mayor John Mancak stated he was pleased to see the highway project being brought to the lacefront once more. noting "Working together we may sucsed the need for a new road system for the upper valley. James Brunocza, Jassun council president, stated that "we will have to move very last if we are to have all studies ready to present for the March meeting." He also suggested that the public be invited to attend these meetings for their input and that future meetings be held at locations throughout the Mid and Honer valleys. This was agreed and the next meeting of the commutee will be held at Carbondale City Hall at a date and time to be published. A.J. Kowalski, Olyphant, a former Mid-Valley school board president, stated that in order to be successful "we must get full cooperation from all communities."

Officials Collect Data For Highway Hearing

By GARY MURACA Midvolley Surgou

OLYPHANT - Officials from OLIFPHANI — Officials from throughout Lackawarna County are gathering data to present to the state Department of Transportation during an upcoming public hearing on the proposed construction of the Lackawanna County Industrial Highway

Typhant councilman Chester Clasleviski, chairman of the newly formed Lackawanna Part way Group said during a meeting Thursday night at the robant Borough Building that Penn-DOT will be conducting a public hearing on the proposed aighway, which would run from Dunmore to Carbondale, sometime in March at a place and time to be announced

Group members said now is the time to push for the long-dormant project, especially since Gov-elect Robert Casey will be sworn into office Jan. 20 in Harrisburg

"We've got the people (in Harrisburg) to listen this time." Cipliewski 8350

in fact, member John Chichilla Sr former mayor of Olyphant, said some local officials already have met with Casey, who said he would favor such a highway project in the county.

Cipilewski said he has met with Lackawanna County Commissioner Joseph Coccoran, who said the county is in the process of compiling an informational package for presentation during

Lackswanns Regional Planning Commission also is in the process of forming a study of the proposed highway for the hearing. Cipilewski said One of the most important aspects of the proposed highway that officials hope to convey to the PennDOT panel is how the bighway would greatly in the area.

Cipilewski said. Besides attracting industrial growth to the area, Cipilewsky said, the proposed highway would reduce the num-

For that reason, be said, the parkway group will compile a long list of accidents that have occured along Route 6, as well as other major arterles in the area, over the past several

Cipilewski said all data compiled by the group will be presented to the PennDOT panel, as well as state legis-lators in Harrisburg

Crpslewski said the group also will form a separate committee to work with the Lackawanna County Assessor's office in an attempt to acquire meeting were Archbald, Dunmore, Jerland needed for the highway, which myn and Throop

state experts figure would span 11 miles and cost over \$100 million Since most of the land to guestion is

what Cipilewski called "barren waste land," the group may be able to have some of the land condemned for later acquisition by the group Chichila said the federal govern

ment will be spending some \$12.5 billion on highway projects over the next few years. Perhaps a portion of that money can be allocated for the

proposed several years ago, much of the paperwork already has been completed it would be just a matter of updating old studies he said Member and Jessup Mayor John

Mancak, expressed his delight that the group is trying to bring the project

"We have a good chance of getting this program going this time," Mancak

"We have to develop the other side of the mountain" Crpilewski said, and added "I think we can push this project through

All group members agreed that Route 6, which connects Scranton to Carbondale, is antiquated. Cipilewski called Route 6 "poorly designed." while member Robert Pow

"frightfully obsolete 'We need a new road system.'

Powell said. Member James Brunozzi, Jessup Council president said the group will ready for the March meeting date with PennDOT.

Olyphant resident A J Kowalski, former Mid-Valley School Board president, said if the proposed hunhway was built when it was supposed to have been built several years ago, it would only have cost between \$15 and \$20

"It (the proposed highway) is a necessity," Kowalaki said, "but we have to get full cooperation from all of

In an effort to make more people aware of the project, the group agreed to conduct future meetings at locations throughout the mid and upper valleys The next meeting will be conducted in Carbondale at a time to be an-

Municipalities supresented at the meeting included Olyphant, Jessup, Carbondale, Carbondale Twp., and

Other towns which are a part of the group but were not represented at the

Seranton Times, 01-21-57, p. 22

Ros-Al) Carbondale Memorial Day Carbondale Historical Society and Museum Inc. are spearheading a drive to restore Lackawanna County's oldest Civil War monument, which was erected in 1885 in Carbondale Memorial Park, The project is estimated to cost \$6,000. Henry Loftus, Historical Society member, left, and Jay Sara, Memorial Day Committee chairman display a plaque which fists persons and organizations who have contributed to the drive. The plaque will be posted in Carbondale Public Library and Carbondale City Hall. Persons interested in contributing may contact Carbondale Memorial Day Committee, Box 55, Carbondale, 18407. BALCONY

LIEDER EINES FAHRENDEN GESELLEN

Gustav Mahler's "Songs of a Wayfarer," which were composed in 1884, are settings for voice and orchestra of texts by Mahler himself

WENN MEIN SCHATZ HOCHZEIT MACHT ('On my Love's Wedding Day'')

The melancholy mood of the song is established in the first bars by a figure on clarinets which serves as the letterally throughout.

It will be a sad day for me when me tows marries. I shall go to me dark room I will weep for my love. Blue flewer do not facte sweet bird sing upon the healt How beautiful the world is! Bloom no more, sing no more. Spring is over, there is no more singing. As I go to sleep I shall thinh of me worse.

GING HEUT MORGEN UBER'S FELD ["This Morning I Went Across the Field"]

The brighter mood and bird-song style of this song are reminiscent of the Finale of Mahler's Fourth Symphony

Tiday I went across the fields. Here was deen on the grass. The merry free finch said to me: Good morring! The world is beautiful. Sing! The bluebels in the field are soying then heads in greeing. The world is full of sanshine, sound and color flower and brud—little and small—are drenched in sain. It is a happy world WIII happiness come to me? No! That I know never will it came.

ICH HAB' EIN GLUHEND MESSER ("I Have a Glowing Dagger")

A tumultuously passionate setting which, to match the sense all the words, dies away to a low piannissimo

I have a glowing dagger in my breast which cuts deep and pains me even to you and happiness. Why must I support this cruel guess? It is never still—by day or right. When I look up to the shy I see her two blue eyes. When I go into the iselds I see her golden hare far off. When I wade I hear her silvery laughter I wish I was hying on my dark beer never to open my very aguit.

DIE ZWEI BLAUEN AUGEN ("My Love's Blue Eyes")

A repeated dotted figure gives this deceptively simple song a feeling of weary progress which is graphic.

My lows a was blue eyes have sent me aut into the ward and I must are good-bye in ny home. Why dal you reve look on me? Now I am full of zorow and greef for ever. I have gone out into the night over the dush heath. No one said farewell to me My o, amrades were love and sorrow In the road stood a lindear tree where I fars found poace in sleep. Its blossoms fell upon me and I was happy again.

Carbondale, PA 18407 Mr. S. Robert Powell Post Office Box 161

FEBRUARY 😹

2/2 ruminate

From the Latin runingre, "to chew the cud": an eating habit peculiar to cows, who set aside a portion of food in the rumen, or first stomach, to be chewed again at a later date and then passed along to the other three stomachs (the reticulum, omasum and abomasum).

2/3

slipshod

Literally, "clad in slip-shoes," or wearing only slippers when the occasion calls for proper shoes; hence, "slovenly" or "sloppy."

From the Spanish piedra de ijada, "stone of the side"; so named because the medieval Spaniards believed that applying the stone to a person's side helped ward off the colic. Pieces of jade are still wore by Native Americans as protection against snakebite and other ailments.

2/5 Latin

The language spoken in the ancient Italian region called Latium, of which Rome was a colony. According to classical myth, the region's name derived from the word lateo, "I be hidden," because Saturn sequestered himself there after being banished by his son Jupiter.

Or. S. R. Powell Carbondale Historical Society P. O. Box 151 Carbondale, PA 18407

From the French rocaille, or "shellwork": a delicate, highly detailed style of ornamentation, featuring motifs made of shells and favored by the court of Louis XIV in the late 17th century. 2/17—"... a sneety want, during a long presend remains substantially structuringed in the forme and manner af life can searcely be said to have a terotary."

2/20 - "TO be in company, even with the best, is soon wearesome and descipating I love to be above." Henry David Thoreau

"Preblyterian Church, Church Street," Number 1844 of a series (numbered 187-180) of 24 "Siercoscopic Views of Carbondale. Pa "that 185 of the Preblyterian Church, Street, Ph. The Bree Churches shown in these photographs are Preblyterian Church, defined in the North and the Street, and

2/1 - "The South not as mount kilamangers,

Stopped at the Bolf Course at 10:30 A. M. on my way into tounts pick up the B.B.C. Money and wested touth Dupt family. Ifolly and the boby cans home from care yesterday afternoon, and all in well. Ifolly and Dup wice is wondefus paints. To Master Purp. they are very well informed on the reason of chiefen and are very committed to reason. I'm sure that morn in very exited about baying a smell baby in the house again. At the B.B.C., mele morgan and Doris Toukin expressed their congratulation to me on the brite.

JUB telephoned me yesterday at the Solf from the Bolf Course, I phones time and suggested we get together in the afternoon I drow up to 46 Canan after Church and picked up JUB and we returned here, making a stop at John 12 in Simpson where of gave John the 1987 stationery master that I produced John K will have copier made at PDQ or monday one here of went through the Odlf file and turned it over to JUB who, I hope, will take over as president at the D&H Chapter meeting on 02-07-1987 at Jack Krefer's. JUBand of then counted the SBC money for today: 55-15.71; dinteal - 7.50; PAHC Divilend - 11.20; < €-804.13; Comm.-92,50; M-158.58; 53/M-1.74; organ-82.50; total-1169.80. That done, we went out and a fed the tipplen and then we went into town and met Hank at his office on 6 th Avenue and prepared In mailing 822 CHS+M "become a member promotional preces, which Hank ville mail out tomorrow. Very nice to be with John again. He has a great snang qualities that are very admirable. Those question are sometimes prevented from "shining Through "by various Causes - not so Today: Here the kind of person who would he respect for a leadenstip position on a wagon train/covered wagon Literally, "little strings": coined from spago, the Italian word for "cord," and not to be confused expedition across tice with vermicelli, "little worms," or linguine,

"little tongues."

country. Maybe that's what the should do.

Today were a prefect maple say day— the daytime temperaturer were in the forther and the night-time temperaturer are in the below-flerging range of these conlition continue, of shall have to begin collecting sop, or nick missing time flesson. Firework well he a problem because of the heavy snow cover at the moment. Charticles and michael are arting very un-like their winter behavin — the passibility of Mildred's raising a brood of young is very exiting.

2/2 - "wenter woods, Elkhale, 4:35 P.M."

Substitute day 53- Mr. Leo/C.4HS What a succome change in students. Mr Leo only has advanced mate students, and they are all well behaved and a pleasure to supervise. In the cover of the day of managed to get a fair amount of personal work done: parted down my "SRP ar an infant" till Stratford Jumps Scanlon Cards and letters; typed up a tenspage statement of "basic facte" (financial and momence) about SRP. Were a to drain dead tomorrow, those who would look after my affaire would Know a vast amount about SPP's plusmal assets of offers. In askition, I went to the FAB See faut from 2/187. Purchases and installed a new lock on the front door at Elkdale - their was accomplished not without difficulty, but it is now in-Stalled and that's that I shall deliver one of the new keys to Paston Bessel at the EBC in west clifford. We all lock began to art in a peculiar manner, and of decided to take immediate action, naturally. Very productive & 450 M work Ession at bank's office on 6th avenue - we folked and stuffed about 600 more become a member " promotional pieces. Then for, in the membersay campaign, we have mailed out 2222 pieces - if we get zonew memberships, the campaign will be very successful. Present at the three-hour work session were: SRP, Hank, Susan, Jolen K. and JVB.

2/3- "The Tree from the 'african Plann'
up by comperthuracte's, 355P.M."

Betwee Hern, je penne à vous... je penne tous les jours / longour à vous, et vous voilà dans le conteste de l'histoire de Contondale. It was tue Paris of Bertude Blein that Eleanon Jones vioited during her European tour af 6/26/1909-9/29/1909, settingh Seitude Stein was not actually in Paris during Eleanon Jones auit there. at that terne, Bertude Stein and alice B. Toklasmere in etaly at the Villa Bardi in Fiesole. It is umpossible bardi in Fiesole. It is impossible mot to wonder: Sid aunt Eleanon Know about Beitude. Stein at the time and did she take a walk by 27 rue de Fleurus?

Substitute day SX: Mules/CAHS French Emperor Another productive day at CAHS - of missie ils America arranged in Chronologied order all of of CHION 187, 180 as infant "paper that of facted down yesterlay; lied a preliminary diaft of my 1976 mions taper; typed up a hear opy of my 1976 mions taper; typed up a hear opy of my inventory of Nov. 1797 his Contact of greater clarity is continually achieved by there periodic re-lyaminations of one's personal paper. Keturned directly to Eckelale after CAAS, with a quick stop at tire CPO+ one at the say course. at the Day Course, wisp toes me that Holly + DWP were at the hospital with meeter DWP - breast fed botion frequently develop Jaundice about 4 to 6 days after their buth. The Chied in Monder sun lamper at faint Joseph h Hospital in Carbondale - sun causes the Jainse to go away, DwP and Holly are, understandarly, taken a-back by their development. I telephoned DWP Co son and was pleased to learn that the journaire was under control (an of 9:30 p.m.) and with it is expected that it will over I done in a day or so. No body will probably stay in the traspital for a day or two. at Elkhale & for wery pleased to discover that "3077" has laid her first egg; the other hem will doubtless lay their eggs in the next few days. The bees that live in the back wall of the Church have been out and about

The bees terat live in the back wall of the Church have been out and about for the past couple of days. All around the short there are dead been in the snow. I don't know enough about honey been to explain the presence of the lead been.

Master DWP is recovering well from his brut with Jaundine and well probably return home from the loogital on Thursday or Friday. That en wery welloomed news to be sure. Styped at the Golf Course on my way in to CAH'S Co maternand pecked up my fragrend Reuman follow, but was unable to get at term today at CAH'S. Spent a fair amount of time during the day frustree Clarifying my 1986 Federal downer tox returns (droft). In a day or so, it will be completed and that well to that alea, during the day of typed up a new "continte of from 179 A" uncentury shelt, which do how wanted to produce for some time now. Tomorrow of well substitute for Mr. Bilsky (Chemistry) at CAH'S—first time for him for me.

2/4- "The four Corners at Elkhale, 4:20 R.M."

Substitute Day 55. Mr. Thornton /CAHS The day was passed in the cafetina for the most nast, on the claver are not allowed in the shop in the absence of the shop leaven. Fine with me, bleauer the closes are new "controllable" in the expelien First Council meeting in Gibsonburg (now Jermyn), Marriage of Millard & These ero the parents of Ellen Josephine Complex Collins ("Jack") ("Joly"), was was tere hest friend of 1854-1906 - 1876 Mary R. Monahan aunt Eleanor's for almost 50 years. Mary Tyler Happily, my dermer appointment with David Cancelle's former gue friend, brenda, war cancelled She has an interview somewhere in New Jusy and called and Cancelled. I was to help her with her resume; SRI was delighted to be able to spend the evening at home. Very tered from in great need of slee an unexpected wenter storm / squall passed through the area at about 7PMthe windows rattled and the buldens creaked. We snow, but wind and more wind. There will probably be a fair amount of blown snow on the roads in the I will now prepare my "work to be done" tomorrow at CAHS and then d shall take to my hed. Tomorrow & well organize and "tryuten up "the WSP/HCRP and Bully o Jimmy" sellion of valume IT. I am currently "fighting off" a caes, and so to bed I shall withdraw (10 PM) and read for an hour or so in James K. Mellolo's Charmed Circle: Bertrude Stein and Company.

45-"The cow at the acme, 3:00PM."

of am lossing a battle against a case, and so as soon as a got out of smooth, of went to the aem to buy some Contae and to have a look at the recently re-modelesstore. In the parking lot in front of the store stands the cow that is about about the cow, but assume that it is trave to ethat attention to the re-down Acme. Who aem now sells bagels, and so a list four Cinnamon rain bagels, where you'd but not first hate fourtstanding.

Substitute day 56. Mr. Bilsky, CAHS relai E Stevenson, 1901 Ferew ball Bilady - Al a a plentiar in-Eleod James 122 devokud Who reminds me of a Police Market who perminds me of a Police Market who have and Soft Tomera (from Jamys) at the same time. It is an argumentatione know-it-all who it is but to avoid a newween Musai (much teather, of whom I am fond) my: "never my anything me to Belsty than Hello and Boad Bye, or you'll reget it. The most of a cold made it difficult for me to function effectively for much of the day eyer watering, difficulty breating, speersme nose blowing. nevertheless, I ded do some arranging and sorting through "in volume I of P.M. 87. Keep at it SRP, don't slacken the pace. Both "feeder" hem have land their first egg, which is good timing, because "3877" has laid ber seems egg. "3769" & "3871" and "318" will very proporty lay then first egg tonight or tomorrow. Next it Iwill be milkress turns CHS&M meeting-7:30PM - very time situation - the Rifers versus 585 & DWP + Hely he former, of course, are completely Crayy. Some-how I managed to avoid any explainm. Dult Holy came in for about 40 minutes. during the meeting - that prapleasant. he baly is doing will t will return from the hospital tomorrow. It seem almost impossible that the baby war born a week ago yesterday at seem like it war last month. Holly looke well, and will settle into a very wonderful routine in a day or two. Jul's half brother, Harmon is back in town for two welks, JUBir very Jedour of formon and of all the parental attention

The female dipplem are now laying 3177 - egg m 2/3, egg m 2/5 > to 344/3884
3871 - " 3/5, " 3/7 > to 387/3884
3871 - " 3/6" " 2/7 > to 387/343
318- no egg yet " 2/9 they will raise
3877 + 3869 well, in effect, he "prumped" —
their round ono egg wire to bestevel
by two feels pain; at 10 days the
dummy eggs wire he taken from
3877 + 3869 and they will lay their
round 2 eggs and lasted + raise their
round 2 young.

2/6- The Typler Lafte, 4:40 K.M"

Substitute day 57/CAHS/ Mr. Leo Inspared draft number one of my projected article on "basic question / control "in the raining of pur bud pigeon. In the Cours of the day of managed to get a good working drift set of the mand of well reme and flesh william (reig 13) out what is now outlined. At me maker, received MD. point in the day of went into the art department and wished mariame Stratford a hippy butulay. She was pleased. To hay is also the bilthday of Day Smedley, one of the pays et tealure, so I leaved. Setured to Elkdalo and fed the birte of then went into town a type and pro assembly of God congregation was using , the Cluve brement for a dinner of so In the late 18th century, Dominique Jean Larrey of there were about France devised the hopital ambulant, or "traveling 75" stranger" at hospital," to carry supplies into the field so that wounded soldiers could be treated at the battle site; for saving tables in the so many lives, Larrey was awarded a baronetcy by Napoleon himself. Church basement when I lift at about 715 p. m. and went down to city Hall for the 8 P.M. for the laskawanna Valley dudustrial Trightway meeting. Hank laften and of represented the city of Carbondale (at Mayor more's request), Council Chamber were filled with politicians, including County Commissioner Corcoran and alberty:

2/7- "The Tinker House, 4:45 P.M."

Jackie Kilfer Warrington in a "grotesque", loud, abnoxiour, Crass, ill-mannered and vulgar. She is, a believe, seriously ill mentally. Her father in a braggart, a bully and a bone. Ken and Jean Colouble were prefetly Charming turoughout tere Do H meeting (730-11PM). Had ken to Jean not blen there, the meeting would have very probably turned into a fee frale / fist fight. I devoted my energies to preventing the membership from Collectively strangling Jackie.

Problem Jem's buthlow— it is almost impossible for not to behind that he wan killed 32 years ago. The large of his death is as work in my memory now as y the death took place yeterday. If mose that morn appent a fair amount of time thunking about James Rusell Powell. Jummy tookay. What are ordered for 104 1900 Hint any then parents to ensure of RTP)! How does one live through such pain. Telephones VVB at mid-day fasked him to bely me with my front door both, which requiled an adjustment. Alrows into town to parent high y VVB at 1:30 P. M. and returned here,

2/10 - Saint John's Russian orthodox Church, Dundoff. 4 P.M."

Sextrude Stein was born on 2/3/1874 and died on 7/27/1946, and following her deater, aline wrote to James loud als said "I am itaying on here [Paris] alone." - and 21 year later, on 3/7/1967, alice B. Toklas died, at age 89. The way brind in Pere Lachane Clanetery with Dertrude the mouth. Steen; and the nearly forty years of magic, the life together of 65 & ABT, are re-created by James R Mellow 'Hfoolswore white caps we should seem a flock of goese 'George Herbert Substitute Day # 58 - Larry Chesnick (CA # 5 Spent the day working on my contral "article for the AII; also devoted some time to sorting through the Grewold fleumon WHAT'S IN A NAME 1986 folder, preparatory According to Anglo-Saxon lore, Lady Godiva promised to doing the newto ride naked through Coventry if only her husband would show more leniency to his tenants. When he agreed to the letter for the Driewed terms, she carried out her part of the bargain while everyone in town stayed behind closed shutters-everyone, Reunin and Clinton that is, except a certain tailor, who will forever be known Center Pioneer Day. as Peeping Tom. 1045 P.M - Paul Kazmaruk just telephoned and acked me to substitute tomorrow for a nur. Famel / Social Studies. Tant mienx. The sun in such these days that it becomes in-Crearingly difficult to take winter seriouslyeven through the coed weather in far from over. The morning the sun show radically through the frost of me on my can's windows, and even though it was cold, very cold, it all seemed rather transitory; the caldness, that is. The march towards spring in underway. This evening of devoted a few hours to searching through my journal for the past several years and located the architectural drawings of the D+H bravity Shope restrations plane for Hand loplier, that were drawn up by Joseph H. Young, Eccanton.

2/11- "The loft and the Church, from the Back meadow, 4: 30 P.M."

festively on prevented from working of gestively on preparing for purble about on must felming PN. I and II by the sheen buck of the texts. In order to word effectively of hears to take with me large portion of the text, because of any still at true point of making smeogration, and so what I must do is stay at home and insert all the pages that are to be meeted, and then I can take from five humsted page sections with me and check them over very carefully while substitute teaching.

Substitute Ray 59 - Mr Farrell / CAHS - Im Farrell in a very pale exeuse for a history teacher of get be consider himself to be very apainl and ineginny. Very frequently of become enraged over the mexicuse faculty at CAHS. They are the reason nyder, 1900 Kathryn - Woodt Shiffer that the Carbondale area has Wedding of Engabeth A Winter and Samuel J Montello, 1966 the problems that it does. From this morning's Tribune (p.7) we learn that the CAHS principal, martin F. Lawler, was anosted on 1-31-87 for drunk driving. What a steam! He should be forced to leign. and then there is the case of ann marie Grayeaus, a teause at CAHS, who was recently Charges with steeling over 30,000 from the school's student activity fund. and then there are the family members who sell dungs to the student body, and on ton. Community Correct - Saint Paul Chamber orderstra - Pinchas Zukerman, conductor 8P.M. Orraed of Howard years have maconice abligation and will not be able to attend. SRF, Barboro yepson, Holly and ten barry (OWP II) and Hank Coptus will attend. This will be "baly's first concert," as it were, of have been invited to dine with Owp + Holly at 6 P.M. - roast turkey. What a treat! a oup favorite and also a SRP favorite. SRP rove drive to the Concert of the baby a gu sent weeker intalled in my Kennet.

one of there wenty I pring days a snall stepoutside with the longuet and allow the seeds to be Carried off.

2/12 - "Milkweeds and Snowy owl, 3:05 P.M."

pucked last Fall in the fields around the church; the own was by Joey window; the vose of underted from Rebecca Coloule; the table of unherited from Cleanor Jones.

a day at home. I love to stay home and am forced ents "le monde" by substitute Abraham Lincoln, 1809tracking and such of knew when I Andrew Mitchell Hose went to had last night that I would Company organized, 1892 stay here all day. I rested a - bed until a very decadent 10:30 A.M., having gone to bed at a about 1 A.M. TO my surprise, a gentle and very granular snow was falling ween of "Imerged" from the Cabe. "To wind I so tranquility and peace - a perfect day for staying at I home. 3 PM - two inches of snow have fallen since 11 A.M. 11:40 P.M - very productive afternoon and lucing: devoted about 6 hours to inserting pager into PN... 97 - Volume I; the pager have been inserted, more or less, in the correct place." Fine tuning " and the addition of page number and cron reference in the next step, and that can be done in good order as I substitute teath - in produce number 1, for example, there are 30 inserted pager to be fine tuned, paginated and cross referenced. I can take folder number one (when contain several hundred pages) + do what has to be done while "at school." Working for myself and substitute teach (baby sit) makes it easier/much easier to endure the indignities of "There is no reason not being a substitute teacher, CAHS mad" has an "in service" day tomorrow -Gertrude Stein and so I will not be Called there. Perhaps lakeland will Call. of no calle come in, of believe that I will go to Scientin and do some enauce: drop off From sclavus, the Latin word for a member of the Slavic film, buy chicken tribe that once lived along the Dnieper River: equated with servitude during the Dark Ages, when Germanic feet & pigeon feed. on neura.

ar, nies moved into the area and forced many of the tribesmen into bondage. Slav itself meant "the speaker," i.e., "intelligent person," in contrast to the Germans, who were called "the mutes."

2/13- Scranton Municipal Andding, from the Roof of the Adams arenne Parking Barage, 12:00 P.M. 11

Senoweek yesterday that I wan getteny low on pigen and clincken feed, and as I down to Scranton at mid-lay and purmaned: 50 lbs. of #3 no. com (Pay-nor Pigen Feed); 5 lbs. cracked com, 5 lbs. caicken senoted; "5 lbs. layera and 6 pulp pigens nesting brule. Siopped off a roll of film at The Camera Exchange on Adama arenue—the roll contains the photographs from January 21 to February 3th. petuned to Elkhale by about 1:30 P.M. Fed the birds: removed the "dummy" eggs from 340/3977' and they will now start over.

Drove into town and went to tree biliety Bank where I removed all of my 1846 - and 19th-Century american coin silver from the vault and selected a pair of desert spoons that I will give to Holly + Dlup and 13 mester Donald: one for the parents Amy Monahan not yet certain about the in-

scriptions that I will have engraved on the sprom. I have yet to select the engraver. The spoom are in mint condition, have no personal engraving on them, and are signed as follows: "HALLY ELTON" on page 126 log Ralph My Terry H. Kovela A Directory of American Julier, Pewter and Jelner Plate (1961), we learn that terese spoon were made in Beneva, NY, C.

1841 by abraham B. Hall and A. D. Elton, the spoom are 146 years ald.

One of a legion of tiny goblins on whom fliers in the British Royal Air Force blamed unexplainable malfunctions in their planes during World War II: rumored to spring from bottles of Fremlin's beer, brewed in the English county of Kent.

mother Ann Lee, the founder of the Maken in this country, once said: "Doall you work as though you had a thousand as you would if you knew you

must die tomourow." That quotation comer to mind and prepar to give a 146-year ald spor to lonald water fowell I, ne 1-28-1987.

It's been a day of doing enands. It is my lutention to agreed the entire day here tomonow - and the evening as well dwell denote all of my energies to meeting pages in the "HLKP maternal anceston" section of PN. 77. Enfin! — all of the pages that ar now ready to be inserted in Valume I of PN... 87 have been preliminarily inserted in the agpropriate sections. Now, it so a question of fine turning; as it linere. my principal has been the inserting of pages in the "HLKP-material direction" section. A very graphying ten hours of generalogical work. Now of love be able to take with me on substitute calls one or two or three feder from the gigantic volume (21" of un-bound 8 "1" X" pages) and carefully incorporate all of the preliminarily inserted pages.

2/14- "Cheny Dresen from the Eleanon Jones Estate, in the Coclection of Pondes water Govell, Onloan to SRP at Elkhale, 10: 20 A. M."

THE CONTENTS OF 80X 179A, Liberty Discount and Savings Bank, Carbondale

Fourteen rolls of microfilm and one set of microfiche cards are contained in Safety Deposit Box 179A in the Liberty Discount and Savings Bank, Carbondale. All of these microcopies are of documents or texts written by and/or about S. Robert Powell.

1-10. OPUS 40 of S. Robert Powell, October 13, 1981--May 7, 1984 Rolls 1-6, original 35 mm. microfilm

Supplement No. 1, May 8, 1984--October 7, 1984 (original 35 mm. microfilm) Supplement No. 2, October 8, 1984--June 21, 1985 (original 35 mm. microfilm) Supplement No. 3, June 22, 1985--March 20, 1986 (original 35 mm. microfilm) Supplement No. 4, March 21, 1986-Occember 31, 1986 (original 35 mm. microfilm)

The ten rolls of microfilm of OPUS 40 of S. Robert Powell are a record of SRP's life from January 1, 1975, when, seated in the Music Room at the Bobst Library at New York University, he began writing PARAGE HARMONIES: A DIALECTICAL SELF-PORTRAIT (written in the period 1:15-1975.- 07-15-1975; published 8-15-1975), up to December 31, 1986, when, seated at his marble top table at Elkdale, he celebrated the arrival of the new year. Contained on Rolls 1-6 (among many many other documents) are all of the published issues of NORTHEASTERN PENN-SYLVANIA (Volume I, Number 1, August 15, 1979--Volume IV, Number 1, August 18, 1982).

- NORTHEASTERN PENNSYLVANIA GENEALOGICAL AND LOCAL HISTORY REPRINTS, Volume I (1981) and Volume II (1982). Original 16 mm. microfilm.
- COMPARATIVE AESTHFTICS: A HORK800K by S. Robert Powell. Published in 1978. Original 16 mm. microfilm.
- 13. THE RENAISSANCE AND CUBIST CONCEPTIONS OF SPACE AND ART IN THE NINETERNTH-CENTURY FRENCH MOVEL. SRP's Oh.O. dissertation; published in 1974. This microfilm is a copy of the original 35 mm, microfilm that is owned by Xerox U. iversity Microfilms, Ann Arbor, MI. In many respects, SRP's doctoral dissertation and COMPARATIVE ASTHETICS: A MONKBOON are the end products of all SRP's formal academic training. They represent/constitute, therefore, a porcrait of SRP in the period 1961-1978.
- PROCEEDINGS OF THE COMMITTEE TO RESTORE CARBONDALE CITY HALL, INC., AND THE CARBONDALE HISTORICAL SOCIETY AND MUSEUM, INC., November 1981--March 1983. Original 35 mm., microfilm.

Microfiche:

PREPARATORY NOTES. 1985 by S. Robert Powell. PM...1978 was originally published in hard cover on 11-24-1978, and covers SRP's genealogical research in the period 11-25-176-11-23-1978; PN...85 was published on microfiche cards (12 in numher) on 07-14-1985, and covers the period 11-24-1978-0-71-1995.

Also contained in 8ox 179A are, among other items, SRP's collection of eighteenthand nineteenth-century American coin silver, SRP's personal lewelry, and momentos.

LACKAWANNA VALLEY INDUSTRIAL HIGHWAY

OUTLINE

OF PRESENTATION TO STATE TRANSPORTATION COMMISSION

Suggested Representative

I. Overview of Problem

- A. Slides or videocassette showing
 - 1. Congestion on U.S. Route 6
 - 2. Trucks turning from Main Avenue .
 - 3. Reckless driving on O'Neill Highway
- Locally-based traffic disrupts thru traffic
 Too many curb cuts and intersections
 - Need controlled access highway for Scranton-Carbondale thru traffic and access to intermediate points
- C. Need access to land locked area east of the Valley

II. History

- A. H.B. 77 of 1965 authorized a study which was completed in 1968. LLTS, in 1970, placed project in medium-low priority. In 1972, LLTS placed in high priority.
- Act 42 of 1973 enabled Corridor Location & EIS, approved in 1977. Final EIS deferred due to budget problems.

III. Inadequacy of Current Facilities

- A. Congestion wastes time, fuel, and pollutes air.
- B. High accident rate on major arterials.
- New facility would involve excess condemnation for service roads and for possible future interchanges.

IV. Land Oevelopment Potential

- A. No access north/south on cast side of Valley.
- B. Lackawanna County Rail Authority is encouraging more industrial development in this vicinity, which generates more truck and automobile trips.

- Eliminate spoilbanks and stripping holes to improve visual image of area.
- V. Land Value Impact

Land values in other areas increased 9.6% within one mile of the new facility. At an average assessed valuation of per acre, we estimate an additional of tax ratables as a result of the new facility.

- A. Impact area at interchange/intersections.
- B. Impact area adjacent but without access.
- C. Impact area beyond abutting parcels.

VI. Financing

- A. Transportation Partnership Act: study requested to create a special district which would qualify for 50% state funds.
- B. Benefit assessments to properties (refer to IV-D)
- C. Tolls
- D. Liquid fuels tax
- E. Turnback of state roads to municipalities
- F. Federal-Aid classification upgrade

VII. Conclusion: What We Need

- A. Updated Corridor Location Study
- B. Updated Environmental Impact Statement C. Study of Developable Land and Impact
- on Property Values
 D. Study of Transportation Partnership
 Feasibility

[SRP and Hank did not play as role at the meeting because the mayor . toty manager () ack Biondans) were present.]

COMMONWEALTH OF PENNSYLVAN

PUBLIC BEARINGS

Pennsylvania Department of Transportation

1986-98 Twelve-Year Program

The State Transportation Commission will hold a series of Public Hearings statewide on the Pennsylvania Department of Transportation's recommended 1986-98 Twelve-Year Program.

The Commission is currently reviewing projects for the biennial update which will be approved in 1987.

The purpose of the public hearings is to afford groups, organizations and individuals an opportunity to present testimony on the recommended Program. A schedule of the meetings is printed on the reverse side of this announcement.

Please contact Ms. Shirley Thompson, Administrative Assistant, 1204 Transportation and Safety Building, Harrisburg, Pennsylvania 17120 if you wish to testify or for additional information. Her phone number is (717) 787-2913.

Dear Mr. LUITUE.

Wonderfull I compliment all those who worked on it for creating a valuable and this will become an annual or at least quinquental project for the society, and as a new member I would be intereated in working as a member of the group which interesting historical record that we can pass on to our descendants. I hope My Aunt, Victoris Voinski, was kind snough to send me a copy of the 1987 Calendar published by the Carbondale Historical Society. It is just published the calendar.

I send my compliments and gratitude to you all, along with wishes for a happy new year.

Judica Juliano Sincerely,

YOUR DROER WILL BE SHIPPED IN THE SPRING OF 1987

THE THIRTEENTH ANNUAL PENNSYLVANIA STATE CONVENTION OF THE

PIANO TECHNICIANS GUILD, INC.

April 2, 3, 4, 5, 1987

at the

SHERATON INN

300 Meadow Avenue Scranton, PA 18505 (717) 344-9811

HIGHLIGHTS OF THE 1987 PA. STATE CONVENTION

Eighteen classes by PTG professionals and piano manufacturers covering all aspects of planotechnology, including tutoring and testing ... Displays by leading suppliers ... Early bird event ... Dinner on the town ... Entertainment by "The Crystal Band of Scramon" ... Reception with open bar ... Banquet ... Prizes ... Chapel service by Bible Baptist College Drama Team. Also a Spouse program which will include Dutch Treat lunch at the Hilton at Lackawanna Station A visit to the Anthracite Museum and into an actual coal mine ... Free luncheon with entertainment and a program on mutrition and napkin folding. Of special interest to spouse and technicians affect ... Scranton is the home of Steamtown, the National Railway Museum.

If you are interested in good food and shopping you are in luck. Modern shops, department stores and fine restaurants are located in nearby downtown Scranton. Outlet shopping is also available in the surrounding area. Or, perhap, you would like to spend some time sking. You'll find plenty of fun things to do in the Scranton area. Remember, too, that limousine service is available to and from the airrort.

"BECAULE"....

Piano technicians tend to be creatures of habit (be it good or bad), very opinionated (my way is the only way) and because of the nature of the work and the large territory they service, they are very isolated. This, of course, reinforces even more the previously mentioned characteristics. Unless you have been around the Piano Technicians Guild, you may be very reluctant to share your trade vecrets. However, you soon will discover that the guild is comprised of many unselfish people who are eager to share their expertise—winply for the asking.

We spend so much time in isolation, doing hattle with the practice plano, to make it "just good enough for Susie because she is only a beginner" that we often forget or do not even realize the full potential of the instruments we are called upon to service. Our customers look upon us as the experts and we have an obligation to give them the best possible service and advice. Furthermore, we have an even greater obligation to ourselves and our families to work to our fullest potential and carability—to work as efficiently as possible—that is to work somatter, not harder.

The only way to fulfit these obligations is through CONTINUINGEDUCATION. This can be accomplished through reading books and periodicals, through regular attendance and participation at chapter guild meetings and, most effectively, through the attendance at seminars such as the Pennydvania State Convention.

This convention brings together the best minds in the business—both factory and independent field technicians as well as outside experts to help us run our businesses more effectively. These people come to teach, to inspire, to encourage, to challenge and to learn. Also, not all of the experts are in the classroom since there is a wealth of information to be tapped in the hallways. However, most importantly, the fearing does not stop when the convention ends. Through many newly-formed and renewed friendships, you are only a phone call away from the technical assistance you may need.

Come in from the cold and experience the warm hospitality found at the Pennsylvania State Convention, held this year in Scrauton. PA, right off RE, #81, Evit #82, April 2, 3, 4 & 5, 1987. Jim Hess.—South Central Pa, Chapter Pa.

As Erma Bombeck recently stated in her column:

"Basically, there are three groups of people in this country,

There are the Do-ers. These are the disciplined people who have order in their lives, make goals and live by their commitments.

There are the Do-nothings, who are disorganized and stumble through life putting everything off until next week.

And then there are the Do-wah-do's. The Do-wah-do's have motivation right up there with Lee locacca, "sey have the goals of Mother Theresa. They have the fire and eithusiasm of a Sunday morning electronic minister. But they conduct their lives like a maestro with a rip in his pants and a zipper that is stuck. He doesn't know which way to turn."

However, fear not because everything YOU need to get your hit, and your business moving in the right direction will be under one roof at the Pennsylvania State Convention in Scranton, PA, right off Rt. #81, Fxt #82 at the Sheraton Inn, April 2-5, 1987.

This convention has a reputation for excellent technical content and variety with the best instructors in the field. This year is no exception.

See you there!

The Takach Gravity Railroad Car will be sold to a man from Hawley who will use a fork-lift to get it out of there, and he will give Takach soma money for it, and Takach will give the money that the guy gives him to the CHS &M.

That is what Mr. Takech said this murring, February 12, 1987, when he pulled into the yard at The Homestead in his blue van while I was out in the yard just finishing with the taking out of the ashes.

I have met Mr. Takach before but I wouldn't have known who he was had he not introduced himself to him. He began by asking if I were the one who was in charge of the Historical Society. I said that I was not but that I would see the person in charge.

He said that he figured that it would be better to have the railroad car taken out of there in one piece - or as near to one piece as they could do it - than to have the CHSAM disassemble the car for pieces.

Takach was glad that the car was being taken off his property. He said he had things to do with the land on which the car now sits.

Duf in Doy 161

This is good news. The CHSOM
does not have the resonner at
the moment to "presence"/restore"
the takan car. Tant miery that
Bot Stan will do so. The important
thing is that the car be restored.

Exploring the Traits of Twins

A new study shows that key characteristics may be inherited

ike many idealiscul Iwans reared apart. > so far may not be strictly accurate. In gen-Jun Lewis and Jini Springer found shey had been leading eerily similar lives Separated four weeks after birth in 1940. the Jim twins grew up 45 miles apart in Ohio and were reunited in 1979 Eveniually they discovered that both drove the same model blue Chevrolet, chainsmoked Salems, chewed their fingernails and owned does named Toy Each had spent a good deal of time vacationing at the same three-block strip of beach in Florida More important, when tested for such personality traits as flexibility selfcontrol and sociability, the twins resnond-

The two Jims were the first of 348 pairs of twins studied at the University of Minnesota home of the Minnesota Center for Twin and Adoption Research Much of the investigation concerns the obvious question raised by siblings like Springer and Lewis How much of any individual's personality is due to heredity?

The center's answer about half The project, summed up in a scholarly paper that has been submitted to the Journal of Personality and Social Psychology is considered the most comprehensive of its kind The Minnesota researchers report the results of six-day tests of their subjects, including 44 pairs of identical twins who were brought up apart. Welfbeing, alteration, aggression and the shunning of risk or danger were found to owe as much or more to nature as to nurture Of eleven key traits or clusters of traits analyzed in the study, researchers estimated that a high of 61% of what they call "social potency" (a tendency toward

leadership or donumance) is inherited, while "social closeness" Ithe need for in-'imacy, comfort and help) was lowest, at 33%.

The study finds that even a penchant for cona genetic base. One of the eleven traits, iraditionalism trespect for authority. rules, standards and buth morals), wes discovered to be 60% inherited Among other trusts listed at more Ihan 50% were vulnerability or resistance to stress, dedication to hard work and achievement and the capacity for being caught up in imaginative experiences.

The director of the study Thomas Bouchard. cautions that the numbers

ce tends to be around 50%. Artisbuting the 28-point gap between potency and closeness to possible sampling errors, he predicted that "social potency will drop and social closeness will creep up "

All the twens took several personality tests, answering more than 15,000 questions on subjects ranging from personal interests and values to phobias aesthetic judgment and teler uson and reading habits. Twins icared senerately also mok medical exams and intelligence tests and were queried on life history and stresses Not all pairs marched up as well as the two Jims California Twins Ann Blandin and Bai bara Parker 40, showed only minor similarities. Said Blandin. "Bouchaid. said we were the most different set of twins in the study

Psychologist David Lykken, one of the Minnesota researchers, thinks the study will shove the pendulum further

Jim Springer and Jim Lewis: blue cars and two dogs named Tay Speaking as if nurture were a by-product of nature

away from the "radical environmentalism" of those who believe the characters of children are more or less created by their parents and environment Tykken says Test Pilot Chick Yeager is during because he was genetically endowed with a low scale of fearlestness," a trust that might have been redirected or temped down but not endicated Says Psychologisi Nancy Segal, a member of the project. Pareum can work to make a

A dam Matheny of the Louisville Twin Siudy the oldesi of U.S. iwin study groups says the "mechanism for change is laid down the moment a child is conceived" and that the genes provide a rough sketch of life Some psychologists who sitess the influence of genes on be havior often speak as if nurture were a byproduct of nature 'All of us make our own environment," says Developmental Psychologist Sandra Scarr of the University of Virginia Lykken makes the same point. 'The environment molds your personality, but your genes determine what kind of environment you have seek and attend to Since the early 1960s several Iwin studies have reported that identical twins reared a part are actually more alike than those raised in the same home. Scarr thinks the reason is that parents faced with identical twins try hard to stress differences between siblings. Says she "Living with the same family seems to increase intellectual similarity and decrease resemblance in personality

Some scholars, such as Princeton Psy ebologist Leon Kamin, fear that the Minnesota results will be used to blame the noor and downtrodden for their own condition. Political liberals have long believed that crime and poverty are largely byproducts of destructive environments. As a

result, they are usually suspicious of biological or geneue explanations for behavior 'These are very ambiguous data that can be interpreted any wey you want to,' says Kamin "I ne not saving that anyone is falsifying facts or anything just that we really know very, very little" For the Minnesota researchers and their allies. however, their study is just one more proof that parenting has its limits. Says Psychnlosist and Twin Researcher David Rowe of the University of Oklahoma Parents should be blamed less for kids who have problems and take less credit for kids who turn our By John Lee. Reported

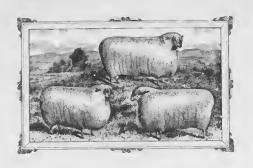

by Elizabeth Taylor /Chicago

Trends in Twins

Your article "Exploring the Traits of Twins" [BI HAVIOR, Jan 12] cites reports that twins reared apart are more alike than those brought up in the same home The reason given is that parents stress dif ferences between siblings As a twin, I can tell you that in addition to parental influence, there is a compulsive force in a twin to develop a unique identity. Thus twins raised together have an unconscious desire to emphasize individual personality traits that distinguish one from the other Shurer Epps

City historicel society will meet February 19

The regular meeting of the Carbondale Historical Societ, and Museum, Inc., will be held on Thursday, Febraury 19 at 7.30 pm. in room 30 of Carbordale City Hall On the agenda will be finalizing pl. and for the celebration of the Beentennial of the Constitution of the Beentennial of the Constitution of Chief Styles All members are u jed to attend and the public is "ays welcome."

Carbondale Masonic Lodge Free and Accepted Masons

The Carbondale Masonic Lodge No. 249, Free and Accepted Masons, is the local organization of the oldest, largest, and most widely known fraternal organization in the world It has its roots in antiquity and is streetly descended from associations of "operative masons," the cathedral ouilders of the Middle Ages who traveind through Europe employing the secrets and skulls of their crafts. The organization as we know it today began in 1717 In England where cathedraf building was on the decline who were not members of the "speculative masons" or "accepted Masonic Temple, Salem Ave

Freemasoory is not a beneficial society, but it does offer various Joseph Lee Shust, senior warden assistance opportunities to its Jeffrey Lee Davis, junior warden; members The fraternity also has John P Zickler, secretary, and many charities which are not Ronald A Comunale, treasurer For restricted to Masons alone The more information about the Grand Lodge of Pennsylvania, for example, maintains the Masonic Yepson (282-5151), or Joseph L Stust Homes at Elizabethtown, Penn-

sylvania, for the agnd as well as for children Also, through ragular contributions to the Grand Lodge of Pennsylvania, Carbondale Masons contribute to the aponsorship by the atste organization of a program to help rehabilitate those with drug and alcohol abuse problems

In order to rame money to maintain the Masonic Temple, Salem Ave , 'he Carbondale Masons annually sponsor in February a spaghetti dinner at the Masonic Temple The dinner this year is this Saturday, February 21, from noon to 7 30 p.m. Tickets are \$4 90 and are available at the door, or beforehand from any Carbondale

Three distinct and successive levels exist under the general category of Masonry. Io Carbondale these ara: Carbondale Lodge No. 249, Free and Accepted Masons, Eureka Royal Arch Chapter No. 179; and Palestine Commandery No. 14, Krights Templar

The Carbondale Lodge No. 249, Free and Accepted Masons, was unstituted September 11, 1850, and and the "operative masons" or "free this fail will be 137 years old masons," as they were known, Currently this lodge has 130 members started to accept as members those on the books and about 25 attend the monthly meetings held the first prasons' craft, calling them Wednesday of each morth at the

The current officers are Howard A. Yepson, worshipful master. organization contact Howard A (262-5157)

Chamber compiles city street map, also unveils its newest logo design

Commerce has announced the initiation of a new logo for the local chamber The logo is featured on the

new Carbondale city map and directory, which is the chamber's tatest project.

Designed by local printer Tony Cuce, the new logo venually depicts two of the area's historic landmarksa coal mine and the gravity ratiroad. The banners surrounding the shield aunounce "Carbondale Area Chamber of Commerce, Birthplace of Anthracite Coal

Termed black gold, arthracite coal was discovered in the area by William and Maurice Wurts in 1814. The brothers formed the Delaware and Hudson Canal Company, the first

The Carbondale Area Chamber of million-dollar privately financed enterprise in the young United States, and built the batoric Gravity Radroad to transport the coal from Carbondale over the Moosic Mountains to Honesdale and on to the

New York marset. When the railroad and care I was complete it was looked upon as a marvelin on il engineering. and even now in these days of great achievement, it is referred to as one of the wonders of engineering skill, The logo will be used on stationery,

maps, and other items published by the chamber Vice president Ted Daniels stated.

"We are excited about our new togo as we feel it highlights the rich heritage of the area. We believe that the symbol will enhance the workings of the Chamber

Chamber secretary, Joan Conner, is responsible for the new city map and directory Over 120 stems are identified aed coded by location in the Carbondale city mformation inuex Some of the categories included are the following churches, banks, government buildings, health facilities, industries, schools, recreation and parks, shopping areas and public housing. A Carbondale city street index and fire directory are also included. The map indicates major highways and all streets in the

Carbondale city limits The new Carbondale city maps are for sale for \$2.00 at the Chamber Office, second floor of City Hall Carbondalean Pat Grandmetts designed and produced special wooden daplay bestes for the maps which are now available at the following city locations: Convenient Food Mart, Salko's Sweet Shoppe, Shaw's Stationery Store, Animal Crackers, AAA Motor Club, Mc-Donnell's Restaurant, Gilpin's Decorating, and Northeastern Bank The maps will be available at other locations in the near future

Area citizens are reminded that the chamber is here to serve the people, businesses, and industries from Forest City to Jermyn and Clifford to Waymart. For further information about the Chamber's services, call the office at 282-1690. Tuesday through Friday, 9.00 a.m. to 2:00

now use of the word "still" in the beastine in very act to work think it was a greation, for lyample, as a plague that referent to pass.

Dear Stan,

Thanks for your letter of 12/16/1986. Congratulations on your election as Secretary Tressurer of the FTA for 1987-88. I would say that the FTA member -Hup made some very good decision as to its affirem and bond of director for the current year. Hopefully, the FTS/ Richard Seatings dust has all settled by now, and things well return to normal once again. I have no intention of becoming a member of the FTS, and assume that most FTH member feel the same way of was pleased to see tent there was not an ad for the FTS in the February 1987 issue of the APJ. Perhaps tue FTS has figgled out by their time? I wanted very much to attend

the Grand National in Downingtown in January, but two feet of perhonour a day or two before the show made it all but impossible. Betting as far as Carbondole was even a problem. I wouldn't be surprised if the houible weather Abroughout the Eastern United states had a serious effect on attendance at the Grand National. liver ym and the Bryshore delegation able to get to Downingtown? Was there a meeting of the FTA at the mand National?

Siven the fact that you have been breeding and flying tipplers for 17 years, and given your successes in the sport, shouldn't you take credit for your accomplishments and successes by declaring your family of tipplers to be a recognizable strain? I'm

I immediately said to myself:

"I keep the ogozalek stram."

my hest burds - and the only ones from which I will breed their you are from you, and thanks to your careful records, I know their bloodlines. FTA-85-340, for example, in 1/2 Carnew (FT4-84-63) and 1/2 Hughes (FTA-83-4251). FTA-85-350 and FTA-85-3877, for example, are 1/2 Hugher (FTA-83-4252) and 1/2 Carnew (FTA-82-515). Those three burds - 340, 350, and 3 P77 - are not bugher birde, non are they Carnew birds. Nather, because of Consciour decisions on your part, they are ogogalek burds.

I mated my buds on 1-24-87.

Just as the hers began to lay and insubste their eggs, we had a week or two of extremely coel weather (-28° f one morning and

around zero much of the time), and of was somewhat appreheneine about these round one eggs' hatching. But the bush broaded well then eggs, and the young are now besteving—
100% success their for week noticing and no infertile eggs. I am very pleased.

I look forward to late many and larly april so that I can get my yearing birds into the air. This year I will enter all of the FTA flys (on the honor system). Twen their performance last Fall, I am fairly confident that my burde and I will be able to do at least 10 hours during me of the Spring flys. he Shall see. I realize that 10 hours is nothing to bray about, but that's my immediate objective. after my birds cross the 10-hour

bridge, I will shoot for the 12-bour mark and beyond.

This year of will also make a concerted effort to locate other pigeon breeden in the area. There must be many fopefully, I will be able to stin up some interest in the flying tippler sport in northeastern Pennsylvania.

Sovert Powell

mercifully, us substitute calle came in their morning, and so of remained a - had until about 10:38 A.M., and got some very much needed rest: went into town and deposited the BBC money from Junday Anna Margaret "Nan", and returned to the via forest city Aris Margaret ("Non) where d stopped at the Hig Chief Thacker, Frederick, MD. Where d stopped at the Hig Chief 1937 Joe Vite and got some gracuies.

at mid-day of had a sumption breakfast of Country sousage, bubbard squash, and, for dessert, a couple of paricoker and maple symp and espresso. Such lupury: a frenzy of Spring Cleaning then followed: defrosted the refrigerator of tuned it back on and moved the finduler from the entire hall of the "box" to

the refugerator (all winter long & have used the entrance hall to the boy as my refrigerator - tre temperature was about 40 there), put away about three dozen empty quart canning fors; swept and dusted and organized all through the kitchen. Went down to the Tinker creek and get a couple pails of water of went and gave bates from to all the tippless - almost all of which batued vigorously. Checker all 8 young tippless, which are doing beautifully. came in I had tea. Mrs. allen called + asked me to substitute tomorrow at LHS.

The French word for "breakup": originally borrowed by geologists to describe the violent rush of water-borne stones and other debris that follows the sudden breakup of ice in a river during an early spring thaw.

Today was surreday 115 for LHS, which mean that time are 65 more days of stures their year. SKP has put in 69 there for, and womes like to put in about 40 more, which will provide a Certain cash reserve for the summer. One of my summer-time projects will be to paint the exterior of the Eekdale Daptist Church. I also have to pay for microfilming of PN... I... 87 and PN... II... 87.

3/4-"The main Hale, from the Entrance Hall, Eckale, 4:28 P.M."

Substitute day 69: LHS/ISS. - Cuchnesday EPJ, je pense à vous ... " Without any Abraham Lincoln maugurated President of the United States, 1861 doubt, Eleans Jones was one of the most Eleanor Pritchard Jones influential people on SRP during him formative years. What are the qualities of EPS that attracted SRP to her: her "auntie mame "enthusiam, her elegance, her in-dividuality, her sense of adventure, her passions, at the same time, she was always very interested in us kids and months mutt, always made much of our interests, and enthusiasma. SKP war 27 when EPJ died; EPJ was 60 when I was born, and probably about 70 before & really "appreciated" EPI's qualities. when the children of DWP Holly are about 10, 5RP will in his early 50's. I hope that of Can have an influence on the Children of OWP and Holly that in comparable to the influence that EPS has on me. Bandes from more tipplen this afternoon: 350, 351, 360, 361. de will have one or tens yellow or red or very light colored bride from the round one distelling. That afine, but & do want some the Thore. clarked DWP their evening if he wanted to participate in the 136 to butleday celebrations for Cartonidale on 3-13-87+ to said yes. as last year, is will read the section on the origin of the name Cartondale." at a CHS+th work session tonget, Hank, 5854 SRP collated 400 Capier of I, 2 of the Newsletter of well staple teum at From missa, the Latin word for "sent," in the CAHS Tomonow, proclamation Ite, missa est contio ("Go, the possibly at about congregation is dismissed"), signifying the end of the service in the Roman Catholic Church.

3/5- "cleicles on the Dundoff Inde of the Elddale Bystist Church, 5:15 P.M."

The year have photographe there for the year have been are afternoon photographs. For at least two reason:

(1) I am in various high schools during the day and don't the time to take maning and larly in the day parts;

(2) afternoon in more my time of day than morning. Very probably of will take more morning photographer during the summer than during the winter. On neura.

Thursday Hairent at Blanda Meckon at 11 A.M.; while there of learned that her folian has purchased the former Willotta in restourent. That's good never went to CAHS and stapled 400 copies of the CH5+M current newsletter (T, 2). Boston Massacre, 1770 Dundaff incorporated as a borough, 1828 mr. Seavo was very belighed in Alice Catherine Rowland making available the saddle stapler a student, for how, voluntered to help & daccept the after. met Holly at 1PM and we went to Seventon and I did errande: purchased 50 ebr of pegen canter leck; drapped of a roll Short for "Canterbury pace": the leisurely style of of film at Camera horseback riding adopted by pilgrims on their way to Canterbury Cathedral, where Thomas à Becket Efelianze; purcuand had been enshrined 50 years after his murder there in 1170 for defying the king. Chaucer later detailed a couper of pean at the pilgrims' journeys in his Canterbury Tales. the Eyron Drug Plane, I puted up the 2 sproon at CHSf M meeting - 7:30 P.M. Shadengravea. very pleasant of productive; clearly the most pleasant meeting in years: no Tomaine of us keepen. John a menter will be parted down sellimentely. When the meeting was one, we follest stuffed and prepared for mailing volume IT, humber 2 of the CHS/M Newsletter. We now have over 150 members in the CH SIM and that is excellent. DWPI commemorative of will present the trop spoons to OWP & family this sunday of trunk - spoons made by Hall & Elton in Geneva, NY, about 1841.

Chour member to participate in the assembly program on 3-13-87the specific number as not yet fixed but they will participate of that will be good. Maurien seemed delighted to be asked.

mornably in the first to spot migrating geese in the Spring. Again then year, he was first to the cartonade News — submitted my "great editorial" entitled "a Terme for Reflection"— which will happefully be published in the News of 03-11-1987.

5KP put out 6 say "pair" at the Boy come; did so trught at about 10 P. M. on my way bick to Elkhal from Carbondale, When I had the

parasite

Literally, "one who eats at the table of another": coined in Greek from para ("beside") and sitos ("food") to describe the perennial guest who fawns over his host in return for free meals.

my way back to , Where I died tere BBC Bulletin for after tomanow. I bourned a brace and but from the Buberniak woulded in order

to drill the holes. The brane i but at the Bref Counce are not in good order. I topped there to the treather their breakens the weather their weekend is supposed to be beautiful, and the sap swell really flow. On were a fin all set. Temperature are expected to be in the 60x of 70x this week and.

3/7- "Springtime at Tinker Creek, 3:00 PM"

many first of first gere, first sop in first laundry in Timber Creek for the year. WSP sour a reben today; 5 kp heard a large flock of gere fly over the Church at Elkhale of was Cleaning out the tipple lofts at the time. The sound of gelse calling out as they fly over in positively electryging—it carries me best to ager primeive to forward to the distant future ... and the earth abodeth forever.

Cleaned tippler loft - now that the young but are growing by leaps and bounds, the laft needs constant Cleaning. The young birds are beautiful: blue born and red Juggler and other colors that have William Morrison (Mayor of Carbondale, 1874-1875), i843 Heard, but did not all, geese at 11 A M. Saw See 'How to Read this Calendar" on centerfold several surgrating red tail hawks. as set the tipplen - "keep going with howfe, don't wille down in this area" - or s'el get you. The other day & saw a red tail in the " tree from the african plain" up by the Harved Kare place. - Collected 5 gallow of sag at 5P. M. - a very balmy and heartiful spring day and tel sop really flowed - temperature about 60 °F.

There are many pleasures associated with doing my laundry in the Tinker Creek and then havying it on the line to dry - one of the

noisy

From the Latin nausea, or "seasickness": the cause of loud groaning and other unpleasant sounds as ancient ships rocked their passengers to and fro on stormy seas.

great pleasurer is the smell of summine and fresh air in the clother, especially bed sheets Unbestable!

Glanty Railroad presentation to Couples Club at Presiferian Church _ by SRPS VB. PWPS family of the yearn of Swan Hypering present. Small and ence, but very appreciative. We were a grand success. as we left the prohyterian Church, JVDJ of beard a flock of glesse flying our Certifical. Primeral. Wonderful. as execting as the Sound of a train whatle in the night.

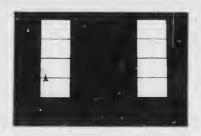

BBC money - 55-16.14. < E-795.10; Sec. Pl-470; Comm. -8.00; SS/M-1.79; M-99.75; AMC-25.00; 129.00-000gan. Talal: #1079.48

- collected 7 gallone of sap today; WSP saw a floor of blackburs, a Kinggisher and two purple mattern. The timber a went down at about 4 PM., the water was very high and a had some sufficient getting into the creek in order to do the fruit launchy in the creek of the season—which is always a big luent for SKP. I being the west on the live and it dired out over night of brought in the launchy today after I took the 4 P.M photograph.

3/8-"The first wash-on-tre-line of Spring, 4:00 P.M."

To course with OWP and family at the First Board of Managers of the Delaware and Hudson Canal Company was elected, 1825 Oliver Wendell Homes, at me Donnell's Restaurant with the Gepson. We attended the service in 1841-1935 the Presbyterian Church to hear Holly perform with the Sell Chair. Very ethereal while there I went over and "pail my respect" to the John pellar, which wan a bran plague which reads as follows: "Samuel Sheldon Jones! Margnet Gellespie Rusell" - now d'in nat sure, maybe it read "Samuel Sheldon Jones! Margaret Kussell Jones." Following Church, we has a very leisury and pleasant luncuers of French toset and coffee & saveage and so in at neconnells. at 1:30 P.M. we returned to the Golf Course, where I make plans for my first "boiling down session" of the sesson. The first denner party of the season in the great ball " - SAP, DWP and family, fank lafter. I made a couple of calls and that was that, at 7PM my queste armed . Dwp. Holls, Dwp I Hank lafter. ine had a heritable pat luck Formerly, the manners of the court, where those in dinner : d boiled attendance to the king or queen practiced all the latest some vermicelle + refinements (including the curtsy, a shortening of courtesy, which signified acknowledgment of higher rank). apenes up a quart of my our tomato sauce; I apened up a quart of my pikler; OWP brought some Skilton Cheed; Hank brought some meatballer + 7-up and potato Chips. I made some Irish soda bread. We had a ground time and dired at the table in the great hall. It was very computable temperature outside war near 70 °F.

3/9- "Two of the three Elkdale Windows of the Church, 4:40 P.M."

demonred the morning much to my chagin, that the rabited that her specit the hunter under the Church, and where I have been feeding whale cours, was cot mean the current the other day. The rabbith's throat was chemed at and bloody but the rest of the body was untouched. I buried "the rabbith under the snow out in the back meadow.

Collected theree gallow of say; bailed down all the Sap from Saturday, Sunday and today (a total of 15 galloon) and the yilld in 31/2 quests of syring; a small amount of boiling down lear yet to be done and so I will get about 3 queste of saying when tell boiling dolon in Jim Rogari completed. The boiling down took place in the foundation of the "Bray "To be a really good historian is perhaps the rarest of intellectual distinctions". Thomas Barn's new good spot - the well of Macaulay under the boiling pote and the reductions" was accomplished Same difficulté. and worked, is less than 10 flocks of glesse flew our wonderfully primeral Eautime. I ran into the leouse and called out "Been" or "another flock of geese." Oup & Oup To come out and so did WSF of also heard a

Kilden and sow my fact robin of the year, hears a song sparrow singing trumphently," and announcing spring; the "regular" winter buch were all still about

WHAT'S IN A NAME

After finally defeating the Romans in 279 B.C., the Greek king Pyrrhus summed up his long campaign with the words: "One more such victory and we are utterly undone." In fact, so depleted were his forces that even today the term Pyrrhic victory is used when the price paid for success is greater than its rewards.

Well went into trom at noon and she made the BBC deposit for me Pring one og my "in the hour breche" from the boiling down process.

WSP seved lunch: Sawtaut with studed tometer on top (a new WSP favorite) and pigs' feet. I wan very hungy due to my work somme at the say house.

730-11PM-CHS M work sering in 302; JJK, Howk and I sorted through about I large bother of paper from church C. Wise - mostly Junk but we did sows some through to send to alive huntorical societies - things out of scope" for we.

This photograph was taken as a stood on the stone was believed the Henry H Hadsell stone, and looked down the hill towned the grant maple tree. That the could lookly take four or fine tape for maple sape beliage next year a will tap the maple super here as it is, a do my maple supur aperation at the goof course, but I could just as easily do it here. One of the pleasurer of doing it at the look course in that it gives pleasure to many family members.

3/10 - "Light and Shadow in the Elkhale Cemetery, 5:30 P.M."

Substitute day 71: Muss Derwinski /CAHS; ar & pulled into the faculty parking lat Death of Issue Finch named), 1848 I saw a herry guel on the laws by The least N Nevmour, a 4-4-0 D&H locomotive, bleve up at Carbondale, 1878 the swood. Very vorumal one date not He.r. Elizabet see them in the area very after. Spent the day calching up in my Journal and also arranged a reheared for the 7 to grader during 10 th period lue went into the auditorium of used the munghoner. Such linery Things are falling into place nicely for the 123+ butuary celebration on 3-13-87; tomorrow I will produce the program and tent will be that; I will put together my remarks of then it will simply be a matter of doing it. Comedit alive "ashleigh be ground of SR Paul company! - ordered 15 fames chuckens (day-ald Chicks) from the Hoffman Hatchery, Gratz, PA 17030: \$3.95 \ 5 - Pariss from Leghour - 11.25 \ 5 - Lakenvelder - 11.25 - paid with curck 709 for \$32.40; Clicks are shipped between april and dugust. Now of shall have to construct a ben house. It occurs to me that I could attack a very suitable her house to the back wall of the Church _ something 4' X 8' X 5', with a sloped roof well of construct a yord or allow the birts to run free. I am very melined to allow them to run free but wonder of From comes stabuli, "count of the stable": the officer in there will be a charge of the king's horses in ancient Rome; later a title accorded to managers of royal households, wardens of predator problem medieval fortresses and, ultimately, enforcers of the law.

3/11 - "The Sitting Room, Echdole, 12:40 R.M."

no substitute calle and as I remained a - bed until 10 A M. Fed and sostered the bush and then drew up the program for the Charter Day program on 3-13-97, including my remarks. Londer about 18 large logs into the trunk of the Con and transported them to the Golf Course and put them at my maple symp fire-eite. Bothered up about 5 large arms-full of brancher and sure and took them from the word pile up by "the owners" to the fire-ate.

Carbondale
Distalay
Celebration,
3:236M."

The romay the greacepoint, the smell of three Crowd"— Susan originally suggested that we make in the Saint Patrick's Day Parade in Scientism on 4/14, I wan somewhat reluctant until Late the afternoon when, swept up in the exitement of the triumph of the 136 to Celebration, I concluded that perhaps it might, after all, he a good idea to make in the Parade.

Substitute day 72: Mr Golecki, CAHS cet was late (8:30) when I was called Turnpike incorporated, wagner war by Karymarik to substitute for Goleski. Davidow Melissa Villano is matter of annex at the beginning of 2 ms period and went about making final preparation for fere assembly until 3rd period, at which terme & took over for Golecki. What an unusual phenomenon: 5. RP will be paid for doing a CH5+M project Carbondale & 136 to birthday - a grand success male accounts. Ton Browning substituted for mellow - otherwise everything Came aff an scheduled in the program. see program that is pasted down here. The audenie consisted of the 7th & 8th grades. Twelvey in were seated, in a semi succe around the lectern, on the stage: the seven The graden on one side and SRP/ Charlotte money Ed Stoback/ Tom Growing & Dup on the other side. He CAHS land was in the pit. Paul Kaczmanik substituted for marty lawler, who was not in school Paul did a splendid job. much better than marty would have done. Two affectal photographs were taken by the Secution Tubune: the seven 7 to graderet two solveste; the adults: browning. Stabuk, mors, Bernadette Legre, Maurien Mussari, Jum mes myre SRP & Dwf. I will get printe of both what I says now do in an extensive write-up In the Carbondale From iynx: the Greek name for the "wryneck News of 3-25-1987. bud," a relative of the woodpecker. Noted for an odd habit of twisting its neck, the bird was once used in casting black-magic spells.

108M-Coon huntern — Yelpring hounds
where sounded like the standard
move version of "blood hounds
pursuing a runaway slave." I went
outside and sour, somewhat to my
surprise, a flash light in the
woods believed the Tinker Creek.
Ten minuter later of went out again
when a can pulled into the yard. I
war relieved to learn tray week com munter.
WSP sow a bluebud yesterday and the back
lagle today — the bush are returning
quickly now. My favorite are but song
sparrows, which have the habit of
sitting in the sum of songing their start out.

3/14 - The apple Meen wash Stand from the Runner Estate on the Front Stone at Elkhal, 4:40 f.M."

Saint Patrick's Pay Parode - Scienting - Junan B Stephens & SRP Marched with the Carlondale Riverem and represented the CH 54M: Susan ar a Calonial dame of 5KP ar abreham tomach. mom's poternal grandfather's mother. Death of Christina An-derson (m. John Russell), linelo Jim (luceband of Wife sister Lillian) Saundra Crocker Lasky Death of Henry Joseph Loftus, 1932 Tom malenchak - he was along the parade route and made a special part of saying tells. It was in the program yesterday at CAHS But abbott-kofC, from Elkdale - Susan & d went into the Suld "on Mulberry Street to "freshen up" before the Parale of there were Many member of the Knight of Columbia there, including Bus about who lives in Elkhole and recognized me. Places my order today with Hoffman Halenery In 5 brown leghorm, 5 lakenwelder and 5 buttercupe - all day sed Chicker, where were he suggest probably in agril. I shall been to construit a brooker but for the Chicker and then a hen house. Such fun that will be. Kaising birds in one of time great pleasurer of my life. What d Should be in a curator of ornithology at a major 300. I cover do wonden in that capacity. Sucan of of marched ahead

From paraiyan, the Tamil word for "drummer": formerly, a member of southern India's Paniah caste, who served as alwaes to the higher classes and also played the drums at certain festivals; regarded by the British colonials as having no caste at all and thus existing annar from society.

me carried the city

of the CAHS Band.

3/15- "The Darn at the Homestead Golf Course, 7:45 P.M."

shave been ready to "boil down" sap for several day now - teve five, in all land and ready to go, all I need in sap. he western conditions are not expartly right - it is too cold during the day. The sap rune a little but "not enough to speak of," as more would say. No matter, the correct western (freezing night + above-freezing + warm day) will come, and I shall "make hay when the sun, shiner, "so to speak.

SRP, DWP, Holly, OWP IT, man & m. Brown tall attended Church at the BBC. DWP IT de sint." a very nice experience. We all plus time yesom, then went to Ros-Alf had our photograph taken and then went to breakfast / lunch at corporated, 1861 Hildegaarde Lacey me Donnella Restaurant. Catherine Hepburn Jay J Sara 1918 Danielle hyers, 1975 of presented DWP I and has parente with the two Hall and Elton coin spoom today: I left the wrapped parkage for them at the Dolf Course after they has left the Dolf Course and went to the Currin for the "deducation." Following the luncher, HERP & d went down to Pagin so that mom could see Pegh new from the lumbers of went a Philadelphia Sap: 7/10-4/15-4 gallow to take Mr Brown home - and so d don't know when DWP & famely opened my presents to them. I'm sure that they will be very pleased with the spoone. I counted the BBC money at the Golf Course and watched television with morn and Dad. The Bereau Baptiste gave # 933. 41 today: 55-17.61, Bulsing Fund - 1.00; CE- SPANIEL \$690.35; Comm. - \$5.00, 55-M-11.95; M-89.50; From the early French espaignol, "little Spanish dog": one of the hunting dogs, as the AMC-70.00; organ-58.00. cocker for chasing the woodcock and the springer for flushing out, or springing, game. It's blen a very buy welk and I am tired. If any substitute Calls come in the morning, I shall accept the first after.

CHS+M work session - 7:30-10PM.

Swan Stephen, Hank lofter & cl,
among ather things, drew up
plane for an assembly program at
CAHS whice we shall call "The
Living Constitution." he Source Stulies
music, art & directive art algoritments will be involved and about
60 students. I will talk to the
appropriate people at CAHS at
once.

3/16-" SRP's words, as lean from way
Up in the Back meadow, 5:15 P.M."

no substitute calle, when surprised 16 mo; and so I got up at 9:30 A.M. + bark myself after & per and watered the buse. I went down to the Tinker Creek Keep your mouth shut and your eyes open and filled the birds' water pails and all some medimentary battin in the way water The creek in don't half open now and about normal as far as went into town and deposited yesterday's morrey from the BBC and then went to see Suchnick about Majeleword Cemetery: The complained endlessly, as in his won't and made demands and threate of soon - the usual Very tedione of will Call a meeting of the mapleword Cemetery association in the next couple weeks, and we shall sort the whole matter out. Went to Host Lumber and purchased say 2"x2"x8; while of had Cut in bay. Returned to Elkholiand Con-Literally, "to kidnap"; from the Latin playa ("net"), which led to plagiarus ("one who structed, using largely absconds with another's slaves'') and finally pieces of 14" plyword test to the English word plagiarist, which was originally defined as "book-thief." I had m hand, an excelent brooder for my 15 ordered Chicks. all I need in a heat lang, and of small, he all ready for the Chicks. I will go to agray and purchase some "Chick starter" and a waterer. Very exerting windy and Cold. My leaver flying about. Is it late Face on early Spring:

3/17 - "The Lyne Table on the First Stone,

This is the 3 nd time of have photographed the lyn table. In the 2/18/87 photograph it doesn't show up, even through it we not was not intended to be the center of attention in that photograph. In the 2/18/87 photograph it was intended to be the main attraction, but the photograph is not a success. Perhaps it is because the print is so dark. I'm fairly certain that the table will "show up" very clearly in their photograph taken in the morning sun. on vera.

again, no substitute calls. I am beginning to feel a bit paramord about my underuse by the area's seconds. Spent the maining at my dock, writing on my In the afternoon is fused with the Atkinson, was born in old log house,"1823 buch and did somo yard work -Tommy Judge Cut down many of the hundreds of locust sapling that have spring up in the part coups year Strong made wind blowing and so I dended at about IPM to do a laundry in the Tenter Creek - the real reason of did the laundry in because of wanted to water the clother flag in the wend on the line. No shelle were cracking

and enapping to the wind of sun and were day in about an hour. Such layung I for sun and were in the clean laundry. For the rest of my life of lovel dry my clother on a line in the sun.

at about 5 PM & went to the Goy course of calleded by the sage - about threegallow. In a day or turn, I will have a boiling down session. Fest watered OWP's but, battered to drank some tea as a watered the lowning

and it was a great to Notless during true Ind movement of the Berthonen of trumpany no. 5 th Holly + Durity and cuts the latter.

swagger

From swag; a bundle of personal belongings or, colloquially, a sackful of stolen goods carried off from a burglary; hence, to swag, or "sway from side to side," as if supporting a heavy load.

Lalph Lity - French Grun, Crystal Sand - an usher lat the mason Temple. He grelted me on the way in. I didn't recognize him and went back and asked him her name. A new gry. On our way home from the concert, we stopped at the Hurger king mean the Viewment Mall and had some refreshments.

A very pleasant livening out.

- Horrible day at CAHS. students very rowly
- CHSAM work session: preparing the Preservation week exhibition in 301

JUB arined in the middle of the work serving. JUB: "You come in body told me about their work serving." "
SRP: "Un die on moneay night."
JUB, af cours, had no possible reply.
When well be grow up and accept responsibility.

3/26 - The Gallon Juga Containing the Symp made on 3/23 (3/2 quarte) and 3/25 (4 quarte), 4:45 P. M."

Substitute day 76: CAAS/Mr. Wasserman Very mild weather and ther morning, for the first time the year, I bathed without turning on the electric radiator in the box." Soon of shall be able to bathe in the autrance hall- patienen - and then in Turken Creek. John Peter Carney, 1836 Saint Joseph's Hospital opened in Saint Rose Convent Building, 1926 The day at CAHS was homale - the Ann Kelly, 1937 students were very disagreeable of bouterour - largely because of Spirit week,"

which, in the students' opinion, given them the right to do and say anything that they Choos, at any time.

The highlight of the day was clearly the CHSAM worksession in 301, during where John Klankelever, Hand lofter, Jim / Jepburn

and I dismonthed 301" and began mounting " Recent acquisition," Whice well be opened during Preservation week. It's very good to have the museum aspert of the CHS+M in full aperation, and we shall have a lovely exhibition to open to the public -

Twen the mild weather, I moved the Hanseveria & Chrysanthemum Plants from the box"into the Treat Hall about a Lozen Laftodila & narcissue are now declaring themselves.

Originally, a local ordinance that existed apart from, but in accordance with, "the law of the land." The early English word by, or "town," is still seen in proper names such as Crosby and Appleby.

3/27 - John V.
Bubernick in
1 for New Clother,
at the arcubaed
Pathole, 3:15PM"

114 M - pucked up SUB I have drown to Evanton 12-2 P.M - limb with John Hart, Both Mc Carthy of Both Reese: they want the DIA Chapter of the NRHS to be three affective NRHS Chapter of Steamstrom.

2 P.M - stop at Camera Store; also at City Feed I turn at arcabale Pathole.

JUB was deligated to be out and about and showt and show of him new clother—

be was more than welling to pace for me at the arubale Pathole.

5RP were bir dark business surt for the lumbers with John Get & Company; JUP went out a bought an entirely new suit of Clother, and - he was a proud as a placock in Mount Sain! Helen line new attice. It becomes him: consider the Greek purchased at Kolumelmeyer's for Addis, like the Greek purchased at Kolumelmeyer's for goods are aby revealed to about \$200. We arrived at the last one another Decar with Stop restaurant at the Belton about 10 minutes early, when is excellent. John But & Bot Reese + Gol McCarthy arrived - very impressive. VUSTSRI were being wines of dired by the top brass of Steamtown! Got Reese (a fust cousin of WSP's) and I "talked family - We had never met before. He is nice gray. John Hart & Bol me Cartley are but very fat - they remind me of two steam locamatives as they lumber along. In a word: they From 1) the nickname Janke ("Johnny") or Jan Kees ("John Cheese"), applied by the colonial Dutch of want the Off New Amsterdam to British settlers in Connecticut; or 2) a drastic contraction of the Algonquian word Chapter to be tree Awaunaguss ("this stranger"), used by the Indians to refer to a new arrival from England. resident Chapter of tue NRHS at Steamtown. Coondeful! Most is the best possible news. No well Call a special meeting of the Od H Chapter

and we shall vate on it - the meeting will tentatively take place following next Thursday's CHS& m meeting.

- Day at home - wonderful; released 8 old him typlus - Hoffman Hotchey does not have any Danesh Brown Leghown 1 20 d ordered 5 Drift organization in their stead - they are lescribed as "effectent settern of mothers" it appears that the Course write open any day and is don't was to "bril drives with an audenic of golfers.

- final reduction - Sugarny off resions 3148 printe Canned.

aboard Air Force jets. A trained pigeon can home accurately at 600 his way home. Within this 15ounce bird is a navigational system superior in many ways to anything

To the untrained eye, 309 is no tattered gray suits who have been same kinship to a city pigeon that Scattle Slew bears to a jackass. He as miles. How they do it is one of different from those urban hobos in desecrating architecture for hundreds of years. But 309 bears the lanssen. Belgian. Belgium is to pigeons what France is to champagne. nature's best-kept secrets.

309 is a racing homer. Nature and years of breeding have given him an unerring sense of direction, heroic stamina and a homing instinct. And this is his first race.

ciers in the United States. Colin Martin is a newcomer to the sport, PIGEON RACING IS ONE Of AMERICA'S least popular sports. By comparison, badminton is a national mania. There are about 16,000 pigeon fan-

gettis are found everywhere

SALKHARAKA SA

Fe has carefully placed 309, plus 19 more of his best "young by ds" (those less than a year old), into a Keystone Concourse Association in erate to drive from his home in Renholds, Pa., to the "club"-the Reading. This race is sponsored by the Lehigh Mountain Combine, a coalition of elubs in eastern Pennsylvania. Martin and his competitors have brought their temers, which are metal, about the size of cigar boxes, to be synchronized and this is his first big race.

bered elastic leg band and place it in When a racer arrives at the home loft, its owner will remove its numthe sealed timer, which will record the arrival time.

have one of the shortest runs-65.52 test for young birds, but because they will be flying back to different too miles. Average speed is calculated in yards per minute. 309 will miles from the release point near Westminster, Md., to his loft in The race will be a 100-mile conlofts, no one pigeon will fly exactly Reunholds.

alert and shining. The starless night is filled with the soft gurgling "co-The pigeons are loaded into a mitting the racers to be released The pigeons seem excited by it allheads up, chests puffed out, eyes roo-coo." 309 will be pitted against truck that has compartments perwithin ten seconds of one another. 1858 other birds.

CYRUS THE GLEAT Of Persia used

Gaul with the aid of these avian messengers. Psgeons flashed the pigeons in 500 B.C. to communi-cate with the farthest reaches of his empire, and Caesar conquered winners of the first recorded Olym-

ca's most famous pigeon hero was Cher Ann, who saved a bettalion erroneously under fire from its own Pigeons were used extensively by batteries. Cher Ami got through despite being shot through the both sides in Warld War I. Ameripic Games in 776 B.C. wing by the Germans.

and enemy lines with pigeons tied to their chests to be sent home later When the Germans overran Beigium in 1940, spies parachuted bewith intelligence information.

The French army still keeps a pigeon corps, mainly to continue a ong tradition. But there is also the theory that a nuclear holocaust would curupt all communications, and a pigeon army would assume vast importance.

unravel their secrets. RACE oar dawns cloudy and overeast, but the combine decides to release the birds anyway. The truck driver pulls a series of eight leven, the cages open, and 2859 flapping birds datken the skies. 309 circles the truck once to get his bearings and then heads northeast with his competitors. A secondary lid drops over each of his red eyes to protect jects. His legs retract like landing gear. 30th has set a coucse of about them from wind and minute ob

ster, Mc, before. Yet, almost in-stantaneously, he knew in what direction to fly to get home. How? "It's one of the classic puzzles in all of bislogy," says Charles Walogist who has been studying pigeons 309 ило мачая авам то Westmin for 20 years.

There are two distinct aspects to Pigeons nave a built-in compass to give a sense of direction-porth, south, east and west. But that's the question-compass and

uscless unless a pigeon knows where he is in relation to where he wants to go. In human terms, a person blindfolded and dropped in

the middle of a forest won't have Walcott is now fairly certain that oigeons have two compasses-the sun, which they prefer when it's When the sun is shining, they are able to determine direction by comavailable, and the earth's magnetic field, which they use at other times. much use for a compass.

Walcott believes that pigeons' map sense also involves the earth's Experiments at Cornell have shown that pigeons lose their bearings when searchers have been fitting pigcons with contact lenses, strapping them with radio signaling devices and following them by airplane to try to pensating for its changed positions. magnetic field, which is strongest at the Poles, weakest at the equator. they carry a small but magnet.) Reenough information to make the pejorative "bird-brained" forever obsolete. So sensitive are pigeons to that they can differentiate between the floor and ceiling of a room. If a banana is hung out of pigeons reach in a eage, and a box is also placed in the cage, they can be taught to push the box under the fruit, stand on it, and get the banans. Scienusts have trained programs. changes in atmospheric

READER'S DIGEST

datk blur in the gray sky. 309 glides toward the loft, spreading his hour, he is just west of Lancaster, less than 20 miles from the loft. pigeons come home. They usually mate for life, and male pigeons are fiercely possessive of their mates. incubation duties and feeding the offspeing are shared by both parents.

Then Martin sees him flying,

speed, and flaps his wings to a stop the clock-tr:29:30. He has made it home in just under 90 minutesan average speed of 43.92 miles per hour, or in pigeon-racing terms, 1,288-438 yards per minute. In late afternoon, Martin goes to wings and hu tail to slow hu air on the landing board. and goes our to feed the pigeons, as he does seven days a week. "You've get back, they're already here." 309 was born in Martin's loft, but the COLIN MARTIN ARTSES about 5 a.m. got to train them every day too," he says. "I take mine out twenty to a hundred miles daily. By the time parents were purchased from

309's official time is recorded on

the club, where he learns that 309

preeder for about \$100 each.

has placed first among the 200 club entries. Officials call other clubs, and Martin begans thinking he may have won the whole race, About 10:30, Martin rereives a phone call notifying him that the rends to the landing board in the loft. The bacds are trained to enter ing the bird long enough to get the ands were released at to, He aseg band off and into the timer. Martin peers toward the southwest. "They're comin.' You can bet on race day, the door locks, hold the loft through a trap doot.

Driving home, Martin is somber.

"Sometimes, the way I feel about the pigeons makes this difficult for me. We're exploiting their homing birds to fly sixty-five miles to get home. I try to sustify it by taking how. My birds are healthuer than they would be if left alone. So in instinct. Nature never asked those ask them to do what nature would return for good living conditions, never ask them to do." IF CHARLES WALCOTT'S theory on pigeon map sense is correct, 309 is reading the earth's magnetic field to direct his flight northeast. He is moving 40 to 45 miles per hour at an altitude of 150 feet or 10. About that." It is tt:28 a.m.

Mr. and Mrs. Norman Lund P. O. Box 82 Pomona Park, FIA 32081

Dear Atice and Norman,

Good morning, and I hope you are both well, and warm.

I am very sorry that our good friendship has come to this cold, no-contact point. I do not wish it to continue, and I am writing to try to do something about it, although I am not sure I can.

As far as I can tell the difficulty started — and our good friendship ended — over the details of the arrangements for Pioneer Day and the Griswold Reunion. I do not think it would do any good to try to resolve old problems by bringing them up again. But I for one am not willing to sacrifice, because of a difference of opinion and a faiture at compromise and cooperation, all the hard work we all have done (and must continue to do) for Clinton Center Baptist Church, and Ploneer Day and the Griswold Reunion.

Is there something we can do in order to break the ice of this stience and to get beyond this point of difficulty.

What are your thoughts about Pioneer Day 1987.

Since our friendship has fallen sitent I do not know what has been going on on the 'inside' of the Clinton Center Baptist Church.

Has there been work done? What are the next projects ?

Please let me hear from you.

Most sincerely,

Donald W. Poweli Post Office Box 161 Carbondaie, PA 18407

Have your letter at hand, it's good to hear from you once again. It really wasn't that much of an election with less than half of the membership casting votes. Recently I've learned that Felix Khan had considered running for the position of fee Trias. Haven't heard much about the FTS. lattice so I can't tell you amything of would like to know who joined the F.TS. - There are some FTA members in it I know I believe that it will figgle there was no FTA meeting at the Grand National Slew, I attended with mus family. Met Ed Buragewski there and Walter Wichel of Bulfalo, M.G.), kad a good conversation with both men. John Mead, Bill Kahlert and Jes Brozgua mever did show up there. That show was never really much for tipplers the american texpler Union Jawn Show is much better.

When I first storted with tippers in 1920-71, Ittaveled to toronto. There I met Harry Hunt and bought 4 pairs, next I mit, while there, Fronk Cochrone and bought 3 pairs. Bred and flew their young with modest accomplishments. Mux I heard about the MACCLES FREED troplen and bought 3 here from Fronk Catri of R.I. in 1872. Mater them to the COCHRARE finds and worked with them My best time with them was 12:32 old birds although I did 14 km overfly and 11:10 young birds. Those tippler were more mine at least in my opinion . Loronel them and fred according to my own ideas. I considered them to be my strain. These firds would fly because I made

them fly - if you know what I mean I had to law every hour and I did Maybe moudon't know but I had to travel back and forth to the loft eachday to fly and feel the tipplers It wasn't laser and me not looking for praise just stating things the way they were I then tried the PRISCO tippline, they were from WALES. They were tremendously feathered but flu so damned low and that turned me off about them. about 1980 I received two pains of Carnews from Stuturgeson of Minn, and began flying them - Good as young birds but I had problem with them as old-best time 12.02! It had to be my mestake in training somewhere.

2

terguson Slewthen 15.12 but then he is in Minn, and that could be the difference Hip an ex-BRIT with a good deal of tipple provoledge plus the weather so - His into Hovier now, I did OK with the Carniws as youngster 11-12 hours, I wanted to try a cross and by nowl was pristrated, John Mead and Jes B had cracked 15 hour and I had done 131/2 with LOVATT/CARNEWS of wasn't satisfied with that cross be Cause men could say that it wanthe LOVATT in them that was making thru Laught John Mead and Jes Brogna

taught John Mead and Jen Brogna 70% of what they know about toplen - not brogging just stature a fact, so I went to Dan Jimisi of At Pleasant 3ch, N.J. and asked for a Gordon Augher her. He gave me I cocke and two hers - one of killed. I crossed the cocks outo Carnew here and one Carnew cocks outo Carnew here and one flux sympeters 12+ hours overfly, the Rocks flux 12 hours in training as you I pull head a socker intraining all hugher Karnews and flew them 10 km

flew 6 + hour, Jest Old Bird Roxtest they flew 6 + hour, Jest was my time and he said so not the flew life shit! I delided to pick 3 out of the 6 and go with them. It was more order my medium size. The resultions 15.07 the second cortest and 15.30 on the third which I was disqualified for having the wrong date written dolow! A heart blak if Low there

was one let me say! Well aryow say they are nine though it just down the feel that way flar not! you will cross that 10 hour forier - therepor! Tike H. Hunt told me years ago - 10 hours is just a hop - skip and a sing ! Its the 14-15-16 that you have to work at! If you condo 9+ with ybs then were 10 with old is a cinch - low with Goons, I'll help you any way I con should you ask. But I feel that you went deed to Keep in mind what Wilf Jovath said " of they go 12, then they'll go 19! Stow O.

**** Working on behalf of Carbondale's Past, Present and Future****

CITY TO CELEBRATE 136th BIRTHDAY

The 136th anniversary of the incorporation of the city of Carboniale will be commonorated with Charter Day ceremonies on March 13, 1987. The city's birthday, March 15, 1851, will be celebrated by an assembly program in the suditorium at Carbondale Area High School, Martin Lawler, Principal. This assembly program will be sponsored by the Carbondale Historical Society, whose president, S. Robert Powell, will serve as the master of ceremonies.

During this assembly program, which will be attended by members of the student body and the faculty of the school, Mayor Charlotte Moro will issue a proclamation to mark the day. Representative Edward C. Staback (115th Legislative District, Permsylvania House of Representatives) and Senator Robert J. Mellow (23rd Senatorial District, Permsylvania Senate) and former Carbondale City Manuger, Jack Glordano, have been invited to attend and to participate in this important event in the city's history.

Seven Carboniale Area students from the seventh grade will participate in this program by presenting an account of the founding of the city and of the events that led up to its incorporation on March 15, 1851. They are: Prank Collura, Tom Malinchak, Jim Miller, Krea Moskosky, Kenry McPartland, Chris Tocki and Holly Torch. Mr. John Molinaro, Social Studies Department, is serving as student coordinator for the seventh graders who are participating in this assembly program by reading this history of the city.

The Music Department at the school will participate in this assembly program. The Carbondale Area High School Band, under the direction of Mr. James McMyne, will perform "Miss Liberty March" and "God Bless America." Members of High School.

the Carbondale Area Chorus, under the direction of Miss Maureen Mussari, will perform music appropriate to the occasion.

Donald W. Powell, a member of the Historical Society, will speak on the origin of the name Carbondale.

These ceremonies, which are open to the public, will begin at 2:00 P.M. on March 13th, and are expected to take about 45 minutes. Members of the rublic who plan to attend are asked to contact the office at the school on the day of the assembly program.

For additional information, contact: S. Robert Powell (717)-679-2979

1986 Annual Meeting and Christmas Dessert CARSONDALE HISTORICAL SOCIETY AND MUSEUM, INC.

The 1986 Annual Meeting and Christmas Dessert of the Cabrodode Historical Society and Museum, Inc. was held on Friday evening. December 12, 1986, at the Hendrich Lane residence of Kers and Jean Colville. Before the Annual Meeting began, 48 members of the Society meet for future at Society meriber William Kittubia Crystal Reseavant, where they died on rosts truckey, ross theef and baked hallfut. AR 7:58 P. M., the Society's President. S. Robert Powell, called the Annual Meeting to order. He asked that join J. Kinklewitca et as Specietory, as the Secretary of the organization was not present.

The first item on the agend was to thenk fixen sed jean Cotvilla for hosting the Annual Maeting and Christman Cotvilla for session as the session and guests present were formally westcomed by the President, who thanked then for strending. The President who thanked then for strending. The President there asked the most off president when asked the ming seed they yang's famulating when yang's famulating the manual of large and manual of large and manual of large and manual wheeling. The minutes was read, accapated, and placed on

The Treasurer's Report for 1986 was then given by Howard A. Yepson. That report was accepted and placed on file. That report is as follows:

March 2, 1987

Dear Member:

Enclosed are five of the Historical Society's 50/50 raffle tickets which are being sold to raise funds to complete the Main Street/Business District Flag Project that was initiated in June 1986 under the direction of the Historical Society.

We would appreciate your cooperation in selling these five tickets. The drawing will take place on March 17, 1987, so it will be necessary for you to return the stubs for tickets sold. as well as the money for the sale of those tickets, by March 14th. We have enclosed a self-addressed envelope with the tickets for your convenience in returning the stubs and money for the sale of the enclosed five tickets.

With your help and the help of the entire community, we will have over 50 American flags on display in the downtown area on all city and national holidays.

Sincerely yours,

usan B Stephens Susan B. Stephens

Geese

WHITE CHINESE or WEEDER GEESE are axcallent weeders, aspecial

Outs, blederfits, its., "One general measurement and property and property of the property property of the property propert EMBDEN GEESE are wille with orange teel and bills. Our Embdens are especially bred for very laive size and fast gains. Some customers reported 12 pounds to 9 weeks. The mature adult weights up to 24 pounds. They are excellent for marketing and the white teathers bring pee-

TOULDUSE GEESE are grey with a light gray to aimost white on the abdomen. The Toutouse alteins weights aqual to those of the Embden, so excellent for marketing.

AFRICAN GEESE were stocked for their gradatul beauty and cotoring. They are grey with a black atribe down the beck of the neck, and a black knob over the bill,

Ducks

MUSCOVY DUCKS are exceptionally good for marketing. They are slow maturing and can be raised with less lend. Our Muscovies are attiover while. The drake are very large, weighing 12 pounds or over. The hens are axcellent layers and hatchers. The Muscovy is a flying duck. but this can be pravented if the tirst joint of the one wing is cut off with a solssor's before the ducktings are one week olds. They are notes-

PEKINS are all white with orange feet and bills. They are large ducks and ready for market very early, weighing 7 pounds in 8 weeks. Pekin ducks are excellent layers.

ROUEN OUCKS are very beautiful. The maies are a shade of gray, blue and brown with grean heads. The females are tan and dark brown, Rouen ducks are also large and prolitable, ready for market in 12 weeks.

KHAKI CAMPBELL DUCKS are very colorful. The males have brown heads and green bills. The body shedes vsry from light berge to dark brown, They have eleste that is different from other ducks, Very delicrous, Exceptionally good layers. Are used to produce table aggs. INQ!AN RUNNER DUCKS are used mainty for egg production. Their laying ability simost equals that of the Legnon han. Many are sold tor

FLYING MALLARO OUCKS have the same markings and cotorings of the Rouers. They are fight in weight and centify. Tasty game bird tlavor. their unuaust appearance. They ere light in waight and welk erect.

Our zinck in weed for ment, eggs, weeding purposes, beautifring ponds, farms, estates, e.c., Not for competitive shouring.

Chickens WHITE LEGHORN -- excellant layers of large white aggs.

CORNING SUPER GIANTS -- Many Broad Breasted ment type chickens. The 3-4 lb, tryers can be dressed at 6-10 wks. At 12 wks, they will be delicrous 5 tb, Roastera, or keep them until 16 or 18 weeks and they will weigh up to 14 lba,

WHITE & BARRED ROCKS, RHODE ISLAND, NEW HAMPSHIRE REOS & BLACK SEX LINK are axcellent layers of large brown aggs, and BUFF SEX LINK are bred for egg production. Superior layers of large trown eggs. The mains are white and the temples are red. attain a nice waight for meat,

GOLDEN COMETS, a fight weight brown chicken brad especially for agg production. Layers of large brown eggs, Less teed consumption. BIG BUFF ORPINGTONS, Golden as the sunset, Deep, macled, Layers of big, brown eggs, Make worderful mothers, MDTTLED ANCONAS their motified beathers camou'iliges them from hawks and other predators - excellent levers of whire eggs SILVER LACED WYANDDITES. A large proper type with striking black and white markings. Lay good sized brown ages DANISH BROWN LEGHORINS. A beautiful brown chicken that lays big white aggs, Excellent layers MOTTLED HOUDANS An attractive mottled top knot grace the black and white mottled body BLACK AUSTRALORPS - Glossy black plunmage, bright red combs make on unusually hendsome appearance. Plump and meety. One of the best leyers of light brown eggs,

LAKENVELDERS - meens a shadow on a sheet, approprietely harned because of the black and white merkinge. Mature to 3 or a the. Very good 'ayers of white eggs

SILVER SPANGLED HAMBURGS - silvery white feathers toped with black spengies. Very good layers of white eggs BUFF MINORCAS A golden fight weight. Excellent layers of arge brown aggs

JAPANESE YOKOHAMAS. ditterent because of their handsome long-tesh.
MILLE FLEURS. Brave colorful anall bantan sporting a beard, mults and teg Saethers

COCHIN BANTAMS - One of the most popular bread of bantams - very delightly writely. They make excellent setters. SILKIE BANTAMS - Furry and irresistible. We can only offer the whitee for individual setes - other colors could be in the bantam associments. ARAUCANAS Ester ege chickers. Iay green blue tan end prixish eggs. They are must colored with mufts over man sens BUTTERCUPS. Very unabual combut tra cup bapad crown with a complete circle of spikes. They are built with peralliel rows of black. Very good layers of timised DARK CORNISH GAMES A blocky mistry bird lay brown eggs

SALMON FAVEROLLES - They are spinton and black, very colorful with ser mults, teachered shanks and an exite toe. Good layers at brown regar RED CAPS . Thair colonny is a rich raddith brown with black spangles. They have a large prominent row comb. Very good layers of tinited right SILVER SPITZMAUBENS. Black spotted on white having a tuff of Teathers on their heads. Very good layers of white eggs.

JUNG.E FOWL. Have a rang, high arched tail, twin weddied throst and san conhed frontal comb. The cock is considerably larger than the femals and whan mature LIGHT BRAMMAS Bazutiful large chicken with utiver pencilled steet grey faathers. Feathered shanke. Furr layer of brown eggs III.ACK JERSEV GIANT A handsome all black, very large docite chicken. Good layer of brown ages has a fone, preenable lack teil. Baby chicks are very lively and heve their different lock

SPECKLED SUSSEX. A time beautiful tri-color-dical-michicken. Rich mahogany base lasthers with black base and white tips. Good layer of brown eggs

NAKED NECK TURKENS. Very unusual no tasthers on the nack, they are not crossed with a turkey. Good layers of traited eggs

Turkeys

OUR BROAD BREASTED WHITES and BHONZE are bred for exceptional growth, and fast gains. Excellent feed conversion and livebrilly. Our cusformers rave about the size of these turkeye. Raise e flock of these beauties for holiday methating, BDURBON RED TURKEYS - e must for the furkey fancier. Mostly red with white wing and felt feethers.

Guineas

GUINEAS are yery testy and demand for them is excellent. They make very good warch dogeby informing their owner with their sherp cry when something disturbs them. They do not scretch as chickers do, Guineas become teme in continement end their litter remaine dry. The Trie dark color with dots, often referred to as polite dor. The Whites are all white. The Levenders ere a beautiful light lavender color.

ABOUT SHIPPING, FEED, VITAMINS and MEDICATIONS

combile form must be supplied and left with the bibles all the time. A cumplised feed is more beneficial because it is a compacted form of leed.
and more seally swalfowed then in powder form. Most palleted forms, even the small pellets, are too large for most baby poultry and warerlow Baby poulity and waterfowl can be shipped by mail and can exist without food and water for two or three days, because before they hatch the yolk of the eog is absorbed and this holds the birds over until arrival. Immediately upon arrival water and a commercial feed fine fee ably in

demands, the birds go down in the legs and become lame or can't walk. Headstart Vitamins in the drinking water also help to prevent or allevia e Turkeys need even more protein because of their large bodies and very fast growth rate, if the feed does not provide enough protein to meet the growth Never feed bread and milk egg yalk, patmeal, commeal, etc. These toods do not contain the proper nutrients. Heavy breed birds and Baby Poultry and Waterfowi need a commercial feed which provides proteins, vitamins, and minerals for strong skeletal development and thus condition. Headstart Vitamins should be put in the drinking water for all baby birds to give them a good start

Solutracin should be put in the drinking water for all turkeys shipped by mail, shipping exposes the turkeys to heat, cold and stress, these warding experience. Turkeys are susceptible to Blackhead. The symptoms of this disease are droopiness and very yellow droppings, usually or conditions can be very defirmental to baby turkays. Solutracin acts on the gut, and fortifies baby turkays with Iwability and a desire to start eating. With proper heat, a commercial feed, preferably in crumbiased, form, and solutracin in the drinking water, raising furkeys can be a recuring around six weeks of age. Emtryl in the drinking water is a very effective medication. One of the most common checken diseases is scocyclosis, this is evident when blood is in the drapping. Commercial chiek startar and grower letels almost aways contain medications to prevent this disease however it's was to have Ren O Sal Tabless on hand for added medical tion if the disease does occur. Do not feed medicated chick feeds to gostings and ducktings, they do not get the diseases and medications sturi Tests much is also a very good medication to keep on hand because it provides activity against a wide variety of poultry diseases of respiratory and intestinal origin.

bards more space and debeak them by cutting a small portion of the upper beak off with a toe haif clipper. Goslungs will quit picking each other Considers is when the birds pick, each other to the extent of drawing blood, this usually happens under crowded conditions. Give the if clumps of grass, ground and all, are put in their oen,

Lackawanna Parkway Panel Slates Final Meeting Friday

The final meeting of the Lackawanna County Highway Committee, which is pushing for the construction of a new his hway from Dunmore to Carbondale. will be conducted Friday at 8 p m. at the Dunmore Borough Building.

Although this will be the last meeting of the committee for input and suggestions for the industrial highway, committee chairman Chester Cipilewski said the group will continue to meet with the Lackawanna County Commis-

Cipilewski said he also will meet with county agencies to combine the best presentation for the hearing with the Pennsylvania Department of Transpor-

The hearing is scheduled for March 26 at 10 a m at the Sheraton Inn, Scranton

Capalewskl said thousands of working hours have been put into this project to

We feel when we present our case at the hearing it will surely prove the need for a highway of this type for the safety and growth of our area," he

He said the group received "overwhelming" cooperation from local police departments which, within a week's notice, compiled accident data lists needed for the hearing

To take someone from their line of duty and ask them to perform a project of this task and tell them we need the figures yesterday is no small task " he

Cipilewski commented that all comproject, although a number have not been mentioned publicly He said all members played a large part in getting the state to realize that this project is no longer on the back burner, but "the

Committee members include councilman Joseph Chindemi and James Giardina, Archbald, Robert Powell and Henry J. Loftun Jr , Carbondale; Jue Wahy and Joseph Natichak, Carbondale Twp : Durmore Mayor Joseph Domnick; and Jessup Mayor John Manchak and councy president James

Aiso, Jermyn Mayor Edward Callahan, Mayfield Mayor Alex Chelik and Lee Gowat: John Chichilla, Olyphant; Throop Mayor John Stecco; and Frank Kulick, Dave Roberts, and Jane Varcoe, Waymart.

Also providing support for the committee members played roles in the mittee's goal has been John Sherwood Wayne County Memorial Hospital exec utive director, and Lackawanna and He said the meeting Friday will be open to the public

Charter Day marked

SPECIAL TO THE CARBONDALE NEWS

The bibly annivariary of the incorporation of the city of Carbondsie was commemorated with Chartan Day cereminates on March 13. The Day cereminates on March 13. The cell bested in an assembly program in the auditorium at Carbondsie Area High School, Martin F. Lawler pumping I has seemably, which we premiped The sacrebuly, which we have the comment of the comment o

At 2:00 p.m., Paul M. Kaczmarcik. vice principal, called the assembly to order and led the group in the Pledge of Allegance to the American flag He then introduced S Robert Powell, who welcomed to the celebration the Mudents, feculty, school directors and administration of the school, as well as the members of the general public in attendance in his introductory remarks. Powell pointed out that Carbondale came into existence in 1802, fust 26 years after the aigning of the Declaration of independence, when resolute settlers came into the Lackawanna Valley ir. northeastern Punnaylvania and established their nomes Forty-nine years later the city was incorporated as a third class city

The commemorative historical program continued with a reading of a text entitled "Carbondise. The Early Years," which was written by Early Years," which was written by Bussiam and intelligence by seven members of the seventh grad ac last The students, who were selected for his reading with the cooperation of the reading with the

The Carbondale Area High School Band, under the direction of Jim McMyne, then gave a surpriae performance of "Happy Birthday," which was immediately given an encore performance, with the members of the audience singing

along with the band. Following the performances of "Happy Burthday," the band played, with apirit and onthussam, "Mars Liberty March." Senator Robert J. Mellow (22rd

Senator Robert J Mellow (27rd Senatorial District, Pennaylvanta Sonate), who was unable to attend these ceremonies, was represented by his associate, Tom Browning, who has regularly participated in these annual Chefer Day ceremonies and who conveyed his congratulations to the city on its 136th birthday.

Manbeth Miley, a member of the Carbondale Area High School Corus, then gave a lovely performace of "That's What Friends Are For," accompanied on the plano by Maureen Mussari, director of the Carbondale Area High School Chorus

Next, Carbondala's Mayor, Charlotte Moro, 'saued' a proclamation to mark the day and called upon the clitters of Carbondale to recognize and commemorate annually, with appropriate ceremonies, the city's barhday, and officially proclaimed March 15, 1917 as Caruonda le'a 136th Charter Day.

Diana Garcia, a member of the Carbondale Area High School Chorus, then ang, with great feeling and expression, "America the Beauthul," accompanied on the piano by Maureen Musmari.

Représentative Édward G Staback (115th Legulative) District, Pernaylvania House of Representatives) then eloquently addressed the group and called upon the studeria to get involved in their city and its (uture Representative Sultack has been a speaker at these chection to the Pennaylvania House of Representatives.

Following Representative Stahack's remarks, Donaid w Powell, a member of the Carboodsle Historical Society, delivered remarks in which he explained that William Wurs - and not Washington Irving is to be credited with creating her am of Carboodsle Powell pointed then seven communities in America with then seven communities in America with then seven communities in America.

located as follows: Garfield County, CO; Jackson County, IL, Warren County, IN, Polk County, IA, Ossge County, KS, Menominee County, IMI, and Athens County, OH

Robert Powell acknowledged the assistance and cooperation of all those persons responsible for making the annual Charter Day ceremony a success, including all of the above-named perticipants in this year's assembly, as well as the following persons John Molinaro, selection and preparation of seventh grade participants in the program, Paul Kaczmaruk and Joseph Golecki, supervision of the student body and orderly movement of students to and from the auditorium, and Tim Rossetti, who was in charge of the hghting on the stage for the assembly

At the request of the Master of Ceremonies, the Carbondale Area High School Band performed, as an encore, "Miss Liberty March," which was followed by a performance of "God Bless America" Paul Kaczmarcik bmught the susembly to a close with significant remarks in which he stressed to the students the importance not only of studying history but also of commemorating, with appropriate ceremonies, important events in local bistory He aubsequently thenked the participants in the assembly for their efforts on behalf of the city's birthday and congratulated Robert Powell for baving organized the assembly program for

the school. The students of the seventh and eighth grades, who were an attentive and responsive sudence throughout the assembly program, were then damissed Nest year, Carbondale's 137th

birthday (March 15) will be ommemorated with Charter Day ceremonies at Sacred Heart High School, Sister Joan Quan, principal As usual, tha Charter Day ceremonies will be under the direction of the Carbonale Historical Society.

March 20, 1987

Dear Member:

Thank you for your help in selling raffle tickets for the Society's 50/50 raffle to raise funds to purchase additional American flaga for the Society's flag project. The response from the membership was very gratifying. The drawing, which was held on March 17th at 8:00 P.M. at the Carbondale Public Library, was conducted under the direction of the Society's officers. Two students who happened to be in the Library at the tima (Christen Brennan and Debbie Roberts) were asked to pick three tickets from the bag of ticket stubs. The winners are: Anna Cummings of Carbondale (tickat #175, sold by 8ob DeGrazia), Bob Caniglia of Scranton (ticket #116, sold by John Klimkiawicz), and Santina Matechak of Carbondaie (ticket # 476, ticket purchased at the Carbondale Public Library). These three winners will be awarded 50% of the \$561 that was raised from the sala of raffle tickets; 25% or \$140.25 to Cummings, 15% or \$84,15 to Caniglia, and 10% or \$56,10 to Matechak. The Historical Society's share of the proceeds (50% or \$280.50) will be used by the Society to purchase between 20 and 25 additional American flags for the downtown Carbondale area. Our thanks to Susan B. Stephens for chairing this important project .

Enclosed is a copy of a promotional/fund relsing idea that was received by the Society from Carry Alin, Olyphant, Ph. on Pebruary 25, 1987. The Society voted to participate in this promotional/fund relsing program, and on March 26th a banner bearing the Society's name will appear in the Carry Alls store in Blakely Plaza, Olyphant, P\. Because we have agreed to notify the membership of the Historical Society of the opening of this store—"the nawest Handbags and Luggage Outlet in the area"—we will receive 5% of Carry Alis' total sales receipts for March 26th. So, make your way to Blakely Plaza on March 26th and visit Carry Alis and satisfy your handbag and luggage needs. Remember, the greater the total sales receipts for Carry Alis on March 26th, the greater will be the funds that the Society receives for participating in this promotional/fund raising program.

We are pleased to announce that on May 23, 1987, tha Historical Society will aponany a bus trip to Philadelphia as part of the organization's year-long celebration of the Bicentennial of the American Constitution. The bus will depart from Carbondale City Hall at 7:00 A.M., on May 23rd and will arrive back in Carbondale at

9:00 P.M. While in Philadelphia, you will be able to view the Magna Carta and visit the 1797 Featural Recreation, with many exhibits, displays and activities that relate to the American Constitution. If enough interest is shown, spacial group luncheon arrangements will be made at one of the nearby restaurants. Round trip transportation is only \$15.00 per person. Reservations must be received by May 10th. Join the group as we calebrate the 200th birthday of the Constitution of the United States of America.

We are also pleased to announce that the Historical Society now has a talephone. Our number is: 282-0385. We are in the procease of installing an answering machine, so we will be reachable 24 hours a day.

Enclosed, in addition, is a reprint of an article ("Historical Society prepares to celebrate city's 135th birthday") that was published in The Carbondale News of March II, 1887, as well as a copy of the program for the Charter Day Ceremonies that were conducted in the Auditorium of Carbondale Area High School at 2:00 P.M., on March 13th. The celebration was a great success. We are especially pleased to have had the participation of the students, faculty and administration at Carbondale Area High School. The celebration of Carbondale's birthday next year will take place in the Auditor Umm at Sacred Heart High School, Carbondale.

Other news: on March 7th, John V. Buberniak and S. Rchert Powell delivered a presentation on the Delawere and Hudson Canel Company's Greatly Relicad and Canel at a meeting of the Couplas Club of the First Presbyterian Church of Carbondele. The Society's film about the DSH Canel ('The Canawier') was also shown during the avaning meeting. The presentation by the Society, which was arranged by the Society's Treasurer, Howard A. Yepson (a member of the First Presbyterian Church) was well received by the members of the Couples Club. Present at the meeting from the Historical Society wars: Mr. and Mrs. Howard Yapson, Mr. and Mrs. Oswald Chambers, Mr. and Mrs. Daniel W. Powell and their son Donald, Suson B. Stephans, John V. Buberniak and S. Robert Powell.

On March 12th, WYOU-TV produced two Public Service Announcements in the Society's meeting room, 301 Carbondale City Hall. These two PSAs were produced under the direction of John Klimkiawici, the Society's Secretary, who is a Creative Services Producer at TV22/WYOU. Both of these PSAs will be aired in the near future over TV22. One PSA is a bout the Bicentennell of the American Constitution; the other is about National Historic Preservation Week, May 10-16, 1987. This will be excellent publicity for the Historical Society and we are very grateful to John Klimkiawicz for making this posabile. Keep your eyes on TV22/WYOU.

On Merch 14th, Susan B, Stephens (dressed as a colontal dame) and S, Robert Powell (dressed in top hat and frock coat) represented the Society and the city of Carbondale in the annual Saint Patrick's Day Parade in Stranton. They convited the Carbondale City Play, and ware warmly greated by the thousands of spectators who lined the streets of Scranton.

During National Historic Preservation Week (May 10-16, 1987) the Society

will mount an exhibition of "Racent Acquisitions" in 301 Carbondala City Hall. During that same weak, wa will, in addition, sponsor other activities and evente to commanderate this important weak in Amarican life and civilization. Other upcoming events that will be sponsored by the Society include: Spring clean-up of Mamorial and Gravity Parks, the planting of the Society's flower boxes in tha downtown area, the 1987 "Concerts in Mamorial Park" series (featuring the Marywood Jazz Ensambla and the Crystal Band of Scranton).

Wa need your help to guarantaa that thase upcoming avente will be a euccess. We need help in the following areas: cataloguing of the Society's holdinge, mounting the Praservation Weak exhibition, raking and ewaeping the parks, planting Gowers, handing out brochures. Come to the Society's regular meetings (the first and third Thursdays of each month, at 7:30 P.M., in 301 City Hall) and halp work on behalf of Carbondale's past, present and future.

Sincerely youre,

Mobert Powell

Dear Community Service Group Recresentative.

I want to take this opportunity to introduce our company and its Fund Raising Program for non-profit organizations to you.

We are Carry Alls, the netest Handbags and Luggage Outlet in the area. Located on Route 6 at the blakely Plaza, we are only minutes from many major shopping centers. Because we are new, we want to familiarize the area residents with our store. Through groups like yours, we can do that as well as benefit your group by conducting, "Community Service Group Sales Days."

Our program is very simple. All your organization needs to do is picts out a weekday between March 1987 and April 1987 with our representative. Then inform your membership that you have done so. Your organization will then receive 5% of that day's total sales receipts and have a banner with your organization; name in our store as well. Of course, if you promote this day through your own communications networks, meetings, newsletters, etc., which will get more people to visit our store on that day, the higher the amount of money your organization receives will be through this program.

Carry Alls stocks many items in addition to handbags, luggage and travel related products. We carry items for the professional business person ranging from attaches and portfolios to novelty desk items. We also sell backpacks, duffles, wallets, umbrellas, jewelry and many other specialty items.

So, if you are interested in this Fund Raising Project, please contact me at 489-5677 for more information. Since there are only thirty days available, please reserve yours as soon as possible because more than one hundled other organizations are being contacted.

I look forward to working with you on this project

Sincerely, Cheryl A. Touch Store Manager John John Marifrig

GEORGE S HARTMAN SENIOR VICE PRESIDENT 6624 FISHER AVENUE FALLS CHURCH, VIRGINIA 22045 December 11, 1986

Mr. John V. Buberniak p O Box 15i Carbondale, PA 18407

Re: Proposed NRHS Chapter in Carbondale, PA.

Dear Mr. Buberniak:

Having had no word from you folks since receiving your letter of Aug. 20, 1985. I was quite surprised to receive the December 8, 1986 application from your group for a charter to operate a new chapter of the National Railway Historical Society in Carbondale. Furthermore, I want to acknowledge receipt of Mr. Poweil's check No. 682, dated December 8, 1986 in the amount of \$251 in payment of national dues for the 23 regular individual and 4 spouse memberships.

i have provided a photocopy of the charter application and list of potential members to Mr. R. L. Eastwood, Jr., Vice President, Eastern Region, NkdS, P O Box 41, Huntingdon Valley, PA 19006 and I have asked him to contact one of you to develop some additional information on certain aspects of the application. Mr. Eastwood may be reached by telephone at 215/947-9769.

Since writing to you on October 23, 1985 we have modified our procedures by asking any group seeking an NRHS charter to submit with their application (1) a set of By-Laws that are consistent with those of the Society, and (2) details on bow they propose to comply with Article 11, Purpose, of the NRHS By-Laws. To assist you in providing this information, I have enclosed a copy of the NRHS Constitution & By-Laws, a copy of an acceptable set of chapter By-Laws, and a copy of the Chapter Derations manual.

Best wisnes to you and your group for a productive and interesting 1987.

Sincereiy,

Seage S. Daitman

Mr. John M. Hart, Jr. General Manager Steamtown Foundation PO Box F Scranton, PA 18501

Dear Mr. Hart:

We have read with great interest the developments concer ng Steamtown U.S.A. in Scranton and are most impressed with the .g. going planning efforts by the National Park Service to make Steamtown a world class rail attraction.

Our chapter was formed in February of 1986 to preserve the rich history of the Delaware & Hudson Railroad as it pertains to our community. While we are located in the northern portion of the county, we feel that we could play a role in the on-going efforts to expand Steambown as a national attraction.

Therefore, we are asking the Steamtown Foundation to sanction the Delaware & Hudson Chapter of the National Railroad Historical Society as the offical chapter of the Steamtown Foundation.

We feel such an association will be mutually beneficial in the years to come.

incerely/

D& H Chapter, NRHS

Mr. George S. Hartman 6624 Fisher Avenue Falls church, VA 22046

Re: proposed arbondale Chapter By-Laws

Dear Mr. Hartman

This is the set of proposed by-Laws for the Delaware & Hudson Chap ter NRHS in Carbondale, which you asked us to prepare for our application to become an official chapter.

You may be pleased to know that we currently have 36 members and have about $10\ \mathrm{new}$ prospects for members.

Since last hearing from you we have had a telephone installed in the our offices at Carbondale City Hall, a room which we share with the Corbondale Historical Society and Nuseum lnc, which this chapter is a branch of, the number is (717) 282-0385 or you can contact me at home at (717) 282-2718.

I am also enclosing 9 new members that have joined in the time in which our first $27\ \text{members}$ joined.

Thank you for waiting the time it took to prepare the By-Laws, and for helping all that you have.

Single Comb Brown Leghorns

These are generally recognized as the most coforful of the Leghorn family and like all Leghorns fay while eggs, are nonsetters, have large combs and white ear lobes, and yellow skin, shanks and feel. Our Brown Leghorns have been improved over the years by the introduction of the world famous Danish strain. The male is very handcome with orange backle and saddle and black stripes in center of each teather. The female is a medium brown with delicate pencil-Ing, wings are a darker brown and breast is salmon colored The chicks are striped like tittle chipmunks, and are so lively when just a few hours old that we can hardly take the lid off The box without having them jump over the sides

Buttercup male

Buttercups

This interesting breed was imported from the island of Sicily over 100 years ago and is another member of the Mediterranean class. It has attracted wide-spread interest over tha country because of its unique beauty. The golden color and cup-shaped comb are the basis for the very descriptive name. The combite a cupshaped crown with a complete circle of medium sized regular points. The mala and female do not look alike in coloring. The males are a rich, brilliant orange red with some black spangtes in the feather of the body fluff and caps leathers of the base of the hackle, with lualrous, greenish black tail. The basa color of the female is buff with all feathers on the body marked by parallal rows of black alongaled spangles, giving the han an appearance of being beautifully spotted and suggesting a ringneck pheasent hen. Skin color is yellow and shanks and toes are a willow green. Because of its unusual appearance the Bullarcup is an excellent breed for exhibition projects. It is also a useful braed, faying linted while eggs, and with the nice yetlow skin and plump breast makes a fine rable fowl. Hans may want to set occasionally, but are generally classed as non-settera. Baby chicks are a light golden buff "peppered" with dark spots on the head and back

Lakenvelders a shadow

Lakenvelders

These are one of the most beautiful in appearance of any of our rare varieties with their atriking black and while marklings and state colored legs. We are fold that the word "Lekenyclder" when Iranslated from the Dutch means "e shadow on a sheel ', a particularly descriptive name. They were Lied extensively in Germany and Hollend as long ago as the early 1800's, but were not recognized here until the 1930's They are quite small when mature, 3 to 4 lbs, and very quick and active, foraging widely if allowed to run. The skill is white and the breast unusually plump and round, almost like wild gama birds. Hens lay white eggs and are non-setters. Baby chicks are moally creamy white with a half cotlar of black on the neck and sprinkling of black on the head and back

Carbondale City Has Great Deal To Offer

COUPLE OF WEEKS ago, the local weekly paper conducted a survey of sorts to find out what ople think of Carbondale. It was a bealthy thing since It's good to ocassionally find out what others

The result was that the old town didn't fare so well in the eyes of

many. One clown called her That didn't sit too well with a lot

of us. One in particular is Jeff Sears, a friend of mine, who, with others, spends a considerable amount of his time trying to boost Carbondale through the annual Pioneer Days

Jeff, in fact, was furious At a meeting last Thursday night in Carbondale Twp, where they are Latking about changing the name of their community one guy stood up and charged that Carbondale the city had been roobing Carbondate the

township for 150 years.

I would suggest those who would east stones look inward at their own communities. And at the same time take another look at Carbondale.

No Shangri-la exists here. But if they get aick they can visit one of the 19 pyacian; and surgeons who maintain offices here. If they're really sick, we have two excellant hospitals Perhaps they'll travel in an ambulance manned by the volunteers who give their time to the Cottage Hose Co. Ambulance Lorus. 'f it is only a minor illness requiring a prescription, they can visit one of the four pharmacies here.

If a loved one is seriously ill and they seck spiritual help, they can visit one of our tl churches which represent nearly all major denominations

If they have an elderly friend or relative here, they might locate them at our Senior Citizens Center. Or living in one of the 229 apartments we maintain for the elderly in Carbondale

You can eash a cleck, obtain a mortgage, open a savings acount, get a credit card, seek investment advice and conduct dozens of other financial transactions at one of our banks. There are thres of them - and one

Sometimes it's nice to just sit in a park or visit one. We have five of them. They are valued at \$1.5-

Comment

Jerry Palko

It's always nice to ocassionally go out to est. And it's on problem doing that in Carbondale. Because we have 20 restaurants - including some of the finest in the valley. For example, The Ben-Mar, Pettinato's, McDonnell's, Griff's. Not that I'm allghting the others, it's just that space prohibits me from naming

We have five schools to educate our young and 1t4 public housing units for our poor Not to mentain 337 anits in the private acctor where our noor also receive decent housing If you get a toothache or need a filling, we have 12 dentists. And if

you want to get a shoe shine before an important job interview, you easi

If you're passing through Carbondale and your car catches on fire, odds our our fire department will be on the scene before the wires stop burning. That's because we are the only community north of Dunmere to have full time firemen augmented by four volunteer fire companies and some of the newest best and most modern fire equipment you'll find anywhere.

And if you need a police officer, you can find one to Carbondale 24 hours a day, seven days a week, 365 days a year. We are one of the few communities in northeastern Pennsylvania that ean say that We have an active chamber of commerce and probably a dozen civic or civic-oriented groups And a public library second to f.w. We have a weekly newspaper that one might not

always agree with but does an admirable job. We have a heritage that goes back far longer than most area communities and Carbondale

holds the distinction of being the second onlest incorporated city in the Commonwealth. And, we have an active historoloal porwty that works to preserve that heritage State and federal services can be found here. There is relatively new post office Security offire. And a Social Security office Also a mini-courthouse that saves readents not just of Carbondale but other upvalley communities trips to Scranton. We have Little League programs, a food kitchen, Cattolic Social Services and a YMCA And chapters of all the major veterars organizations A Masonie Temple. And a Knights of Columbus. Eoy scout troops and cub scout packs. A Lions Club and a Kiwanis Club and UNICO We have stores of all sorts and a shopping mall. Not to forget about 11 000 people, most of whom will go out of their way to help anyone who needs help Ail right here — in what somebody has the unmitigated gall to call "Garbagedale." Have I left anything or anyone out?

Quite a lot. But only because space

Despite all this, we do not go around claimitut to be perfect. Far from it. We have too many beer bottles left on our streets at night. Ton often politicians ge! too political And sometimes city employees forget who they 'e working for and who pays their salaries. The streets are sometimes too dirty - some of the dirt originating from from strip mine pits in nearby communities. No doubt, there is need for much improvement Just as one can find need for improvement in every other community hereabouts But we know that since we are our own severest critics. And while some may fault thet, it is, in fact, one of our strengths. For it eventually leads to the improvements that make for a better community

If the person who calls Carbondale "Garbagedale" wants to honestly assess all this community has to offer ngainst what faults be perceives, he will find that the balance weighs quite heavity in our favor. Otherwise, he will find that we, like Texans, figure it's OK if we knock ourselves but don't take kindly

to others doing It.

Just ask Jeff Sears. Or a few thousand others who are getting a bit tired of those living in class houses throwing stones in our direction.

March 31, 1987

Mr. Christopher Simzer WSKG Radio Boy 3000 Binghamton, NY 13902

Dear Mr. Simzer:

Having endured innumerable excruciating hours of Evelyn Hawkins as evening host on WSKG-there may be "a smile in every word" (if there is, who needs it?), but is there a brain in her head?—I recently decided that I had had enough, and stopped listening to MSKG when she was on the air. Her inexcusably singpy diction, tragic lack of in-depth knowldege of classical music, and sophomoric pretentiousness are more than I can endure.

Then, on March 24, 1987, out of habit, and in order to satisfy my daily need to listen to classical music, I turned on MSKG, and there you were: educated, urbane, articulate. I got up from my desk and jumped for joy, and then gave three cheers for Christopher Singer.

If I am not now the happiest person in the entire MSKG listening area (because you are now the MSKG evening host), I am, without doubt, the happiest person in the village of Elkdale (Susquehanna County, PA).

Thank you, Christopher Simzer. You are the light at the end of the tunnel. May you long remain the WSKG evening host.

Sincerely yours.

Mobert Powell

3/6/87-6 trees tapped at the course

Snow during the night! a venteble winter wonderland - the snow Washington Irving, 1783 has clung to the tree brancher and Pony Express began overland mail service from Sant Joseph, MO, to Sacramento, CA, 1869 trunks of the trees - very beautiful, and so I took out the corners and took a photograph that I have intitled "Voices of Spring. " cef CAAS had called, of women have gone & drapped off my car at Saue's for repour. CAHS did. I call but LHS did, and of had to say us. I packed up my maple syrup material & sap/squp from round 5 and went to the solf could and ded the final boiling down for Round 5. Defore their sap session, of dropped off my Renault at Saul's in Cartindale. Donale gave me a side back to the Dolf Course. and boiled down, wisp prepared lunch - boiled pigz feet & sovertrant.

hobnob

From the early English hab-nab, "to have and not to have": originally, a give-and-take situation, as in the buying of rounds among drinking companions; hence, to be friendly or on close terms. also, and boiled, of made a relutant pie from some relutant that of put into the freger lead alason. By noon of had 2'r pentr of 2 yrup.

man, Dad I d lunced on rige feet I sometiment and Kurbart pie for descent. at 3:30 RM, my Can was not really - they had not yet

begun repaire. Very maddening. I purked up the Car - appointment reschedules for 5/10/87 at 94. M.

8-124M-Crystal Bond Connect - Meraton Hotel,
Evanton the Prans Technician Build State commenting,
Concert arranged by Howard Yepson; Owp+ family
+ 5RP went together.

Towertial rains during the night — the 5 hold (18" deep) in which of had planned to plant my 5 front trees today are full of 14:0 — at least 3" of rain have faller says the radio. Bally needed rain, to be sure. The Spring flowers need it desperately.

3854/307: - egg # 1 of round 2 hatcher (then check will be banded (87-362); also #2 - 87-363.

Very dramatic and ceratic weather all day: towarded rain me minute and blue sky of full suntar next, followed by towarded rain, + so on.

4/4- Flood water at Elksale, 1:45 P.M."

Returned JVB's cars to me of last night. he telephoned me at the Day course while DWPI family & of were at the Sheraton Hatel in Scranton. JoB's news: tue V.P. of the NRHS called JUB last night and told him that the OHH By-laws are very good and terat we will without doubt he awarded a Charter on the 14th at the meeting of the national organization. De plus, the by-law that VVB put together will beneforth be used as a model for all future NR 45 Coastern to follow. Mat's grand. NO in feeling 10 feet tall. Spent the afternoon at my deat. Very pleasant, and not may a plymal necessity but also a psychological orde. I prenetrated my dark seems with trips outside to expeneive the very unusual weather. During me "outside" break, I have up " a 2 /2 foot bourd around the dundoff garden pates, and truly garden qually increased ties area of the obling garden plat. I must say that I am making news predaring the garden plate for planting. From the old French word gorgias, "ruff": a high, showy, frilled or pleated collar worn at at 5 P.M., I dressed the throat, or gorge, by ultra-fashionable men in my dark blue gray and women of the 16th century. burners suit, and drove to scrauter for the Peans Technicians Gueld banquet - as the quest of Howard & Barbaro yegeson. Very enjoyable: open bar for one how and then the banquet, which was deliciour (stuffed chisken breat). Howard & Barbara were the official brote I were in 7th beaven. I sat bet the head take will the yepson party when included Bartain's sister Waring & her husband Bill.

4/5 - "Preparing tere Garde ., 4:30 P.M."

Stan Ogozallk Called at 1 30 PM of stopped by at about 3:30 P.M. If perked by FTA-83-695" and gars me, in her stead, "FTA-86-796" a beautiful Blue Bar her, The west lasted about 15 minutes — 5.0 - "bold, See you we made come dramatic Changer around here at looke good. Kly professional." Mot of course, pleased me very much stan was pleased by the individual kit bope and separate loft for been and young buts. 5.0 " you but look good you're on the right track now." Itan's Ufamily (waye 12 kelet mother) were in the Car—the mother is very unveil, when in the Car—the mother is self-self are always as frief.

Daylight savings 'time "camo in" at 2 A.M. - a month early their year Pennsylvania legislature rather, about a month. It usually of a rastroad from Carbondale to Hocesdale, 1846 Wedding of William Loftus and Alice Rowland "comer in" at the end of the month Ethel McGowan Brennan to come in early. Fine. I can agent to sury arbitrary changes sam difficulté est will take a day or two, but that well be that. Released the 8 old bene (a Ket of 5, and then a kit of 3) at mid-day; the kit of 5 flew very well. Slowly but surely they are getting back into shape after the winter in the laft. puked up the BBC money at noon and returned been immediately. Itan telephonel at 130 & then armed at 330 for her 15 minute vent. I then did some more garden worktelled up the entire area of my last year's garden. To my great pleasure, of discounted another pular plant coming up and also about 6 of the day lely butto that I trans planted from the Elkdal lawn into the Ounday garden last Fall. The hig news of the day: mildred has In the days when baseball fields were set up with home laid her second egg; plate at the west point of the diamond, left-handed pitchers threw with the arm on the south side toward her first egg war on first base: a fact noted in the 1880s by columnist Finley 4/1; both eggs are now inside the Europe and Peter Dunne, who coined the word southpaw to describe a left-handed hurler in a game at Chicago Stadium. dunmy "stone-tought" are in mildred's next. Pars family came for tea about 530 P.M. DWP brought some "cottage loaf" bread I we has that with Ceylon lea of SAP made blueberry Jelly. Dut had some xeroking to do and suggested we all go to the Univ. of Scranton and do it there. He drove While there, I counted the BBC money from the morning.

Entered the 3 Spring Phys and the 3 Summer Fixe of the Flying Tippler association today - 91.50/fax, which will get me an officed entry form and a fly report form I will enter to the hours system. The regnest won made by 5,87 to the Contral Terner of the FTA: 25 young, 209 Greenood arenu, Wayneste, PA 19095.

The yearling toppler are very over-sept these days, and I can not calm known down by flying them because the western is as cloudy and rains to vereast their allow fire turing " to do with laft arrangements in the loft with the yearling could and been heady pain and because freely pain and young birth.

4/6- "FTA-86-1213, 5:45 P.M."

Substitute day 79 mis Kane/mt. View Death of Teresa Layden of Mar here for Mrs Rane on 2/17/87, lothice Re vland, 180 was day 60 for me. 11:10 A M - just spoke with the Principal at mountain View and the second "would be delighted" to receive the three sets of books from the Eleanor Janes estate that Owl of are de-accessioning (so that the boo's will be used and approvated before then iscome too och and jungele). The three sets are: the collier's "Harvard clause", the Collier's "world's Greatest Literature", and the enternational Society 2 "Library of the World's Best literature. Probably about doo volumes in the three sets; they will be donated in EPJ's memory. I will have sticken bookploter made up for meetion in lack valueme. Deans daylight savings time in in effect, of won asst o igend a couple hour with the bute today when I returned from mountain view. I attempted to construct / did construct a set-up in which to photograph gaze not sue how well & have From gazzatta; a 16th-century tin coin that paid for a succeeded - my hund a reading of the Venetian bulletin on current elections, that further design rebattles and other newsworthy events. Gazetteer, once synonymous with "newswriter," took its findments are necessary. meaning from The Gazetteer's Interpreter (1703), a journalists' handbook containing geographical data. on verra. Spent the evening in town; deposited the OBC money from 4/5; des my Curren bookkeeping; went to the grovery store. and then a CASTAN Work session (730-11PM). John K. straightened up 305-306. SRP worked at framing pictures and photographs for the Preservation week exbubition luc mere muited by susan B., Jank, and Owl of family (who had been out to Shop lite for groceries). Slowly but surely the extubiling in taking shape. Defore the CHS+M work session, I went to mermelatein and pureused 50 pounds of time for my garden.

at 8 PM & punes home (from Hazleton) to say that all was well of that me were on on way we armed at the Golf Course at 9:50 P.M: general jubilation. SRP sat down for a few minutes and they returned here and Went rumediately to bed.

WHAT'S IN A NAME

Dr. Sylvester Graham, a 19th-century teetotaler from Connecticut, first made a name for himself by claiming that vegetarianism eliminated the desire for alcoholic beverages. His own diet centered on the coarsely ground whole-wheat flour that later bore his name and that today, because of popular demand, is still baked into graham crackers.

Released 1208, 1211, 1217 d 1219 ati 43AM of they flow until 1:00 PM — a disappointing 6 hours of 15 minutes. Weather Conditions not the best strong winds "on their back" of the bush were endlessly barraned by brown. merufully, no attack took place.

Mr. John M. Hart, Jr. General Manager Steamtown Foundation PO Box F Scranton, PA 18501

Dear Mr. Hart:

We have read with great interest the developments concerning Steamtown U.S.A. in Scranton and are most impressed with the ongoing planning efforts by the National Park Service to make Steamton a world class rail attraction.

Our chapter was formed in February of 1986 to preserve the rich hastory of the Delaware and Hudson Railroad as it pertains to our community. While we are located in the northern portion of the county, we leef that we could play a role in the on-going efforts to expand Steamtown as a mational attraction.

Therefore, we are asking the Steamtown Foundation to sanction the Delaware and Hudson Chapter of the National Rathwa Historical Society as the official chapter of the Steamtown Foundation.

We feel such an association will be mutually beneficial in the years to come.

John V. Buberniak President D & H Chapter, NRHS

PETER STEINHART

UMANKIND IS probably now the most numerous species of mammal With five billion of us, no other primare comes close North American buffalo may once have numbered 60 millron and white-tailed deer 40 million There are probably 10 milbon wildebeest in Africa Even livestock farls to outnumber us. There are 3.3 billion cattle, 1.1 million sheep, 787 milkon pigs, and 64 million horses to the world. And carnivores don't begin to equal us. Though cats and dogs are probably the most numerous, there is only one dog and one cat for every five people in the United States. In other countries the ratio of cats and dogs to people is even smaller.

likely to rival humans for the eeming trile. It has been said that there is one rat for every person on Earth Bus where sudes have been made, the rat population comes out smaller, Studies by Dawid Dawis in the 1940 found one rat for fifteen people in Baltimote and one for thirtysix in New York City. Since there are 400 species in the Rus Imagenius, and several species frown

Among mammals, only rodents are

and Norway rats for example) are lumped together in these counts, the overall number of any species seems unlikely to reach tive billion

There are odd to foreign constraints. There are odd to foreign constraints with a factor of the constraints of that there were once five bullon praine does, but today they number a tury fraction of that. One zoology a war expanse of Active tunder, are more miscust than human. He has counted them in densities of up to 1,000 per agree and grue-sers it is safe to say that brown or collared lemmings must number in the trillions.

But there are disserting works here. Tony Sinchia, a University of Bird. Columbia zoologist, says, "Tillions is too for a number. I think people over estimate them. I would doubt the terminage are even in the billions." Sinchia believes that lemming populations are dwolded by mountain people and rivers into nonimethreeding sub-populations. So, on that technique, man may be the most numerous species of manning.

Amone brids, only the chicken

outnumbers us. With a world population of at least 7 3 billion, chickens appear to be the most numerous land vertebrate. The passenger pigeon is said to have numbered perhaps three billion: if that controverstal estimate is accurate, it outnumbered humans while it survived. The most numerous wild species today is probably one of the shearwaters or petrels that swarm in huge flocks over the southern seas John Warham of the University of Canterbury in New Zealand estimated the world population of sooty shearwaters at "one thousand million " From there the numbers drop sharply

U.S. Fish and Wildlife Service studres conclude that Notifi America preduced only 62 million ducks in 1985, a number which takes in ten of the most noticeable species. Shorebirds, which we see in large flocks, seldom amount to a millton in a species Says Perer Myers of the Philadelphia Academy of Natural Scrences, "We see a lot of them in many places, but because of the habitat we're living in, we're seeing most of them. They come across as very common, but they're not." House finches, which we might guess from familiarity are hugely abundant, are village birds with restricted habitat. No reptiles or amphibians come close to bird numbers.

Passenger pigeons by Walter Thorp of Baraboo, Wisconsin (1944).

and yet of have never seen a shearwater or a petrel; low relative things are indeed. Humankind may be the only species that migrates pencipally in summer. Just when the sun has settled in, when he earth a warm, the ain full of bird-song, and the sunsets soft and line speng—just when things are getting—just when things are getting—sold—we strap suncess to the circ.

serving the sunsets of the sunsets of the control of the sunsets of the control of the sunsets of the sunset in
WE USUALLY SAY we go on warrants for the state of the same relaxation doesn't come from seeing new aghts it comes, really, from sitting in one's yard or sprawling in the pages of a city park, lutering to the buzzing of bees or the silent affirmation of growing squash and tasked on the spray of water more a grareful affirmation. It comes from feeling the warmth or sunlight on closed eyelds on the spray of water more a grareful affirmation. It comes from feeling the warmth or sunlight or sunlight or sunlight or watching unnlight turn amber as it filters through a canopy of clims.

The difference here is the difference between travel and tourism Travel is an effort to learn something about oneself or one's world by viewing life from a different angle It's the sort of thing Emerson had in mind when he wrote, "The good of going into the mountains is that life is reconsidered. You have the oppostunity of viewing the town at such a distance as may afford you a sust view." Tourism, on the other hand, is passive and unthinking. It is entertainment, amusement, merely a suspension of daily soutine. The tourist is supposed to be diverted. He is not supposed to be changed.

What expartes travels from tourist is less a difference in neome than a difference in outlook. Travelers have curously, a deast to find novel to have curously, a deast to find novel to have the material would but shaped and changed by what they live and sear to have the control of the contr

Comforts dive our travelers and replace rhem with tousiess. And all destinations begin to look the same "The more we more abour," says Boorstin, "rhe more difficult it becomes not to terman in the same place." We forget what we left home foo, of feel we have not traveled at all.

True Very true

Cowding has two dimensions. In shore resource stituner, leading to powers and lunger. And it causes us to de-thorance one another. Americanis have always been more atread of deluminate in the indirect. One of our visions of the operalpse is a time of such control and the operalpse is a time of such control and the operalpse is a time of such control and the operalpse in a time where government and meighbor decediments for the operal of the operation of the operal of the operation of the operati

Exaging the cowal in size our midwhalty or an American tradition. Danted Borne consed the Applachturs in search of elbowson. Today we suitasize more applaced to the contract scale of the applaced of the more cottages to guin a feeling of applaneties and freaden. American chair acter is defined more than arithing else by the possibility of soluting. Germade Stemsure, "There is more space where noticity is than where any body is. That's what modes America what it is."

Until the 1920, most of its lived on tarm, where stringers were intrequent and the lines between severy and solitude were plann. Balk, not not not rive of the stringers were stringers and the severy layered and complete boundation and standard, we been high fences and large yards. We build basses that turn awas whatling, we been high fences and large yards. We build basses that turn awas town the stores, and we contemplate the hearth or the sun in the yard. We grain the about traffic and a suggestion of the sun and the best of the sun of the sun of the sun of the best traffic and the sun of the sun of the best traffic and the sun of the sun of the best traffic and the sun of the sun of the boundary that the sun of the sun of the sun of the boundary that the sun of the sun of the sun of the boundary that the sun of the sun of the sun of the boundary that the sun of t

IT IS NOT JUST an Amencan side.
Amencan and northern Europeans
alike are unusually concerned with persoand boundaines. All humans claim an
envelope of air an und them as persoan
space and expect others in stay clear of
it. A study of several cultures deremined that Amencans and northern
Europeans claim the largest sones of
persoand space and Amencan find in
disconcerning that an African starsile
in disconcerning that an African starsile
in somition is a study of the study of the study
with sex inches away white failuring.

Only the English language has a word for consuling that implies the low of free-dorn and provacy. Only in Europe and America its adultace ornodated a human need. Explains anthropologist Edward Hall, "Everyone has the need for privacy. But it's handled differently in more than to be a first of the privacy. But it's handled differently in more than the province of the privacy, they just rane out." On the owner privacy, they just rane out." On the worder hand, say that, "German of whether hand, say the Hall, "German's the worker held comed of the cam hear worse; through the wall in America, they privacy is considered a publi. A study found that Americans spend inner time deep than the citiests of a dame other death of cities of a dame other dame of the cities of a dame o

Once you get into real urban crowding, like the New York subways, the zone disappears. You depersonalize other people. You go rigid and avoid eye contact. You treat them like trees."

True.

To escape the Crowd and to save his indevelopedly (and to
memorially that
understanding the that
understanding in
words and photographs), SRP
withdrew, on
6-19-1984, to Elkhele.
There, he is the
master of a fairly
large zons of personal
space.

As I see it, this business of being snowboard shouldn't uper people the way it seems of how a first all just more. And while the dates all as i just more. And while the dates all as i get enough it seems that noo many of us down that seems that noo many of us down that seems, that noo many of us of all orathy beside the road and their to fall earthy beside the road and on it. But that it one of the things I've have placed beside the road and the shapes like the sabout a someworm; it doesn't much give a damn who gets inconvenenced.

inconvenienced. Maybe I'm alone in this department, but right of wrong I have come around to the posture that since modern man has pertry well whipped most of the furly out of Mother Nature I. for one, am gladdened when the russ up from time to time to put ut down Human suffering notwithstanding. From DWP:

Was Uncle Sam Fine a 'slyboots' ?

On Sunday, March 29, 1987, on a family (WSP, HIRP, SRP, DWP, HABP, DWP II) drive to Montezuma National Wildlife Refuge to see geese, just as we were pulling out on to 1-81 at Lemoxylie, HIRP made a remark to H about Uncle Sam Fine. She sale that he was "trickster, a jokster, and lots of fun to be with". HIRP then reminded H about the story that she (HIRP) had told her (H) about sending the turkey roansing Dan back to have it washed about three times when it wash't dirty in the fise place. HIRP much have told H about the roasting pan at one of the family dinners in the period w.-vember 1986 - January 1987.

[Samuel Fine -- Called "Unile" but not a relative; to and his wife were good friends of the Russell family].

Mr. John V. Buherniak P O Box 151 Carbondale, PA 18407

Re: Proposed NRHS Chapter in Carbondale, PA

Dear Mr. Buherniak:

This confirms my telephone call of April 3 in which 1 reported having received your certified mail letter enclosing the By-Laws requested in my letter of February 14. Additionally, 1 note you folks have agreed to change the name of your proposed new NRHS chapter to the Delaware and Hudson Chapter, and your exceedingly well-prepared By-Laws were written using that name.

Moreover, you agreed that I should change the name on the charter application I received on December 10, 1986 to read Delaware & Hudson Chapter.

l acknowledge receiving with your letter of March 27 Cashiers Check No. 150976, dated March 30, 1987 in the amount of \$89 covering the membership applications of an additional nine individual regular members and 4 apouse members. This means that when I submit your charter application for consideration by our Board of Directors on April 12 your group will have 36 regular individual charter members and seven spouse charter members.

As 1 reported, the Board meeting will start at 8:30 AM, April 12 at the Holiday lnn - Waterfront, Portsmouth, Virginia.

I want to compliment you on your dedicated efforts to organize a new chapter. You have a very fine group indeed.

Sest wishes to you and your colleagues.

Sincerely,

George S. Hartman

PLENTY of the LAND

by HAL BORLAND
painting by Salvatore Catalano

TODAY'S MAPS CALL IT the North Fork of North-State 1 Nembas Revet, but in my both hood it was a creek A winding creek this started up near faincion, the state capital, flowed pass Sterling, where my father was born and where we lived, and fourners mites domenteram went right through Tecunisch, where my mother was born and Grandma lived. Another thirty five milest and it empired into the Missoun and became a part of the switzing, muddy current sugging toward the Missassipps and the Gulff.

In the early days my father's father built a daw on the Nematis, and a mill to gend corn and we humber. But by the tune of my boyhood the wooded hilb of its water theil had been tripped and cropped, and confided swer creeping down onto its floodplant. Each spring it are a few more acres of somebody is confided. Only a few people, lake Grandma, knew and thersthed its looping charnel and the tasple, hore patches, hackers, and grower that persented in its valley. Tirally, in the banding datumenther, it was "Bood-controlled" — the winding datuday of the state of the state of the state of the dranage datch, a mockety of a river or even of a creek. The midd Grandma never saw in after the

There were two grandmothers, but the other one was a window—sarchy, reserved, and critical. She distributed samlight, which faded het carpets. She insisted nature belonged outdoors and didn't think much of it even there. When I visited bet I sat on the edge of a chart and silently hared the world. She was Grandmother, rapitalized, formula

Grandma, on the other hand, was slippery elm bark and cherry-sap gum, dandelson greens and sassafras tea! thank of het every time! Jamel! black walmut halls, which is one reason we go out every autumn, here in our Connection! Beckhaue, and gather a few pecks of butterinus and hiskory nius, and try to bear the squirrets to a few handful so hastelinus; hough we seldom success.

I am sure Grandma was a lapdash housekeeper, and as a cook she fued her meat and boiled the life out of her vegetables. She was a tyrant in many ways, and when she was "on the prod" even the hogs stopped gruning. But she was of the fand and partner with it. She grew up in Nockolis County, which is in the south-central part of Noctrista, when the Indiana were unit occusionally house. See was full of fronzer skills and old-time fore: At seventeen the married a quete, gentle farmband whose German immigrant parents ided of cholera when he was a small bor PJ the time! I was born Gandma had seven children, the two youngest guits only a few years older than I was. And after a sucression of fairn failute effewere settled in a house on five of usin actes at the edge of furnation, where Carnalph had see alphy with an extrainticutament, where Carnalph had see alphy that a net control at unex seemed to be trying to perpensate her frontier eighthout an 26th Country tables were

incomments, distulps the country actives at 1 a 17 by say means, but and have mouseful piths and water, and its Mans Street was passed Grandma's place, only fif-teer mouser's will be mon Courbour's place, only fif-teer mouser's will be mon Courbour's place, was almost completely self-sufficient. It had us own well and numeric ration, to anodoro prive, in but, cow lot, pupers, and poutly house, its orthand, its big vegetable garden, a not cellul arbeyes called "the exoft —"and a flat tooffed morage place called" the exoft,—"and a flat tooffed morage place called" the swoodshed. It was within easy willing disance of Nevaba's thickens, buter paths, and grove, and Grandma went there a dozen withes for every turn the end "domnours." But mouse the contract of the place of the called the substitute of the place of the substitute of the place of the called the substitute of the place of the place of the substitute of the place of the

West TO GRANDMA'S Thranksyring, sometimes for Charamas. And every summer I spent at least a
week there, sometimes tow Othere I went, I became
a part of Grandma's work force: Grandpa was the only
member of the household who want of a duly part of the
crew He hurnesed has hones and was gone qipit affect
preadings and dadit come buck till supperstime. The
Grandpa, for I steps with hum when I vasted there, and
he always mattelled of hones
crandate are sted of the
depending on the status.

In June we picked strawbernes. Back of the barn was the cornfield, which always had half an acre of poratoes as well as corn, and beyond the cornfield was the embankment with the Burlington rulroad tracks. That embankment was a solid bed of wild strawberry plants. Grandma knew to the day, in the hour, when they would be prime. She could stand in the kitchen door, two hundred yards away, peer at the tracks, sniff the air, and announce, "They'll be ready this afternoon" She was right. Grandma never picked strawberries, but as soon as we'd eaten the noon meal my two young aunts and I took the tin pails and went to work. We picked dead npe wild strawberries by the gallon. That night we had strawberry shortcake, swimming in juice and mounded with thick vellow cream skummed off the malk crocks in the cave The next day Grandma made wild strawberry jam, glass after plant of it.

If is was cherry time we chused off the bards, pucked chemens, and the canned chem for winner pen. In obseicherry time the led us down to the Nemahu, where the knew every trail and tukeste. We peted choicechemes, and when we got home the simmered them, set them to drain in a jelly hag as by as a pullowase, and made choicecherry jelly, in dedirency season the discholarity parting, and the just the made from the discholarity jelly parting, and the just the made from the discholarity in a period of the period period to the period period full of special bernes and justed them separately. We peded print of the bash blakkbernes and the made just

and jelly from them

Always there were apples. Early apples were peeled, cored, and made into applesauce. Late apples were picked carefully and stored in open barrels in the cave. And windfalls were picked up whenever Grandma decided the blend would be tight; they were for cidet. I can sull smell the old cider press. There was always a barrel of cidet vinegar in the cave, and each year a fresh barrel of cidet was put down there to "work." It worked best if it was an old vinegar barrel, and it had in have at least a cupful of the gray, gelatinous vinegar "mother" to ferment properly There were also the kegs of cider, freshly filled every summer and allowed in work till Thanksgiving. Grandma had no use for hard liquor, but cider didn't fall min that category. Not until after Christmas, at least. And when somebody was sick or just feeling poorly, she always managed to provide a small glass of elderberry wine or blackberry wine. I don't know why, but the never made wild grape wine. Maybe grape wine was liquor. She made plenty of wild grape jelly, though.

If the weither was right, she dired apples, I never knew anyone clew hou und-ried fruit in the Midwest, though I am sure it wan't is unique accomplishment. She watched the skers and niffed the wind and listened in her own jounts, no doube, and if i looked like a propintious week the announced, "We'll thy the apples." Then out went the crew in pick apples. They had no be perfect apples without a sear or a bruze. She perfed them, cored them, quarrend them, and cut the quarters into half-inth woodshed to apple sike the control of the search of the special is layer of apple siken covered with these very spread is layer of apple siken covered with these control we the positifier and waspe. They had no be taken in one night and put out again the next mortung. One ramy day was an interruption: two or there ramy days in a row were a disaster. Mildew could start, and once it started there was no stopping it. If all ween well and the sun countined to shine, by the end of the fourth day the apples were dired in the color and approximate consistency of buck-shin. Then they were packed in muslin bags and hung in

a warm, dry place for winter storage,

Some yars, if everything was favorable, Crundma dred sweet come, but they save now chancy than drying applies I don't tremnober that the ever han-fried home, but the probably med and gwe it up. She boasted that the could do anything the Indiana did, and until here. We hater, who likef an "Ngdue" het, as the called reamy, once said. "I never thought nouth of you permanen." being given the probably med and the country of the probably medical than the country of the probably medical than the country of the same and the country of the country o

T WAS LATE AUTUMN when Grandma made nuncement, right after butchering time. By then, of course, all the aurumn harvesting, both tame and wild, was done. The big harvest, but by no means all of it, came out of her own garden. She grew beans, but she never canned them. Those that weren't eaten green-string beans, cooked for hours with a piece of fat pork-were let manure and were gathered and grared as shell beans. Beets were packled and canned. Cucumbers were packled, usually in big stone jars and in brine Cabbage was sliced and put in brine to become sauerkraut; there usually was a small barrel of it in the case. Tomatoes were canned. Carrots were eaten fresh, and any that were left over were fed to the cows. Turnsps, white turnips, were dug and stowed in the cave like potatoes. Yellow turnips, turabagas, a standard New England Thanksgiving toenu item, were not considered table food, if grown at all, they were fed in cattle. Potatoes were dug and stored in the cave. Onions were dug, dried, and stored in the cool, dry pantry shed off Grandma's kitchen. There she stored her herbs, too.

Grandma wan't really au herbalest, and definitely not an herb cook. The only cooking herb he used was sage, and the used is only un poultry stuffing. Bread stuffing, with plensy of noise, just recopally sage, and no fruit or naise or snything else. She talk gather a few medicinal herba. Suppery else hash, in make a strong tea for thills "respectively weig and hash to make a strong tea for thills "every reat," a midd purgature. Withh hazel lewest, to stop nosebleed and other hemorrhaging when dired and prostered and modified up the noise or applied directly to

the wound.

She also gathered and dried several wild mints, because the liked the smell of them around the house. And distany, to make a savory tea with vague beneficial effects. And black cherry bark, for flavoring summer drinks or winter tonics. Sassafras root bark was also gathered and dried for the same purpose, but it was harder to get.

By October surroully all this harvest was in. Then came the nuts. Her enthusiasm for those trips, I am sure, has something to do with my annual expeditions on toy own mountainade. The only comparable excitement over a nut harvest I ever experienced was on a meas in Arizona when Navaho families converged, bay and baggage, infant to grandfather, for the gathering of pithon nuis.

Grandma knew to the day when the nuts would be ready. She told Grandps to take the day off and they went in the big lumber wagon with pails, baskets, flour sacks, and burlan bags. First to the walnut groves Grandma knew half a dozen good walnut groves, so if someone was already at the first one they went on in the next The walnuts were still in their steen hulls, of course, but they were just on the point of turning brown and suicy. Another day and they would have oozed. They thook the trees and threw clubs at stubborn branches, and they gathered walnuts by the bagful. Then they went in the hickory groves. Hickory nuts were even more difficult to time than walnuts. Too early, and they wouldn't open their hulls readily. Too late and the squirrels would have taken most of them. But again, Grandma sensed the right time. The hickory mus were gathered by the bagful. And finally they went to the patches of hazelbrush. How the knew about the hazelnuts I can't even imagine, and how the beat the squirrels in them is a total mystery. But the never came home with less than a hushel, sumetimes two

Home they came with their out harvest. The walnuts were spread on the ground beside the woodshed to "ripen," to turn black and juicy. The juice was dark brown, indelible as waterproof ink (when she was a girl, Grandma said, they dyed their stockings with it). When the walnuts were properly tipe, after a week or so in the sun, they were hulled by driving them through a plank which had a knothole just the right size. This was a juscy, darry job and it left hands stained brown as tobacco for several weeks before it wore off. But the walnuts soon died and were stowed in barrels in the woodshed. One of my anduring Thanksgiving memones is of that woodshed, with its open barrels of black walnuts and bickory nuts, at least a barrel of each, and a bushel basker or two of hazelnuts. Just outside the door was a short section of railroad rail, half buried in nut thells. Anyone who wanted to eat his fill of nuts could go out there, help himself, take the hammer from the thelf just inside the door, sir down beside the cracking-tron, and go in it.

Soon after the nus were in, one could be size of had frost and good weather for butchering. That mean an-other dry off from work for Grandps. He had to get our heb had seeke and the walking burstle, past up the beg into the had seeke and the seeke and th

agan. If the has shipped easily, that was enough. If nor, soons enood ash be was added to the warr and the carcass was acaded agans. Then it was semped, all the hair removed, and make ready not us up. Meanwhale, Canadama had sainaged heart and livers and was pasking the big aton was cooling all over the kinden, and before the weeks was cooling all over the kinden, and before the weeks was cooling all over the kinden, and before the weeks was used to the sain and a series of the sain terms of the time means exerting the sain and the sain terms of the time means exerting the sain and the sain terms of the time means are sain and the sain terms of t

THA ALL THIS summer and fall harvestung. Thanksyring had more than a complantment, a kind of summary of the year. Even the trucky care from Grandmas own flott. Each pring she barreed with someone for a clutch of truthey care from Grandmas own flott. Each pring she barreed with someone for a clutch of truthey eggs to hack banded one of the broody hens. She trated at many of the definite poults as the could, usually at least two, one for Thanksyring and one for forthisms.

So the family gashered and the feast was prepared. Well before noon the whole area sunfeel of rozung naturely; boulag ontons, summering cranberty state; poungabe, more pare And only the cranberners came from the store. The listchen was full of women and family gough. The lungs room was full of men and man talk and laughter. The yard was full of youngsteen, hungry as young bears. And when we finally and down at the long table, Grandipa at no one and with the big cavring hatter, Grandina at the other end surrounded by reexaming.

bowls, we rould have been a bundred miles from town. Practically everything on that table came from Grandma's own domain. I had a hand in the growing or harvest of most of them. I belped feed the turkey, helped pick the sage in the stuffing. I picked potato bugs off the vines in the back lot where those creamy mashed potatoes grew, fed bran to brindled Dausy whose milk produced the cream and butter. I kicked over the tops of the omons to make them bulb. I marveled at the blossoms on the pumpkin vines, and didn't understand when Grandma said that some of the blossoms were boys and some were gurls I picked apples, shelled walnuts, pressed cider that went into the mincement. I picked my full share of the wild strawberries in the jam and the chokecherries in the jelly. I picked green worms off the cabbage and the tomatoes that were there on the table as relish and piccalilli Grandma always said the blessing, and it never varied

"We thank Thee, Lord, for the plenty you put here on Earth, and we thank Thee for the strength to go out and help ourselves. Just let us go on doing it and we'll make out. In Thy name's take. Amen"

And that is why we go out and gather a few pecks of num every [all—to participate directly to that plents. That is why we live on the land. Bur I do wish I knew how to beat the squirrels to those hazelnum.

2. Penankral celapse of the Moon. April 13.7. The lume celline begins in 27:09 w EST and ends at 1.18 Par EST. The beginning wild be vauble throughout easierin portions of the United States and Canada. In western and central reposts, the Moon wild rus eclipsed. The end will be wable throughout the United States and Canada. This eclipse belongs to the initial penumbral series preceding the umbral relapse of May 16, 2041.

Heavy ram and dense cloude made the eclipse morable, malburement.

THE CLYDESDALES OF GRAPHIC ARTS GRAPHIC ARTS

When one hears the word "Clydesdale," one usually envisions a large draft animal pulling a heavily-laden wagon. The Clydesdale is somewhat synonymous with arduous tarks, laborious effort, and strendous work, but in a majestic way.

The workhorses of the Graphic Arts Department at Lakeland for the most part are three young men. Pete Tapyrik, Gary Magnot, and Randy Krause. During their lunch or study halls, you would expect to find these students photographing copy

or processing negatives in the darkroom, preparing the presensitized plates, or running copy on the off-set press.

Not only must these students complete their own assignments in graphics, but they have been very instrumental in the printing of school programs for various events; prom booklets, certificates page is dedicated to their fine page is dedicated to their fine butions they have given to their school.

A Note on Parental Involvement

America puts its best foot forward every time a marching band steps off or sounds off, treating the eyes to a dazzling display of marching manuvers and the ears to a meladious mixture of marching band music - the steady beat of the clash of the cymbals, the clash of the cymbals, the property of the trumpets and trombones the stirring melady of a march.

Marching bands are synonymous with many of America's favorite Outdoor activities — paredes, football games, competitions — to name a few. Marching bands appeal to all kinds of people. For the young, old, and in-between, bands are a treat for the eyes as well as the ears. Everyone involved with a marching band shares a common goal: to make their band the best there is.

One group that has taken a personal interest in the betterment of our music program is the Lakeland Band Parents' Association, Inc., a diverse group of Lakeland residents who "banded" together for the sole purpose of encouraging public awareness and student involvement in the Chiefs' band. They have been "instrumental" in affecting the Lakeland program in a mostitive way.

Meeting the first Monday of each month in the high school, the Band Parents conduct membership drives and sponsor fund-raising events to complement the work of the school officials. The results have been very evident. The purchase of one-hundred staff shirts for the members of the band and the band front, and the acquisition of new uniforms for the

drill team at the cost of \$2100 attests to the contribution of a determined, positive-minded group.

Whether it is arranging a pizza party after a football game, or a trip to the Big Apple to view a broadway play, or hosting the annual Band Appreciation Banquet, the members of the Band Parents offer the residents of Lakeland numerous examples of positive community involvement in their school.

After the Lakeland School Board of Education hired an elementary band instructor this year, the Band Parents showed their support by providing refreshmenta at a parents' night held in the elementary school. The group is presently considering an T-Shirt incentive program for the 129 elementary students who are now involved in the band program.

It is quite evident that the choice of the Lakeland Band Parents' Association, Inc. was to be "Stepping Forward."

"What had of a stoped note to that" Larry needs a tuno" He does I even also to the band."

TOTEM I

THE FUTURE

AAAAAAA

Each year the Lakeland Year Bco Club involves its members in the publication for the school's annual memorial tome, memorial tome, metaled Tentus, a Latin word mean to great. With the setimated cost of year edition to be in the resignator of \$7,200, one of the more immediate late of the club is the raising of the necessary funds for publication. Projects include the sale of variety kits, candy, spice and flowers, football jerseys, stuffed animals, and the solicitation of ads.

In addition to the numerous funderassing projects of the club: it is a common sight on an almost daily basis at Laleland to find members involved in layout designs, photographic assignments, and publication assignments. It is only through the highly cooperative efforts of the student volunteers that this enormous project is brought to a successful conclusion.

This year; the Chiefs of the yearbool changed the name of the annual publication to Ictes I. The word "Totes" is from the Algonquian language and means literally "family" or "clan." A totem is a revered object (in this case it would be the yearbook) with which a limship group (the senior class) would feel a special bond. The students at LaFeland have a limship in that they are from one of the five communities which comprise the district. [Diem I will be the heraldic crest of the Class of '87, providing the members with a mystical bond to one another.

Mr. John V. Bubernlak, Director Delaware & Hudson Chapter, NRHS P. O. Box 151 Carbondale, PA 18407

Dear John:

It's a pleasure to inform you that the Board of Directors of the Society at the spring meeting held on Sunday, April 12, at Portsmouth, VA, votad to grant the Delaware & Hudson Chapter its charter and adolssion to the Society. I am personally pleased to welcome you to the Society and hope you'll grow and prosper with us as we preserve rail history.

I have your charter in my possession, and wish to present it to the Chapter at an early opportunity. As I review my achedule, it would appear that your mext meeting would be on Wedneeday evening, Nay 13, and 1 could arrange to be at that seeting, 1 believe, if that might be suitable to you. I will contact you by telephone to confirm.

 $1\ have\ enclosed$ a photocopy of the charter, so you'll know what it looks like.

If you need membership applications or other materials, please do let me know so that I might be of seelstance to you in getting them. I will also be contacting you with regard to other metters within the next day or two.

At any rate, we do welcome you as part of us, and l will be more than pleased to be of assistance in any way I can.

Homestead Golf Course closed by Powell Family

3y Paul Krupski

Montested Golf Course along Route 106 outside Carboodsite has been elead by the cowers, Walter and Helen Fowell, who said they have no pizze to sed! the property or resume operation of the recreational acreage. The closing, effective today, was shocking news to the numerous golfers who were pairons of the popular and picturesque 18-hole layout

popular and protected the stocked of their februaries. The Powells apparently want to enjoy their refurement years without the responsibilities and being hours of grounds depug theores as sociated with operation of the gold course.

"We recordly celebrated our 86th weeding anniwersary and Walter focient want to do it trainlain the courset any more," s.d. Mrs Powell. "I feel like Affect if there was any possibility the course would

be sold, Ptrs Powell said "No This will always be the family homestead "Also asked what will become of the golf coursa.

which covers a little least than 100 acres, she said. "I greast furth last be full to the full to the full to the full to the full the full the three at Firetville between 1855 and 1875, he year they sold the nither-lot "pilets and putil "settlity which remained open management." I settlity which remained open management.

They overed the boles at Homestead in 1842.

They covered the boles in 1973 with the Powell and the course offered it boles in 1973 and 1874 with the addition of five frew greens and Editrays and December 1840 fels to 1875.

The Course rec. It is populatify despite the

The course re ils popularity despite the habstere of moore, it cars and was the home of numerous goffees, and players of all ages. "We are very grateful for the participage," Mrt. Powell said. "The many leagues and players have been a compliment in at 1 feel band about the whole fulling myself, Tome, its like amoneone clied."

The Perennal Tubp Stram is quite demanding. In other words, it must be treated its way, on the gardener's. But culture is not the least difficult. Deviation, however, if result in the bubles romaing out, just as inter Tuips do, flere a e the basic requirements for these fine plants.

f. A deeply dug soil in full sun or light shade.

2. Perfect drainage

3 Fertulization is important. When planting, be sure a handful of ordnary sewage studge or bone meal is thoroughly mixed into the soil at the bottom of the hole. And each spring, top-frees lightly with a balanced commercial of critizer before growth shows—or just as the leaves put it through the surface.

 Space bulbs 1 foot apart. This makes for a slightly sparse plant ing the first year but lear es room for offsets and prevents crowding later.

5. Cover the trps with 7 mines of soil.

6. Unlike Daffordi leaves, which must be permitted to brown before being remixed, the leaves of Perennal Tulpis must be cut off when only half brown (the stern and leaf base should be dult green). If these condutions are met, blooms will artisally increase in number for several years.

pom Es young

Dear Stan,

yesterday four of my all linds (cocke) established a new laft record for time in the air: 11 hours and 31 minutes. a xerox copy of the fly report that I mailed today to Ed young in herein enclosed. These four cocke all desient from the Dartholomew hen (FTA-83-695) that a borrowed from you, and which you now have back - two of them are her som and two of them are her grandsom. Thanks again for allowing me to borrow her.

from The brewery. They do not seel the grain, only the bottled beer. I tried to find a source, through them, for masted barley, but was

unable to doss.

The FTA Newsletters that you are producing are furt class. Every time that a newsletter arriver, I stop whatever I am doing and read it from cover to cover. Glographically isolated flyen, such as I am, really depend on the Newsletter in order to fell connected to the mainstream of the sport. I am having terrible luck in settling young birde their year. of am following all of the recommendation in the tippler "special", and yet I continue to loose too many young birds. They appear to be settled and then suddenly (after a half dozen timen

in the an for an hour or more, and then, successfully tropping) they disappear. The young birds that d an racing this year are tending to fly Extremely high, which gives me a great deal of pleasure but results in the young burks loosing their bearings, of think. The burks seem to be excellent flyon, but without too many brains. of had arguelly planned to stop breeding around their time, but will have to continue for at least another round in order to recoup my settling

What can you tell me about the bloodline of the bluebar hem, FTA-86-296, that you gave me

7.

When you pucked up the Gartholomeur her's believe you saw she was 3/4 G. Jugher.

I was thinking of braving some aluminium banks made up with my name and phone number on them and banking my young burks with them (in addition to the FTA banks) Muyto I could get some of my lost young burks bank in the future? Is doubte banking against FTA rules?

of trust that your breeding and flying season are going well, and that you and your family are well and enjoying the warm weather.

> Sincerely, Robert Powell

"Landmarks of Democracy" preservation week theme

BY JONATHAN WALTERS

JOHN J. KLAMKE WICZ
II is especially fluing that in the
year of the Bic extensial of the United
States Constitution, the National
Trust for Historic Preservation's
Preservation Week theme by
"Landmarks of Democracy." For its
orely through the vision and
dedication of preservationists -often
a mere hauring of tenedous formany theme of the preservation of the
most cherished landmarks of

democracy survive today.

Two hundred years ago, the Constitution of the United States was ratified by state delegates set. to I hisadelphia for the purpose of organizing a government by, of st.2.

for the people.

For years afterwards, the people of
the United States would flock to the
stress pivotal in the founding of our
democracy. Boston's Faneull Hall,
where young ravolutionaries met to
diacuss the heretical notion
of pivotal properties of the properties of
pivotal properties of the properties of the
Philadelphia is State House, where
patriots met ragularly to debate the
course of a nation.

The horses of those who played key miles in writing that remarkable document became especially popular. Mount Verron, Nootleelo and Montpelier evolved into meccas for Americans who washed to pay their respects to the individuals who all sock thirtly and tenselously led a netion to independance and beyond to democracy.

Yoday, most Americans take for granted the right to visit any one of these cherished landmarks; thera is little approximation for the fact thet many of them were very menty lost. Werns it not for the concentred effort

of a now ceisbreted band of prevervationals, with the disceptively demure title of the Mount Vernon Ladies Association of the Union, Bount Vernon might well have been derroished. Farecul Hall was asset in per mad in 1970 in the prevery the prevention of the prevention of the Philadelphia State House was almost torn down in 1816, before a group realizing the importance of the step previated on the city to by it.

But while such celebrated landmarks are the ones that immediately come to mind in this bicentennial year, we, in fact, live in a nation of landmarks. In every city and town across the country there are those landmarks that mean everything to the communities that harbor them. They are landmarks perhaps not of national sugnificance, but landma: ks. nonetheless, to at define a commumly, give it a sense of place, and make it special. They are the landmarks that mark a community's progress and development, that evoke powerful images from the past to illustrate how exactly we arrived where we are today. They are the landmarks the! provide a foundation for the values on which that community posts

In Seatile, preservationists recently came to the recence of the oldest house in the rity. It was built in 1826 by George Wards, contractor and carpenter who would eventually become presented to his own insurance company and deacon of the community? Baptast church during Seattle's early boom years. His progress mirrore that of the City

in White Jiawen, MO, local preserval-noisia have saved a national breasure that most of us probably had no idea extend - the farm to which Ulysems S Grain Treatmed' in 1854 years before he would lead the Umon Army to victory in the Civil War. Certainly White Haven has national significance has the community effort and community pride the underpinned than preservation.

Every community has an ordest house, an old mill, a tavern, a stage stop or a first skyacreper Every community has a haunt or home of an individual whose contribution to the community was excited or merely significant. Every community has a

Carbonda, e and the upper Lackawanns Valley is certainly no exception. Two of the best examples of this are fluctuodate City Hall and the Gravity Railroad Shopa, both of which are listed in the National Register of Hastoric Buildings, and the only buildings in Carbondale with this designation.

Carbondale City Hall, as It stands today, was completed in 1894. The plans were drawn up by the Binghamton architect Truman I Lacey and is in the Romanesone Revival style of architectura. As the residence for city government during these many years, Carbondale City Hall is truly a Landmark o Democracy in the community. The Carbondale Historical Society has been working for several years to restore the busiding to its former grandeur, as was evidenced when the group replaced the roof on the south side of the back portion of the building

The Grevity Railroad Shops ara certainly a national landmark being the oldest standing shops in North America, and part of the operations of the third extrond and first million dollar corporation in the United

There are other buildings in tha area that have played significant roles either architecturally or because of the tamilies that were associated with them Examples would be the former Carbondale Post Office un Main St., the former E.E. Hendrick residence on Hendrick Lane, the Morss Homestead on Homestead St. in Simpson, and Fern Hallat Crystal Lake. It is hoped that these buildings can surviva into the next century and beyond, but they will be able to do so only if the community is concerned enough to preserve their unique and prepiaconble perspective on the

So Ihis week when preservationists celebrete "Landmarks Democracy," they are not just talking about those having a direct link to the people and the events that created our astion and its unique form of government, they are talking about all the landmarks comprising our entire democre cy whether it s Buckman Tavern in Lexington. Mass, where patriots gathered for the first battle in the structle for independance, or the buildings right here that remind us of the man and women who came before us, who isid the groundwork for that piece of democracy and community wa che.ish right here

SAP with for FOR YOU... Ma. mashall FOR OUR CHILDREN... M5-11-17 FOR SUSOUEHANNA COUNTY!

Bear Fellow Democrat.

For me, these past few months have been a time of challenge, hard work, and great joy. Friends, old and new, have worked hard, with me on my campaign for Susquehanna County Commissioner.

Let me share with you some of our concerns.

- WASTE DISPOSAL We must seek the expertise and technical assistance of the most highly qualified people to guide end direct us in a manner consistent with the quality of life, we presently enjoy.
- ECOMOMIC DEVELOMENT Our County has an unusually high unemployment rate. We must use our available resources to attract prospective employers for the benefit of our energetic residents.
- COMMUNICATION Our County Government must take the initiative to k.ep all residents informed oit major decisions affecting our lives and our future.
- 4. SENIOR CITIZENS We must be prepared to provide all possible help for our elderly, who, through no fault of their own, find themselves in circumstances beyond their control in the golden years of their retirement.
- AGRICULTURAL Farming is still the economic backbone of our county. We <u>must</u> exlipore every avenue available to insure the continuation of the family farm. Our friends and neighbrs have worked too long and hard to allow its destruction.
- 6. FOURISM Tourism can be a major source of income to our residents, if promoted properly. Our rural setting, with all of its advantages and opportunities can, and should be marketed to economically benefit all of us.

These are only some of our major areas of concern. At this point in the history of "usquehanna County, I ask you to consider helping me make changes that will allow our county to grow and prosper in the future - For You...For Our Children...For Susquehanna County!

 † ask for and would greatly appreciate your support, and your vote on May $17\mathrm{th}.$

incerely yours,

Josephine Doly) Marshall

PROVEN EXPERIENCE YOU CAN TRUST

NAAN.

'Ken Seamans has been an elected Justice in aur county for the past seven years. I am vating for experience again this time."

HONEST

Ken Seamans will continue that impartial deserve a foir and honest caurt judge. The people in Susquehanna County tradition."

DUALIFIED

working Judge. He is the anly candidate who has the most experience as an elected and "I am voting for Ken Seamans because he has worked as a judge in a Susquehanna County court for the past seven years."

PROVEN

candidate for Susquehanna County Judge Justice Seamans has heard and decided seven years. He has first-hand experience with major trial cases induding hamicide, hundreds of court cases during the past assault, and burglary. He is the ane with a proven track recard."

NDEPENDENT

Susquehanna County, Ken Seamans has no affiliations which could interfere with being 'As an independent practiong attorney in " impartial judge."

Kan Seamons has continually practiced law in Pennsylvania secti 1977 and is an active member of our or

PROVEN EXPERIENCE

- of Susquehanna County. Appointed by Gavernar Thanburg, 1980, elected, 1981. Currently District Justice, Narthern District
- since 1977 with specialization in family law, General Practice of Law, continual practice real estate, corporate, personal in ury, and estate law.
- superiar court leves, counsel at preliminary Defender Association c, Philadelphia, prepared mations, potitions, briefs at the arraignments, ARD hearings.
- United States Coast Grand, Vietnam era
- Bar Association, and Special Court Judge Perasylvania Bar Association, American * ssociation, Pennsylvania.

in 1981. He has presided over o89 criminal en cases and hearings - felonies and

"The Most important Ability A Judge Must Have Is The Ability To Recognize The Truth."

The people of Susquehanna County deserve to know the truth about the experience that qualifies a candidate to be elected Susquehanna County Judge. Ken Seamans has had over seen years experience as a Diviriet Justice in this country. Here is the truth about that experience as

- Do focal attorneys mactice on the District Justice Court?
- A Yes All attorneys currently licensed to practice law in Susquehanna Cunnty have represented citizens in the District Dustice Court. In addition, District Attorneys and appointed Public Defenders also have practiced in this court and recognize is important role in crimmal justice.
- Q. Why is District Justice experience important for a candidate for Susqueliania County Judge?
- A the citizens ga before the County, Cuurt, as plaintiffs or defendants, they want to know that the Judge has experience with all sides of the law. Justice Ken Seamans has presided over more than 1,500 lined cases and hearings ranging from morder to traffic urtres times, including aggravated assault, theft, sale and pussession of drugs, and burglary. This is the broadest possible experience a judge could have in dealing with the important and varied legal matters our citizens have The Justice decides jail sentences, fines, restitution, and has full authority to enforce all Pennsylvania laws within his furridiction. That 'Experience'
- Q. Does a District Judge pass certain criminal cases on to the County Court
- As See But before he does, he must rule on the evidence as to its admissibility and their determine what charges against the individual sloudd be carried in a higher court. These designs are based in knowing the laws and him they apply for each ruse. That's experience!
- Q. Are laws interpreted differently at the District level than the County level.
- Abulately not! The laws of the Communwealth of Pennsylsama and the United States are the same. You mist know the laws and understand how those law supply to each particular cose that comes before the bench. Ken Scamans has seven-plus years during just that! • That 's expeience!

Is there a difference in writing an opinion on someone and ictually making the decision on a case?

Certainly. The judge is the one who must decide on the facts before him. Also of different people will write the furnmal opinion für the Judge, but it is still the Judge's decision that counts. Sen Scamans has been oasking frose tought decision for the past seven wears regardless at who actually writes the injuini.—That's experience!

KEN SEAMANS for Susquehonno County Judge

The Right Man At The Right Time

ALIANO County Judge POWLIL . HORERT PU BOX 161 CAMBONDALE PA 18407

For a Judge, There's Only One Kind of Experience — Trial Experience.

And Only One Candidate Has It.

The administration of justice at the Court of Common Pleas level demands an individual with broad, practical legal expenence.

And that means trial expenence.

Charles Aliano has years of actual trial expenence. As Susquehanna County Public Defender and as a practicing private attorney, Charles Aliano has 10 solid years in court trial expenence including over 1,000 cnminal cases.

Charles Aliano knows enminal law

Mr. Alianos private law practice has represented the people of Susquehama County and 18 townships and boroughs, He has been silicator to the Sherill's Office and to the Susquehama County Auditors

Charles Alamo is Insted, respected and qualified. He has the legal expertise to be an excellent Susquichanna County) Judge without the risk of that and crorr. On May 19th, vote to put the judical robes on the only man who has the expensive and the know-haw to fill judge O'Malley's chair with expertise. Om May 19th, vote Charles Allamo for Susquehanna County judge.

CHARLES ALIANO.

An Exclusive Invitation for

MR. S. ROBERT POWELL

Dear Mr. Powell:

I would like to extend a special invitation for you to be one of a limited number of our Preferred Customers in Pennsylvanis who will have the opportunity to enjoy a unique cardanina treat thie fall.

We have secured a quantity of exceptional Interpretable and the supply of these choice varieties is extremely limited, we are unable to offer them to the general public. However, we've assembled the available rhizomes in a special Roya! Garden Iris Collewin which we are offering axclusively to our Preferred Customers at an extremely advantageous price.

This Collection includes two rhizon-s each of five varieties ideal for planting in Lackswanna County, Pennsylvania.

while euch tris often sell for as much as \$5.00 each in the Carbondale area, wa'ra making a limited time offur of all ten Royal Gardan Iris for just \$19.99.

Sinca you're one of our Preferrad Luetomere, we'd also like to send two axtra Iris for the Powell Gardan, absolutely free, to thank you for placing your recervation promptly.

These bonus Iris are an exceptional ewardwinning variaty -- Going My Way. This orchid-like beauty is one of the finest Iris yet devaloped and I know it will make a great addition to your gerden.

You don't have to spend a single penny to comerve this special Royal Garden Iris collection for shipment at proper planting time this fall. You'll have full opportunity to inspect and approve your shipment before you pay a cant.

You order without risk. Like all growing things from Spring Hill, your Iris will be fully coverad by our Golden Guarantea of Complete Satisfaction. If, for any reason, you're not fully pleased with any Iris upon raceipt, aftar planting or onca it grows and blooms, all you have to do is write Spring Hill anytime before July 1, 1388. We'll rafund avery cent you paid for it or send you a raplacament without charge, whichever you prefar.

I've prepared e special booklet describing thase exceptional Iris. As you look through it end inspect the unretouched photos of all of the besuties in this Royal Garder Iris Collection, I'm sure you'll understand more fully what a truly exceptional value we're offering.

I sincerely hope you'll want to take advantage of thie exclusive invitation. I would like to amphasize, however, that our supply of thase Royal Carcian Iris Collattions is limited and all reservations must be honored on e first come, first served basis.

Sincarely yours,

Jonathan Merriweather

Fithburgh, Barn, on Welderdark June 3, 1997 at 7:30 p.m.
By Order of the RW, Grand Meeter. OUARTERLY COMMUNICATION

Thomas W. Jackson R.W. Grand Secretary Dear Stan,

Who are nicholas Prevanti (FTA member) and Joseph BAJER (N. Brunswick, NJ; not an FTA member) and why did hieranti leave his prend, fager, drive all the way to Carbondale (prom lake Wallarpau-Rack) to bruy some typpen from me. as it turns out, I have none for sale, and so be went away empty bander.

Dozen went to Considerable lengther to locate me. On the day of Boyer's west (Saturday, May 16) of War doing some volunteer work Cutting gram in a Cemetery in Carbondale. The only address that boyer had for me was my

Post office box number - where would not, of course, bely him find me. He went through the fowell in the plane book and finally got my parente, who directed him to the Cemetery in Carbondale Where I was cutting grave, Bazer, ar you perhapsknow, in a very affable Hungarian from Yugoslavia. He says he has about Too "Canalian tipplere" /le made a concerted effort to get me to allow him to drive me to my loft and tren back to the Cemetery in Contondale. "I'm sure you must have one or two Coder frale, one be.

I do have a couple of yearling cook that I don't really need (I'm sure we all do), but or didn't like the way be war pressuring me, and so I said that maybe I would have some young cothe for sale later on in the year. Bazer: "Whatever you have, Just let me know, and I'll pick them up. If your not going to be lime, just put tuem in a box and leave them at your parents' house, and d'll prek tem up. " at that point, a began to think that I war dealing with some kind of a thief and war very glas he has no idea where a line and especially, where my laft is located.

Perhaps of am over-reacting, but it striker me ar odd that Piersanti (through Dager) would go to such lengther to try and get some bish from me. Certainly it was not because my 4 but flew 6:15 on 4/25/87 (see Report from Esyrung on the 4/25-20 fly). Certainly there must be many tippler breeden with bride for sale who are much closer to Piersonti than I am - and of have no but for sale.

I tell ymael this in confidence,

your confidence if you can tell me anything about Piersanti/ Dayer, or soay, in a very affable fellow who is very enthusiastic about tipplere, and in saying What I have in tun letter about him, it is not my intention to put him down in any way. But, smething about Bayer's visit didn't set well with me, and sod have written the letter to you.

Sincerely, Nobert Powell

GLADIOLUS (gla-dye-owe-lus or glad-ee owe his Iridaceae. They are not hardy, of course, for Gladiolus, very valuable bulbous routed plania, come from south and tropical Africa Gladiolus must be used carefully in the horder for most of them are rather stiff and formal-the word itself is Latin for a small sword If a gardener plants corms in the cutting or vegetable garden as early as the ground can be worked, and continues plantings at 3-week intervals until July 15, he can ket cut flowers until frost. With soil still cool in spring, figure on about 9 weeks from planting to bloom. After mid-June, 7 weeks is a good average. We offer only mixtures, for the named varieties can be bought anywhere Current introductions tend to be expensive and eaudy and are not included in our blend for both reasons

Culture Plant corms at least 6 inches deep to keep flowering stalks from topping. If put in rows in the cutting garden, keep the corms 3 to 4 inches apart Plant up to July 15-planting after that date in Litchfield is useless, for little or no bloom results before frost Spray early with Sevin to inhibit thrip a common but easily controlled pest Dig corms with a fork before the ground freezes, cut off the top about ', inch above the corm, then spread them thinly in flats to dry When they are thoroughly dry, pick off the little corms, then anap off the new bulbs and store in a cool place in open flats. Next spring sow the small corms with the large ones to increase stock. Do this every year and you will soon have stock enough to give away -- or to sell. Cut when 3 florets begin to open on a spike-all will then flower

RISE (eye-ims). Iriduceae. This hape genus of about 200 species, arrative in the North Emperater exposm of the world, consists of Netheraceae plants with Phinosee, solvenous, common set, and the Netheraceae plants with Phinosee, solvenous, or times and are used to the highlights of the garden in June 1 Dose most generally used are the bearded species. Better are many of them, including various subsections, but intensive interbreating has smale classification fair subsections. For the subsections, the intensive interbreating has smale classification fair bearded forms in gardens is which have planted only in fall used to be bearded forms in gardens is which have planted only in fall used to be bearded forms in gardens is which have planted only in fall used to be deadled Germal Intellection and the solution of the planted of the plante

Many arideners are aware of the fine work which has been done by hybridaters in common Bearded ins. particularly in the fall winteries. But few gardeners know what great strides have been made in Siderana and in the Spuras, the America of all herbaceous Iris. Meanwhile, the Japanese bave been developing knownighten There were strains are delicious, and it is unfortunate that the general constitution of the properties of the properties of the properties tural preas, there seems to we a nearly complete word in reporting, the first word—except for the Tall Bearded class.

Tall Bearded Iris. These are sensationally showy creatures and one of the most useful and widely grown perennials. All are very hardy. Borders of Iris alone, no matter how large, are a gov, and perennsal borders are rarely without them. A good big clump of Iris all by itself at the turn of a garden path, or one set (replacing a small stone) in a terrace, will for a time give that terrace distinction it woo'd never otherwise achieve. There is a small terminology that is peculiar to the genus and useful to know. The three large downward curving petals are called "falls" On these the "beard" appears, coming up from inside the throat and curving down neatly on each fall. The three upright petals are called "standards" "Phcata," which means "pleated" in horticulture, in Iria language is a flower having a white base with a colored margin. His fauciers constantly talk about "substance," a horricultural term which refers to the thickness of the petals of any flower. It seems to be a rather overworked wird in most descriptions, for you can bet that any Ire- without substance would jolly well never have gotten far enough even to be named and described. If a few simple instructions are followed even haphazardly. Fall Rearded Irises are very easy flowers to grow. They bloom in May and June

Commot of Jois Borers. There is only one sure way of keeping borers out of Ins. When new leaf growth in the spring it 3 tinches high, remove all dead leaves and weeds, and dous or spray with a contact insecticide. Then dous or spray is expans after 8 to Gays. This routine wall keep a placting clean; it will not all borers already infecting plants. Use Carboral (Sevin) or Malabhou.

Culture: Bearded Iris will not tolerate wet feet, so good dramage is essential. Planting depth is critical. The rhizonic should be practically even with the surface of the soil (see drawing). Iris grow any good garden soil einched with an organic fertilizer having a low

natiogen content. Use it as the rate of Lounce per square foot, use the same quantity of chema, if entitier, but dig this into the soil I seeks before planting, or shalf an ounce of planting must be done mendeately. Compose to well-rotted manuse must be to bed, mover placed around the rhazoness Each spring a quar visit of a superhipophase should be used moves. Each spring a quar visit of a superhipophase should be routed by least, be start to follow directions in the drawing and revulate; the ground before setting out the plants. To get the best results, drench them with hour

WEEDING AND MULCHING. Weeding is an onerous chore in gardening only when it is put off Then weeds must be pulled by hand and that's not fun. Actually, regular cultivation every 10 days is not hard work 'derely scuffle the surface One shouldn't cultivate deeply around perennials. for this destroys the 'one feeder roots which lie close to the surface Cultivating lightly provides a light earth mulch and it kills germinating weed seeds before they can be seen. If one cultivates before a hard rain, the ground may have to be cultivated again, for such a rain will reset weed seedlings and start them growing. The best way to hold down weeds in by planting a perennial garden thickly-then the spreading branches and leaves of the perennials will shade the ground so heavily few weed seedlings grow, and those that do, starved of light, are spindly and weak

Mulching is generally recognized as the business of putting enough solid organic material on the top of the ground in a planting to make weeding unicetiveary, and to hold a steady and monture content. Because of the skyrrecketing cost of boy wevelers, who generally hate to weed and are decided to the steady of the skyrrecketing cost of the skyrrecketing of the skyrrecketing of the being met by various industries with surplus products unusable otherwise. We have tried several kinds and have had some success. However, personal kinds of the skyrrecketing of the skyrrecketing or the nursery blocks. The following remarks are addressed to weed and mousture control in shrutch.

Evergreen hark Mure and more cedar, pine, and redwood hark mulches are coming to market If put on at twice the thickness recommended by their makers, they make a handsome and efficient summer and winter mulch. The principal negative is expense. A fairly large deciduous shrub border can be cavered for perhaps \$500 worth of bark plus \$100 for labor to spread it Cleaning up the full leaves disturbs it little and is not difficult to do. Over time, it will save more than that in weeding labor Weeds, of course, will still appear, but they will be few and easily removed, or controlled with Dacthal But as with any mulch, the plants require annual feeding, particularly with nitrogen, which is exhausted by the mulch itself as it rola down

Wood chips Usually available from local tree men. They about, however, be a year old because they host when fresh. They were put un three large borders here and were usucestiff—ar gets to the surface of the soil, water enters easily, and the fiew weeds are quickly removed But it makes the border look awful and it may have to be given a light covering of evergreen basife for us to live with it. However, the chips are chesp and we've already award easyers limited to collect whether the

LIPNUS (too pine' in a Leguninose, Lupine Another broad geous having many species hut few of them good garden plants: Lupine require lots of most type, full can, and protection from prevailing bot summer winds but do not, repeat not, need the English charate to prosper. Mist appear are easily grown in any moderately rich, well-drawed soil, although some are rather insiderant of hime. Plant them in bold groups: Do not add manure or lime to the woll-when planting.

Russell Strain Lupines. Pee like early summer by own an arabine shades of lawrender, hise, pink, and white, healers, and very leaves the control of the

ALTHARA RONEA (alf-line uh) Mulvaceae. Hollyhock The common Hollyhock is one of the mast learnable garden plants nature ever in worted. These beauties, thought by many to be native here, are Chinese. They absuid be planted in clumps close to every New Tapiand house. All or a clump close to every New Tapiand house, all results of the common terms of the common term

each \$3.50, three \$10.00, six \$18.90

A. r. 'Chater's Doubles' 21420. This group of Holly hock seedlings offers shades of scarlet, yellow pink and pure white "be colors are warm and pure, and show in June and July 6 to 8 feet high.

A. r. Powder Puff. 21439 Mixed colors only The flowers of these charmers look altotal like tennis balls cut in half and they are flully like a powder puff Really good cultivation rich soil and adequate water/produces brooms up to 5 inches in diameter. Colors are subdued 4 to 5 feet high, bleoms in July.

Althora Red Sinutes

DELIPITIVIUM idel.fin. 'e-um' Ranneulaceae, This genus at the queen of pertnanil garden plants. Although many garden books and nurserycatalogous asy that the large flowering types of Deljahamm are easily grown—well, forget it. The hybrids are not reliably perrannel in large parts flowering the performance of the person of the pergrowing Delphumum put because they aren't as rugged as weeds. There is nothing more beautiful or more rewarding than the 5d. 16 SH space 10.

a mature plant, which seems well warth any trouble or expense Their June flowering is, automatically, the peak of any well-bred garden.

Culture: Delphinium require full sun and rich wall and should be grown in a location protected from wind, for the flowe spike is so big that heavy wind or rain will oreak it. In selecting a site, remember that plants should not be closer than 24 to 30 inches to each other Very high fertility is required To achieve this, cover the planting over with 2 inches of well-rotted row minure or compost. Dig it in deeply, then spread 1 lb of 5-10-5 fertilizer per 100 square feet of border area. Pollow this with an additional 2 inches of compost or manure Dig for till this in as before, then arrigate thoroughly (at least 1-inch) before planting. This recipe may be scaled down for single plants within a border Bed preparation may be done in fall for early spring planting The point to remember is that a good interval is needed between preparation and planting incidentally if manure or compost is not available. pest moss will serve but the souking is doubly importan, with new pest. After the plants start to grow, dig a handful of the same fertilizer in around each of them

In succeeding years, keep fertility high and continue to load the soil with humus it's hard to kill a Delphinium by overfeeding. One should also note that Delphinium must be arrayed with Henomy! to discourage black-spot on the leaves. There is no cure for rown ret, though it's not frequent. There is a slos no cure for a Delphinium that has follow because it wann't saided. They were stakes, styling the soil of the spike, then the around them, formany a restraint to woled me

tion—but not a constriction.

Thinting in son encessary or first year plants but when an established crown begins to show men growth, there may be as many as 18 shosts, and there may be as many as 18 shosts on the property to become a first property of the control of the cont

In choosing plants for an all-Delphinium border, we suggest D chinensis for the front, D 'Con-

A harder composed entirely of

necteut Yankev or D » bolladoma in the iniddle, then a thick wall of the various hybrids in the back Because no two of these plants will bloom at canelly the same time, the blooming period will be reliatively long Second blooms, about hiff as believely long Second blooms, about hiff as been of the beautiful the second bloom started, irrigate throughly after cutting beat continue until heavy frost To get second bloom started, irrigate throughly after cutting beet the stalks, never the leaves, of frest at Delphrimatin in full bloom for the start ones. You will also find that the amount of frest at Delphrimatin in full bloom sharehof Plants offered are heavily-rooted, growing lustily in 3 inch pots.

The United States Constitutional Convention Bicontennial Exhibition

September 17, 4986—December 31, 1987 At the Second Bank of the United States Independence National Historical Park

Open 9-5 over day putil 6. Amil 1- Nevember 1. 1987

It seems to me, then, fittle short of a miracle, that the Delegates from so many different States . . . different in their manners, circumstances, and prejudices should mite in forming a system of national Government.

FLORGE WASHINGTON TO LAPAYETTE

In secret sessions in the Assembly, Bowin of Independence Hall in 1787-75 inter-from 12 states between 4 and debated the interrelated soines, diawing from their expetions as and their knowledge of history and political theiris. In many cases they compositioned an intell postmon of individual microst for their larger goal of creating a new Swermment mixed strong, and midel law.

The delegates invented a imique system based upon linidamental law one which is now the longest lasting written constitution in the world. They created a stong national government of three co-equal coordinated brain he with checks and balances to help insure individual freedoms.

The power was not granted from a government to the people, but was extraordinarily granted threaty by the people to the government which they had created.

The Communion belongs to all of us, and it will commute work to the extent that we are lamillar with its prossions and how it codes to fit a changing society. It also demands that each of us assume responsibility as the problems we must solve farringing but it detted representatives become more complex. If the Communion is to continue to work each of us must form about and care about the basics we face, and must influence the choice of solutions.

Let us all join this year in studeing the lastinating and extremely important story of the creation and commution of the United States Constitution presented in this premier exhibition and in various media and forum throughout this nation.

1 The Revolution Ends

With the surrender of General Comwallis at Yorkinwillin 1781, the American Wai for Independence was worn. The wartiner stallance of the thinners states led to a limited and weak national government under the Articles of Confederation. There was no executive. Congress depended on urregular pawnents from the states. A handful of frustrated men handled the foreign affairs the finances, and the army of the new nation.

2 The Disunited States

Each state had its own government to Issue mones, kery faxes, regulate trade Noor Americans turned their attenuou no Issal muters resconng their Larms and ships; pirking up sakes, and moring to Vermont, Matte. Pentirsky, or Transesse or it to the growing septort. But the same state of the same state of the agoing septort. But they are also the constraint adjustments were delith silt inflation. heavy provide and public drifts in digrudges welgished against the new espectamins of integrindence and prosperty. Meal egoldature were split by integrindence and prosperty. Seed egoldature were split by

5 The Nationalists' Alarm

Many of the leaders of the revolution ary struggle grew alarmed by the events of the 1780s. Congress, unable to find a perma tient home or a steady source of revenue, was a national laughing stock Abroad, Nationalists like John Adams and Thomas Jefferson were humiliated by American weakness the money to tansom hustages, the United States was powerless to respond. The British limited and taxed trade with the young republic, and relused to yield its Ironiter forts. Spain like James Madison, Julin Jay, Alexander Hamilton and Henry Knox were distressed by the factionalism of state legislatures and the pressure for paper money Armed mobs hor rably provented courts from seizing debtors, land in several states. Only a new and strong natingal government these men thought, inuld save Aniencan independence and local order. In letters, painphlets and newspaper articles, they argued for a constitutional convention. Finally in Philadelphia in May 1787 55 delegates from every state but Rlinde (sland) onvened Vital to their success was the presence of George Washington. refuctantly called out of interement to lend his heron statute in the creation of a ness American republic

4 Madison's Notes

The Convention met at Independence Hall, then the Pennishvanue state Bross, for hour menths in 5 mis exellings kept secret from the public. Only through the notes taken fully by James Madison can we learn what happened during the Constitutional Emission. Onpublished for mire than horty years these notes are among the most importability transitions of the internal methods.

5 The Great Compromise

The first boulde laced by the Crimention was the composition of the new feed congress. Virginary addition of Randolph and James, Madhorn argued for a powerful legislature approximated according to state propulation. New Jersyan William Patterium countried with a plan preserving the equality of the small dates in a weeker national Congress. After two months of sometimes better debate, the Crimicetica in delegation suggested comprising a two-times regislature, with all times in Requested comprising a two-times regislature, with all times in Requested comprising a two-times regislature, with all times in Requested comprising a two-times regislature, with all times in Requested comprising a two-times regislature, with a regislature of the properties of the regislature of the delegace know that their work, we file its successful a new government of equanded that explicit a plintfulch powers would come use in the Carmention.

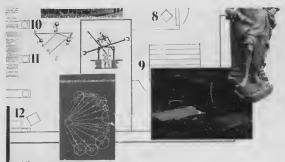

the princip group of Bagg page and page of a separate page of the
6 Sectional Compromise

Most of the delegates were Nutritables, but they also eightsented the Interests of their regions. Surfitteness wanted to give the Idential government the possers in regulate rade and last impurit. Surfitteness wanted in preserve their agricultural ampurit. Surfitteness wanted in preserve their agricultural the sakes of famine. Campies exceedibly possibilities that so that the sakes of famine. Campies exceedibly possibilities that so the road interest that the date trade this world year. Sakes were to the cummed as three fifthest in feet entires in the purposes of the proposed of the proposed of the proposed of the deconverges to capture figures varieties state this feet Consention was but the first in a lung series of further compositions between North and South over the next 80 years, only and the bloody (vid) wor in 1616-65 and Constitutional Amendments in these begins to gain their rights as feet men and women.

10 Powers of the Government

The deepages thought of pollutal systems as creclaint does in. The three bunders of government—the Peacutive the Legalance and the Juddeaty—were rigidly sparted. The powers of Cingres and the Productive were are ruly limited by checks and balances. According to the "superme law of the state and of the felectal government. A new Superme state and of the felectal government. A new Superme was the state and of the felectal government, he new Superme was supermeasable themostans for the time, creating, a supermental to the most and the state of the constitution. These bless were remarkable throughout his time, the constitution of the state of the stat

II Drafts of the Constitution

The Convention entrusted the details of writing the Constitution to several committees. James Wilson of Pennsylvatin wrote the first draft by August 7, which was prained in secreey and used by the delegates for their debate and revision Gaussement Morris of Pennsylvatina was whetly responsible for the cornors (final fartful experiment). 21 he was the author of the Jamiliar Peramble, erisply setting forth the purposes of the new American government.

8 The Figure of George Washington

As President of the Concession Washington took a small part in the Convention decodes. But he was critical to the Constitution sources. He was widely expected to fill the other of the President created by the Convention. He transmitted the completed Constitution to Congress asking that it be sent to the states for radiation.

9 A Summer of Debate

The Constitution has the result of four months of sporous debate. Every solve could be re-opened for discussion. The delegate voted more than 20 times for example on the question of hims the preadent should be elected. If chosen by Congress, as some suggested, the election would result in mirringue, calan and corruption? But if the president were elected by the people directly, he might become a pupular tyrant. How could the electrical system prevent both wish?

for ourselves and our posterity

14 200 Years of the Constitution

The United States Constitution is one of the shortest written than earns in the world, and yet it has proof applied to adapting to the remarkable growth of the nation since 1978. For 200 cour rulings, American have accepted Bergainift Fastleins challeng. "You have a republik," he is supposed to have staff, "You can keep in "In every rights wors, there are dozens of several properties of the properties and our powerful and country opens."

COMPLETE RENOVATION

Honoring Those Who Died That America May Live!

MEMORIAL PARK, CAPBONDALE, PA MDNDAY, MAY 25, 1987

[written down after the ceremony by 5RP] of SRP] of Program, 5/25/1987, 10:30 A.M.

In the course of the year, the Historical South does a great many things on behalf of Carbondale's past, present and future. Three of the recent projects of the Society relate directly to memorial Day. The american flage teret are now hanging on poler along the streets in the dountour area, first of all, are a project that was successfully carried out by the Bestoried Society under the direction of Susan stephene. It's a very good for well done and we are very proud of susan for having single handely carried out the patriote peoplet. The second of these projects in memorial

Park itself. Where we are met today. Thank to live untiring efforts of Howard Howell, who is with us here today, the gran in tun Park har been cut and the walkways cleaned for today's Ceremones. This is a server that is regularly performed for tun memoral Park and the sommunity by Mr. Howell, and we are very grateful to him for his service. The flower bafer that you see in the Park are an on-going project of the Jonety's been filled with annual and well soon be abundantly in blossom. It is very important that the memoral park be properly maintained and that it

be a place of beauty Thirdly, the Historical Society Jounes bouts with the memoral Day Committee in the restoration of the important GAR. monument that stands before in The restoration of two nable monument to our Civil War dead and veteran is a project that required a great deal of time and energy and resources, of War creited initially on may 30, 1885. It has now been completely restored. Long may it stand!

Thank you.

marching in the Parale war very enjoyable. Us three (Hours, pap & SRP) were the essence of energting that is well bred & civilized and educated. We were dressed in tuplor of were a triumph.

Dear stan,

Thank you for making possible the typler excitement that has taken place her at Elkdale / Carinidale in the part few weeks. Without the first class birds that you have so generously given me, and without your having pointed me in the right direction with respect to breeding and training, fortune to have four cocker fly 14:14

Yesterday.

Two of the birds, that of flew yesterday are from your Davis Butholomen ben (FTA-83-695, black) and a blue bar Carnew/Hugher cook (FTA-85-340) that of have from you. The ather two birds (FTA-8-1213, 1214) are from

two other but that of have from you:

FTA-85-3853 (a cm of the David Barthalmen

FTA-85-3853 (a cm of the David Barthalmen

ben and FTA-82-850) and FTA-85-343

(Laughter of ATU-82-535+ FTA-82-834).

The four bush that of flew yesterday are the same 4 that flew 11:31 for me on 5/10/87. Fallowing their flight on 5/10/87, I fed them 1/2 maple pear and /2 canny seed every day for five day in a row and then flew them for 9 hours on 5/16/87; following terat flight, I fed them 1/2 maple plan and 1/2 Canary seed for sevendays in a row, on the 8th day (5/23/87) I fed them, at 11 P.M., all the Canary seed that they wanted, and then gans them water of releases them, from
their individual kit boxer, at 5:34 AM,
on 5/24/87, and they flow 14:14. On a
mentioned to you on the phone, they
dedn't seem to be exhausted when a
brought them down with drappen
at 7:48 PM. I put out the drappen
when a did because the sky became
when a did because the sky became
when overeast and since a don't have
exterior light a likit want to
risk an overfly.

you phone call to me yesterbay as my birds were faying and at the end of the day were the ming on the cake, making it a very memorable day indeed. Thank you.

If no are har yet volunteered to update the FTA Honor Rolls, I shall be happy to do so.

I have a copy of the 1985 Honor Rolls and the February 1987 FTA Bulletin #1 with the 1986 statistice. So & need any other data? If not, I well, as som as I have your ok, update the FTA Jono rolle. ar & glance ones the 1986 statistics, it appears That there are no data for the 3rd fall series fly. There are data for 9/13-14, 9/27-28, and 10/25-26 (stock fly). Perhaps there were no participants in the 3rd fall deres Fly on 10/11-12/1986? for 5/24 that I were mais to Ear young tomorrow.

Somerely, Robert Note:

my letter of 5/25/87 to Stan orgozalek contains an eva of fact on page 2:

FTA-96-1217 } FTA-86-1214

ar the som of FTA-85-3853
and Thinke
(no band; no longer in the SKP loft). of
mustakenly identified
121341214 ar the
Som of FTA-853853 & FTA-85-343.

Have your letter at hand and allow me to say that - Congratulations are in order! No longer are you a movie at flying the tippler I'm assuming that you know that in the U.K. one is a novice until he has flown a kit 10 hours in competition Now that you we exceeded that, how does it feel? at least now, you are truly experienced with the training and feed up etc. though there are other little tiel bits of info that would take upon further. Dr course, the correct training is the most important, Not allowing the ket to drop until the droppers are released depending on how that look in flying the weather, etc. Unother point is to fly the pit as close to the darkness as possible so that it is justilled in them that they must fly yetel dark . Of course, the feed that you give them does have an effect towards long time flying yes, the Gartotomen her is a good one and it has shown in the four cocks you flue in competition I shall be freeding her to a DAVIES cock that I recently obtained and will get at least one round of youngsters and possibly two - if I switch the egge To another pair.

It is just too bad about the bailey. There

Bob.

no place to purchase it now. We're using the recular bailey but as can be seen, it does not have the same affect. as for the builtin, well, I'm trying hard to make it interesting for the member. I've had an offer to kelp with it and have it done on a conjuter Of course, it would look nice and soon but d'me not sure that is what the membership wants. I can't give you a definite answer as to why you are losing the use young birds after to releaser fould it be that you are felding them too much (what, pas, kafer) too sorles? It could also be that begainst of their high flying that the are becoming lost. You will of course have there settling losses therefore the reason to breed some extra finds in the hope that you will settle more than enough, you can then choose which ow the better and dispose of the other. Dow't try to improve the det too poon # 21/2 is from a Gordon Hugher Cock (blue) and a hen from Ils Broyma that flow 1502 for him and in mostly Augher also. She's flown in training at last to hours for me Therwise she wouldn't last. But she made a mustake by dropping without clearance. She should be a good addition to your stock. Sood idea about the bands with name of

Double banding is not against FTA rules. When I was a member of the ATO (american tipple, Union) and a FTA member also - my beide had banda from both clubs. Why not try this - buy the luminescent paint and paint a T"about 2"x" 3 long on 1"x2" wood. Place iton top of your loft, Place similar though smaller To nearly your loft so that the bids can recognize the mark, This could help with the settling - that is if the birde are in the area. Most to painting with the luminescent paint, the wood could be sealed with a glor seater so that the lun, paint doesn't rook into the wood. about the hawk proflem - maybe if you flow darker colored tipplers instead of the light over then possible the howber would not take there? IN your ford-up you can use glucose powder in The water - except for the last day prior -. Buy it from the pharmacy under the name POLYCOSE, about 5 for a can of it. One tablespoon to a gt, plus I teorgon of apritol in the same oft of water. I know of a few Top flyers that do this, so give it a try. Setting back to your contest fly - not bad for a farcier that has only recently started with tipplies. I'm certain that you'll fly them much longer and you'll be doing it soon! You'll be doing 11+ hours with young tipplers and think nothing My own pits only flue 12:47 and 12:00 in the two contests held recently & believe my mistake was not enough of a build up I had been treating them as though they were young pirds, not fading then correctly - the need more than training feed when they the 8-10 hours in training twice Ker week. Two of the birds in one kit had flown 15.07 and 15.30 last season but this year & let them down by not putting back" what I had taken off them in training Now must handle the finds during their trailing to see how they are either losing or organing weight, etc. you are judgment in their feeding oth land good flying! Best, Stawlgozalek

THE CRYSTAL BAND OF SCRANTON

P. O. BOX 221, MOSCOW, PENNSYLVANIA 18444

May 27, 1987

Dear Band Member:

Monday, June 1st will be our last rehearsal for the summer. We expect you to make every effort to attend this last rehearsal.
Here is our summer concerts schedule:

Tuesday - June 9th - 7:30 P.M. - Green Ridge Corners. Wear full

uniform for this one.

Tuesday - June 30th - 7:30 P.M.-Memorial Park, Carbondale. Wear the
T shirt for this one and all the rest.

Monday - June 20th - 7:30 P.M. - Lutherwood. Rain or Shine

Tuesday - July 21st. - Lake Ladore - 6:00 P.M. for supper - 7:30concert.
Must be there by 6:00 P.K. if you intend to have supper.
Reservations must be made. If you bring a guest, the cost
for the guest will be \$4.25. Band members are free. Rain or

Sunday - July 26th - 2:00 P.M. Mid-Valley Long Term Care. Rain or shine.

The enclosed card must be filled in, signed and returned. Bring it to rehearsal with you on June lat. We must get these cards back as this is the only way we have of knowing what to expect attendance wise. We also will expect you to be present at the concerts you have said you would attend.

We played the best concert ever at our annual spring concert. We have a very good band you can be broud of. Lets show the people at our summer concerts that we are laying up to our reputation as the "FINEST AMATHUE CONCERT BAND IN THIS PART OF THE COUNTRY".

We ere still trying to take a trip this summer. Contacts are hard to make.

We will start our fall rehearsals about the end of September or early October.

Looking forward to a nice summer with successful concerts.

Sincerely

John W City

Nan Waters/Carbondale Area

War heroes sleep on...amidst vandalism-

been stolen from veterans' graves in Maplewood Cemetery to Caras a veteran and a bondale, Now. My associate to the Carbondale Hoirva, tells me I overuse the word "livid." I guess I do, II's a office of The Tribane Larry matter of fact I love words., most great word and I like it.

word to describe the anger, frus-tration and futility you feel when Sometimes there is no other

you've been ripped off.

bondale Police had recovered the flags but not the culprits, who not gestleman to veterans affairs to man of the Memorial Day Committee which arranges for ceremonies to the park every year You want to talk livid? Case in pulnt, Jay Sara, an active the Cerbondale area, and chairen that boliday.

In his hand, Jay Sara carried a Tuesday of this week he Not yelling-screaming-livid, but came toto our office, outraged, sagry, frustrated and coldly livid

patriotic American, he naturally reacted But his group, composed af five veterans' organizations to the Carbondale area, spent most of Saturday decorating 1500 veterans, graves in 11 cemeteries in By three Saturday afternoon, 19 flags hed abready been ripped off at Maplewood Cemetery. the area,

but none at all for the servicemen who died, many of them serving their country.

it's been going on for a decade only have no respect for the dead,

replied succlactly. naya, "it's just that we can't seem "The Carbondake Police have not been uncooperative," Powell

Charlotte Moro about this, and she On Thursday we asked Mayor

In his hand were 19-count em-19 printed aign which tells the beautiful resting place, holds over penatties loud and clear, for 7,000 deceased, and was first opened in 1832-the oldest cemetery in the area. descerating a veteran's grave; a "We're going to go door-to-door year in prison or \$1,000 fine.

City Council and heard Bob Mc-Almost two weeks ago we sat at a regular meeting of Carbondale Donough, head of the Belmont Neighborhood Association, and a delegation of ten of his members. complain about vandalism and in the Cemetery Street area and show this sign to parents Maybe cost," Sara said grimly "And we will prosecute to the limit of the if will scare them a little if thry know what their kids' actions will

Last fall we asked then Chief of cemetery and flush out the in-truders, "Lack of manpower," he harassment of residents in the police Alan Clements why he didn't take his men into Cemelery Street area Vandalism and mess at neaptowood Cemetery is hardly news According to S. Robert Pnweil, president of the Maplewood Cemetery Association, law anyone who is apprehended."

Maplewood Cemetery

said, "Manpower, -.. I've posted orders downstairs for the cops to to get it stopped " Maplewood, which was probably once a

patrol there regularly and they "We try, but it's true, we don't have the manpower, and you can't be two places at once. We just We then called the police department and spoke with Det. don't do II."

Nobody scems to have any easy We understand the same thing has been going on at St. Rose Ceme-tery, but Monsignor Thomas C. We understand, too, that this problem is not just a local oneanswers to cemetery vandatism. Boran was unavailable for comment as this was being written that it's going on nationwide can't sit there "

What fun anybody could have

Happy birthday, belatedly, to the lame duck from the lamer one. We don't understand the fun you ripping off American flags placed by veterans' groups, or floral arrangements from gravesites, is beyond our comprehension

get from cruising Main Street on a weekend evening. A friend and I clocked our trip recently, on a Saturday night, from Convenient Food Mart on South Main Street, to the BenMar Restaurant on North Main, a matter of just a few With cars, trucks, molorcycles from the radios to their vehicles, It book us almost 15 minutes. And these are not "just kids." They're young adults, affluent enough to and RV's packed solidly, bum,erto-bumper, accompanied by the of loud rock musie drive expensive vehicles. eacophony

Maybe we're just getting older

Speaking of older Mayor Moro turned 39 on Salurday .. the date of the original Decoration Day

Trevelyon-III, p. 12 - "The westery of law over inresponence and arbitrary power was applended triumph for ewelgation, but it make the lawyer point of view somewhat too pre dominant in the Eighteenth Century." P. 14 "The dudustrial Kelolution began first in our island, and may for commissione be dated from the early year of George II Throughout his long reign (1760-1820), new force of machinery and capitalized industry worked their blists will upon a lovely organized, austocratic society that did not even percene that ite P.16 - "... Seage I was ignorant of English language and custom: " p. 45 - George T, though not the worst, was perhaps the least generally attractive of monarche." 6.77-"... the new of yorklown in England brought the system of persons government by the king to an esta." P. 131 - "the sport of cake and ale P.165 - In 1929, Nahert Pell established an efficient Curlian Police, whom the propulace endlaringly called by litter of his two names.

"Vite of Stepant's Crook" one of a series inumbered Lite Lifel of stereoscopic views of "A Ride over the Def. is Had Gravity Road into the Coal Regions Had were producing the and polithed by L. Hensel, Hawiery, P.A. in the last HIMs. This stereograph card is in the califorous of Mar Ratinger (Steders) Rishess, Andrees, P.A.

[out of four, it would appear]

6/1 - "me lonnell'a lestament, from 301 city Hole, 8:00 PM."

- flew the young typlen at 8. 10 Am. and 6 of them flew until 10:30 A.M. - very encouraging of put out the 4 yearling been and they all flew together. No yearling been showed the young bush the raper, as it were. At the young brist flew, I folded and stapped and prepared for making the June issue of Brean News.

The Estavare most true, say by Prosoner. The Later of the Representation ratios of DISW never ran unto Carbondelo. Walled out the Belson News at about mond then deposited yesterday in DK money; did a few errant in town and them returned here temperature around 90%—

and worked in the

pole beam of squash

garden. Fused around with the

bizarre

From the Spanish bizarro, "brave" or "bold": probably inspired by bizar, the Basque word for "beard," a feature once regarded as a symbol of manifiness.

of martiness.

And then planted two planted seek).

In one had a planted Houselon Buttone, arten, 2 innear, Colendala I draphayon.

for Japanes tree planted about to seeke for Japanes tree planter, some moonflower seeks trat of ficked in leg's garken, some California papper and some Choter's Rouse Holly hock (might colors). In a third patch, of planted some mare french Hontenthing beams. Just and finesed goodening, it began to rain. and as my garden are planted for the year. I may go brug some mangela (while of love) but that will do it for their year. also, of forget, de planted about 10 sunflower seeds. 7:30-11 PM-C HSS M work session: SRP, NVS, JK, and Hank. Very productive.

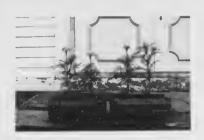

- cleaned lafte I guestere but the bate from Dala try to Bottome (when mon) to see his physicians - boked gingerburd crokes at Homestend took out to town - to sign up at Unemployment; I went to mermelotein's & purcussed a Pax Blove plant I some grant marigner. Vicuslam sale - 4 - 7 P.M - Dupt & have "tea" at Elkdale along with fried potatoes of back & SRP green radional of SRP cannot pickles: 6/2 DWP at the I westook Receiving Sate at the Newslam Salo, 4:30 P.M."

My 15 Chicke were scheduled to be shipped today. Maybe they will arme demain. Everyteing in all set; brooder, waterer and Chiek starter ready. as soon as they arrive, I shall have to get John K Tinker (m Margaret Bruce), 1839 busy and construct the bentime Rain before seven, Fair by eleven that I have designed, for it will only to a matter of a few weeks before they will be too by for the broader In the cours of the past several days weeke, I have been very actively focusing on garden / tapplers / SRP's world. There are so many people/factore that constantly threven to overclowd SAF and SKP must continually re-assert himself or be Crushed Elkdob in such an excellent place to establish a lever," as it were. mushlowing personal paper - tent well be a projet of the summer months. I know that I had alma mater plan to get some Literally, "bounteous mother": after graduation, More mucrofilming the Latin name used by an alumnus ("foster son") or alumna ("foster daughter") to refer done tun spring, to his or her college or university.

but gordening seems to have intervened. No matter, the time will come. Their summe & will paint the exterior of the Churce and a well prepare for minisfelming (and have microfilmed) a large quantity of as yet in-

minofilmed personal papers.

6/3 - The Porch Pate, Elkdale, 6 P.M."

- a lovely gentle spring rain much of truday, badly needed by the garden.
- 15 Chicke ordered on 3/4/87 (5 thoron Legham, 5 Buttercuja, 5 lakenvelden)
- ordered modified, 3/30/87no Brown Legham available & so 5 Muff oggingtom substituted.
 - order argumally schedules to be slipped "Mid to late april," then 5/20, and then (fenally) 6/2/87. —
 (march 11 June 3)

My 15 Checks arrived the morning Wedding of Marianne and Bill Stratford at 6:30; see my text: "The Day the caucke arrived" that is given in these pages. In the cours of the day, between extended session at line broader, of planted marigalde in the pour pate, planted a forglove plant in the pleanned garden, planted tur manigolds at michael Billegue's tambstone of four marigness in the Cement un en the middle of the Elkdale Cemetery planted 7 grant mangalar in my pleennest garden, banded with FTA bander of my name phone number banks # 3468347 (under 340/3877, their parents), and had lunch (bacon degge & Ceylon tea). CAHS called at about 2 P.M. and wanted me for Friday of had to decline because of my dental appointment for that day.

- spent several hour the lacening fort watching the chicks are then they also for ten minuter and then they estand drend I were around, and then they steep again,

and soit goer.

planet

From planetes, the Greek word for "wanderer": once applied to the sun, moon, Mercury, Venus, Mars, Jupiter and Saturn, in contrast to the so-called "fixed stars" that to early astronomers appeared motionless in the night sky.

a day of errand-doing in Carbondal of Evanton with DWP, in the course of which of purchased 25 pounds of "Start of Brow" by Perina for my 15 little treasurer, which are all doing beautifully. They are growing very quickly and from day one hand all more or loss exhibited all of the behavioral trait of moture. Chicken It is very amorning to water them, as I have for how and hours. They last and then sleep in, sound the Clock. No wonder trely we growing so rapidly. Also purchases a sage plent at miller's agway in Clarke Summit — How I do loss that aroms of sage.

6/4- The G.A.R. Memousle's Carlowsale's Memouse Park, 7:00PM"

Recently removated; the soldier leave backword a little but that appears to to the design; I sai securely places on the pedestal.

at no point in the day, Dorned ded a "youreally should herone a misson "smill on me and that annoyed me. not that I don't the highest opinion of the mosone, & simply do not need another "commitment" in town during the Birth of Margaret Loftus. Richard T Gillespie. evening. of am always fighting Wedding of Harold Loltus and Ellen Howland, tokeep my schedule as open as possible. Lexplained to Oup tout of would have to clear up my scudule somewhat befored couled allow myself to get involved in Free Masonry possibly in the Fall & could get involved, soid d. Very productive CH SSM meeting from 7:30 to 930 P.M; at the Conclusion, acrosed & JUSI d went up to so Cemetery Street to visit Editer & Sertude. They are well. EAG. in anticipating her 90 th birthesay in July, los had the & strawberry ice Creating and petatoe Chip at the diving room table. JUB has apparently purchased a 7,000 time-sharing "apartment(?) near //ageton cet's him for a few week ends(?)

per year. What (in my opinion) a rediculous thing to purchase . Beinger it were he a good in nestment, mari greand même!

Originally, a Tory who hid in the woods north of New York City, in what is now Westchester County, and tinkled cowhells to lure local farmers into ambush; not until the 19th century was the word applied to Western ranch workers, who were also known as cowpokes because they checked on the condition of transported livestock by poking sticks through the slatted sides of the cattle cars.

- put up, 343, 361, 363 & 373 with the four yearling home and they went 4 hours not too siyor seven how tomorrow without the hene; put up 351, 352, 344, 345, 350, 362 along with two yearling home (in late afternom) and they did a couple hours. I feel fairly confident that all 11 young bilde are now "settled," mais on me sait Jamais.

- Dental appointment, Dr. Horlace, at 10:30AM - my 6-month Cleck up; all is well; & return again on 12/14 & 7 at 3:30 P.M. Horlaches in an exceedingly bland/un-mapping/lutewarm little man

6/5 - The View from Dr. Horlacher's Office (#405) in the First National Dank, 11:05 A. a."

Planted my new solvia officinalis Monica Loftus Moran. in the perennial garden. Fill Molly Hogarth, 1918 belown summer is here. Most of locust are left to leaf but completely. There are two stading next in the bulling one by the Chimney and one by the hat through whom the littlety wires enter the bulking. Two (perhaps three) of the bird houser trave wien in them, which is wonderful. Their song is a perpetual Joy. Great Blue Herom are seen flying over every day: they must be going back of faith between next and feeding growns They startle the daylight out of the typeer. The polo beam are just about From the Latin prodigus, literally, "driven to take hold of the away": applied by the ancient Romans to a son who had squandered his entire patrimonium pales, as are the (the legacy received from his father) and was Morning glorier. therefore banished from the family to work as a slave for his creditors.

The Seamon family passe by very regularly there days: taking in hay, taking out looks of manue, plowing & planting. my first day bely (Hemerocallie) with probably come out tomorrow - a reddent orange one. Spent about three hour Cleaning and organizing the forger / Kitchen What

Loudy with

6/6- Typpler Garder, Church, Car, 2:10 PM"

lost up at 530 to release the young tipplen but war unable to do so because of dense for , I so I went back to bed; at 7:51 AM, of released 343, 361, 363, 373; these are my & best young but They have not had as much training as they should have (because of Clouds of rain all week) but they did have a good 4-how fly yesterday out of fed them their full of carrany seed and maple plan last night at 10 P. M. Dreign, cook (50'2), cumuluclouse moving quickly; we shall see what these four young champion "con do.

There is a wied rose (pink) in bloom down by the Cemetery wall of it is perfuming that entire section of the Cemetery / Leaven! The bush are blantiful, the full-open blossom. as somewhat too flat & crumpled, The Jermyn grade but oh what a fragrance! A knowle was partially beginned by the bounder of the property of the control of the property of the control of th the lyre table in the sitting room.

1987-343, 361, 367,373 - flew beautifully and landed at 1:25 PM - Which mean last they flew 5: 34, which is good. They were not peoperly / adequately prepared for the competition today (too much rain last 10 days) and they will lasily do 12 hours, I am certain. on verra, Perhaps on

Literally, "one who sits on the horse's croup"; an old French word for a passenger on horseback who rides on the rump, in a secondary position to the man in the saidle; later applied to the casino employee who handles the money at a gambling table.

tere July 4-5 fly they will show their "stuff" Purchased at mermelstein's and planted today about to Cherry pepper planter and say dill seedlings (anothum grave olens). The rage to plant in still dominent, although I am just about out of garden space. Juck deliciour madness.

Textbook perfect Summer day; sunny, breezy and lot (in the sun) and cool (in the shale) temperature from 55°F-80°F. at one point of went out and lay down on the orchard grass beyond the perennial garden. From my garden vantage point I day dreamed and watched the typica Cavart in the wild blue youder. Quite core ce soir - maybe a frost : I have

Covered up all my negetables of flowers.

Jumme triumphant: ym can practically water the garden grow and true chicker grow and of course time young tryplem and notwelly the grash around the Church Browth and nenewal. There are dudings fantings and Marylana Yellow Mostr and House livery and Marylana Yellow Mostr and House livery and Marylana Yellow Mostring — and possessly ather birst-nesting here in the grounds. The duding Dunting is a special treat and of have become ginte expect at recognizing its full-throated song.

No to lettle course as doing well, although one or two of time laternelder appear a little flare — unas true 13 others.

6/7-" Scenem Elphale Cemetery, 6 P. M"

Mism attended Cluves the marning although of dis not see her when a picked my tre money after the service. I never look at the chipeyation but grietly and quickly Sunday dunner at the Homesterd: borbecued Curken & Spanier vice &: borled potataer and "new" lettered Showlary sunteake. between her early afternoon and had a grand time with my birds of my garden. and was feeding the toppler, mont Dul drode in & housed the Car born. Mon wanted to see the Chicke. SRP: "You only get one look per week," said of, "so make it a good one." We all laugher. again, mon picked me up and held it to her Cheek: a very tender seens, lue towed the grounds, and then ming DwP left - about a 15 minute visit. mm + Oak went for a work up on the - course after dinner today - so & leaned Formally, "the bug of Our Lady": an allusion from DWP Very seem to be adjusting to the fine art of being retired, whatever one's age. 7:30-10:30 P.M - OWP & SRP west Cousin Begand water "out of africa" with meryl Streep and Robert Redford. Streep and Darbo are very probably the two greatest american actresser

"Early Summer Bouquet, 5:30P.M".

"Home repair" begin at Elkhale - I put new glazing points in the bottom, half of the 8 winkows in the Church; glazing parte/compound to be installed chartly. Ordered are picked up some of the lumber that I will need to Construct my ben broase, and als selected the spot where the ben broas lovel stand; hery probably & will order the remainder of the hen brown burder tonorrow. I believe that I can lasely Construct the ben brouse in a few days some trop de difficulté. We snail see.

a couple of the Chicke are looking a little "puffy" and one seems to Evelyn Neary, 1910 John Blaschak Gladys McGe he having difficulty breathing and so I minks up some of the a student at amennycin that I dhow for the tipplen and gave it to the chick ture tempoonsfiel / gallon. Hopefully if will do tiem no harm. Jane 1207, 1213, 1214 & 4213 an exercise outing today and they cannoted about, although the extremely high humidity did teem in after about four hours. Then in the first time that they have been out since their 14:14 on 5/24; my plan is to fly teem on the long day fly on June 20-21. They are my heat het for a new laft record. a rabin har taken to landing on the top of the post that I have installed in the center "a(2"x2"x8) of the morning Blory pater. Very aming. "deciphered" 7:30-10:30 P.M = CH SJM work session. Sank of a read and transimbed the "very sed noem about Carboulale that well appear in the next CHSIM Newslitter JUDI his friend TO COIN A PHRASE "Donny" y 2 girle In the Middle Ages, when naval warfare was waged at close quarters, opposing crews heated were present; JUB up tar or oil in the bowls, or "heads," of long ded not make spoons called "loggers" and hurled the hot liquid any introductions into each other's boats-thus placing themselves at loggerheads. No Savain faire. JUD weeked his \$4,000 metorgeled today and war in the hospital for 3 hours the dike in totalled to be still ower 3,300 on it.

Crystal Brus Concert - 7:30 PM. - Sicenetye chinen, Seventon. 6-1-1987

Mr. Cy M. Grosvenor 1876 Davis Street Elmira . NY 14901

Dear Cy:

We were pleased to receive your letter of April 12, 1987, in which you propose that the Historical Society publish a booklet of your stories about Carbondala.

We agree to all of the conditions that you atipulate in your letter (you may edit all material before it goes to the printer; we will include the Paul Elbrecht stories that were published in the News). Should we not have a written statement from Paul Elbrecht giving us permission to reprint his stories? Should we not have a written statement from the News granting us permission to reprint the Elbrecht stories?

Perhaps you would be willing to draw up a waiver in which you relinquish all claim to the stories?

The depth of your, knowledge about Carbondale is truly extraordinary, and we look forward to reading--AND PUBLISHING--your atories.

Sincerely yours,

Mober Powell

Mr. S. Robert Powell, Carbondale Historical Society, Carbondale, Pa. 18407

Dear Mr. Powell:

A few mighte ago I received a phone call from an old friend, a former Carbonialr resident now living in the Washington, D. C. wrea. She told me that she meete regularly with a group composed of former Carbonialiams. Defore the meetings two of the members who subscribe to the Carboniale leave have passed their copies on to the other members, at the meetings my stories are often a subject of conversation and those precent reminisce about events I had written about in a story they had reed shortly before.

The woman called me to pass on a suggestion that had been made at a meeting held during the week before; that I publish a booklet of my stories and cell it. This I would never do. I have no deeirs to reap any mometary gain from my etories. I wrote them colely as a means of chedding light on events of the ment and to stir the memories of readers and cause them to recall events of 50 to 70 years are. My intest etory is about the Carboniale of the 1920s end how different it was from the city of today.

Although I as opposed to my publishing of a booklet of my stories, I wouldn't oppose the publication of such a booklet by the listerical Society. I's fairly certain that it would find a ready market in those living in Carbondale who keep in touch with friends and relatives who are scattered all over the country. I've found that such people never lose interest in their bons town. The preof is meet one of these and all they want to talk about in Carbondale.

If you think well of the suggestion I've made and decide that you want to go ahead and have booklets printed, I'll eign a waiver in which I'll relinquish all claim to the stories. There are two conditions attached to my offer; First, that I be allowed to edit the stories before they go to the printer (the formar typesetter at the News was the world's worst); Second, that the stories published in the News that were written by Faul Elbrecht be included in the booklet. The stories he wrate about the day Babe Ruth ate dinner at hie home and those about his grandfather are classics.

Throw my suggestion into the mill at your next meeting and see what the other officers and board members think of it as a fund rainer. It might relee a few bucke; maybe more than a few.

Sincersly yours,

The Day the Checks arrived, 6/3/1987 at about GAM. I woke from a not very Downs sleep and looked at treclock of wondered to myself if any substitute teaching call would come the morning. my thought at the time war: " of a Call comer that's fine, if not, text's fine." at 6:30 %. M. the plane rang & I mechanically reached down of picked uy the phone and to my surprise it war mom: " no Past office just Called. Your Click are in " SRP: " wonderful! I wonder if a how to wait until 9 o'clock to pick teem up?" mom: "L'el bet is you just go down and Knock on the door they'il give them to you." SRP: " It's worth a try. Thanks for the good news."

I got my immediately and telephoned the carbondale Past office and learned that at 7AM. I coved pick up the Chuke I dremed immediately and made a quick try out back to Check on the tipplen and leghour and, and possed Chantreleer of Mildred, of declared: "There are other Chickens on the premier tree days. mildred, maybe you should re-consider setting?" my remarks to the leghorm, of course, were to get them Jealour and cause mildred to incubate, finally, some of the many eggs she has Thun for layed. Chanticles crowd a greeting and that was that, I drove derectly to Carbourdale and la route lestened to national Public Radio, on while of learned

that Segoven died today, aged 94. The Classical quitar has never been ne of my favorite instruments, by a long shat. But De govin war Truly a ground vertusso performer and extraordinary promoter of the guidar, and now he is no more. When I arrived at the CPO the Polish (?) maintenance man who, I have learned from other postal Implayer, hoter me and the Historial Society in general War entering the first don of the Port office. He saw me pull in. Knowing that he was probably in the lobby, of braces myself and prepared to lived my own and not be comes by his usually

hostile manner. To my great surprise, as I entered the building, he Carne through the Service door bearing my precious Chicke and he was wearing a joyour smile: "You're hero for the Chicks. Hero they are. "I thanked him and we juexed through the holes to make sure that they were all Well, and having satisfied myself that they were, I thanked him again and took my leave. What an amoning siene! apparently he has concluded that since of have ordered some boby Clicker Chick that I am OK, or it were, even your associated with the Historical Society. Somewhere in that rican's past, there must be some Chicken. The 15 Church Were

"peeping" naisely as a left tree CPO & coes an conditioning in the CPO was probably the reason of put them on the floor of the car and turned on the Car heater, and very quickly the Chicke made the very recognizable (but hard to desuite) sound of Chicke that are warm/getting warm of Well remember that sound from when we were take and had bantam bens with young - as the Chicker took sheller under the mather, they made the same sound that my 15 Chiefer made their morning When they felt the warmth of my Car heater. In less than three minuter there was not

a sound coming from the boy, whene also alarmed me. "What have I done? suffocated them with heat?" No, tirey were all dozeny comfortably. They were like skinen who come in from the coed and worm them selve in fruit of a roaning fire. Naturally of has to have a "surv and tell "at the Homestend. an I arined, Dad war just returning from his morning's walk and Man was in the Kitchen of lutered the Kitchen and him gut very excited. I apreced the box and Morn immediately put her hous in and picked up a couple chicke and held them to her face. "They

are so soft, " she declared. I, too, took a couple of them up to my face. Bath of in were carried back to many years ago when we did the same thing to chick of our Childhood. What a moment: pure and direct and nery umderful. Just then Das come through the Kitchen door, and he too immediately recognized by the sound what was going on. Hu eyebrown went up and hu mouter opened and his face was alive with the Joyour smatins of "well, well, what do you have there." He looked in the box and soid: "They look healthy." of Summes them both the beautiful color pictures from the Michaelay Cotalog of the true freeds that I ordered: Duff organizatione, Butterupe, and Lakenvelder, of Contremember Dad's words, but be declared the Buy organization to be bei favorite of the three breeds. Naturally of has to sum O mand, and so up the stani & went. Le war still sleeping and climbed the stairs to the attic and he was awakened by the sound of my footsteps and by the sound of the peeping Chicks. Lake USP, Dup immediately Knew what was going on I put the bax down on the edge of his bed and we both fused over the Chick. Wont you have fun with them are day," said DWP. I took my leave of DWP and returned to the kitchen. and Intered I said: " Well, I'll be accepting

eggorden very som, so don't delay in placing your order. " Minn t Das bate grimed appropriately/ appreciatively him: "Turke sure you give them water immediately." Das: "Alina good idea to hard boil an egg and chopit up and mig it with the feed to get them you for telling me that I will " I took my leave of the Homestead. I put to 15 chick in the brooder that I made for them and put in "chick starter" and a Chick Waterer, Which I purchased some time ago at City Fled. The organizations and the Butterayn went right at it and ate and drank, especially

drank The Lakewollders were very uninterested in from I water. Two of them appeared to melt under the warmth of the lamp (the lamp was not too close and none of the other Chise responded at all negatively to the lamp). They appeared to be die and so of gently put then beak in the water dish. They revined somewhat but then appeared to have some sort of seizure: they started doing backward fligh and rolling about uncontrollably of took them in My hand and held them so that they were in a normal position. Mey slept, very soundly. I put them down, along the edge of the box and they continued to

sleep, neeke stretched out of was sure they were going to die. For a couple hours, I didn't leave the by one then the ather, came to and money about weakly, I played mather her and juked about in the food dish with my finger and drapped some of the granuler/powder in pont of them. miraculously, trey began, very slowly, to pick at the feed. On they did, they seemed to revine before my very eyer. In about an how, they were normal." I think that what was going on upmanine york they were still operating upmanine before botching and had not reached the point where they were empty and hungry, as were the orpington and the buttercupe.

Perhaps the water caused the spasser. maybe they have to have food frist of then water Hard to say. The butterupe and orgungton seemed to lat and then drink. Maybe water (where, the lakenvelden appeared to drink when I depped their beats in tue dish) and the yolk in their system don't min, and that Caused the spanne. Dad will probably know the answer. at any rate, it is now 3:30 PM and all in well in the broader. No lakewelder appear to be normal. What an emotionparked 9 hour, from 6: 30 A.M. until now. Donald phoned around 2 P.M. to find out if d thought it writes be possible

for un to make a wesit, bowever brief, to so cometery street tomorrow night before the Historical Society meeting. " Bertrude's in town," said he. "Me, I'm sure me Can, "said of. SRP: "ym'll probably want to come over their afternoon and see the Chiela, Wont you! " Dw.P: "yo, of course. Maybe around 5 O'clock." SRP: "I'll Clerk with you later on. " and so, at long last, my Chicker have arrived: a very enjoyable and memorable day. The Chile were ordered from Soffman Batchery in Gratz, PA, and the orderwas sub- Contracted to a hatchery in Messouri. This of learned

from the shipping label: the Chicke were shipped on June 1, 1187 in the P. M from Lebanon, Missouri:

L'el bet that with a little sleutling about, & can determine the name of the batchey in Missouri
from wheno came my 15 little

treasurer, although there are a great many hatcheries in missouri.

BRIGHT DIANTHUS

For year-round beauty and a delightful extra-long June to Sapterni er bloomin, season, there is no pla at like bright, cheerful Dianthus for spicing up borders, beds and rock pardens. The lovely Dianthus family is enormous, and counts among its members such distinguished individuals as Sweet William who has relatives scattered from Europe to Japan and the Himalayas, from Afr., a to the Mediterranean. The most lamous of all, the frilly Camation, ranks with the Rose as the most beloved cut flower Bul unlike some Roses, Dianthus are a cinch to grow in any garden, particularly in your region. These foolproof, hardy perennials are prized for their prolific blooming and long-lasting. delicately scented cut flowers Handsome, textured clumps of dense, tufted evergreen foliage are splashed throughout the summer with dushes of color. Thrives in sun or partiel shade. Dianthus is especially good for giving your garden an English country cottage look. Low growing plants are ideal for defining the edge of a planting bed or border. Their grasslike foliage blends well visually with your lawn to provide a superb transition between planting areas and grass. To produce extra largboutowniere blooms, just pinch off all side shoots during the growing period to concentrate production on a single blossom Dianthus will give your parden and bouquets the green thumb touch of the world's finest florist summer after glonous

Dear Dr. Powell:

As the 1986-87 school year draws to a close, I would like to thank you for serving as a substitute in the Mountain View School District.

We will look forward to having you continue on the Mountain View School District's substitute list for the next school year and you can accept this letter as a reasonable assurance that we will, in fact, be calling you to substitute again next year.

Sincerely.

M. R. Edwin Young 209 Chemina

Wyncote, PA 19095

When, if ever, will JUB grow up? He is in his early twentier now one low still acting like an adolescent: absolutely no sense of responsibility and completely un-dependable Her und is not worth a tenker's dam, so to speak. He can be very Charming and persussine when he wants to be, but us longer are me (the CHSIM, individually and collectively) taken in by John's act. On Murskay of last week, he said that on Saturday and for Sunday that we (DWP, SRP, JUD) would make final preparation for the DJ H meeting on wednesday - Dup & d were fare to provide the China & Crystal and such for the refreshments and get everything are set up so that there would be not dry rushing around at the last minute. at in now monday luening, and John

has still not taken any artism. at the work session tonight he knew right off that I am very upset at bein. When I confronted him with her irresponsible belasoinal patterne be feely tried to excuse himself by easing that he "had to work" He didn't have to work (at Buger's) be close to work. my position at the moment is that dam not going to do anything to help guarantee that the wednesday a DIA meeting in a success unless be contacts me and explaine himself. I may not even attend the meeting even Through the Eastern Vice President of the NRHS will be present and will present tire Of If Caspter with its Carter from the national organization.

[draft, 6/8/87]

Honor System

FLYING TIPPLER ASSOCIATION OF AMERICA 1986 Honor Rolls

The Hence Rolls are a compliation of the 10 best times flown in each of the 10 annual F.T.A. competition flys for which we have available records (from 1965 on). The Hence Rolls were initially compiled, and subsequently updated, by Omer Ogren. The 1986 Honce Rolls were compiled by S. Robert Powell. The new additione for 1986 to these rolle are, in accordance with e practice initiated by Omer Ogren in drawing up the 1994 Hence Rolls, given in capital letters. In five instances in these Hence Rolls for 1986, there is a double entry given under e particular time in a specific fly. This is because: (1) two different flyers reported the same time in a given fly in the same year, (2) two different flyers reported the same time in a given fly in two different sears, or (3) the same flyer reported the same time in a given fly in two different sears.

Music

Sounds in the Night

Has the restored Carnegie Hall kept its acoustical magic?

When A strage Hall toopened in Decenter after 30-week, \$50 million renvision that saw the historic auditories meritary flow for Northward to render, meritary flow flow for the control of sax a new maple stage, a new flow and 4 in thick, were replastered and their gold detailings reform Grone was the stage obscuring a hole prunched in the ceiling 40-years arriver and newreparted leven the tubers sported the ceiling 40-years arriver and newreparted leven the tubers sported to the ceiling 40-years arriver and newreparted leven the tubers sported to the ceiling 40-years arriver and newreparted leven the tubers sported to the ceiling 40-years arriver and newreparted leven the tubers sported to the ceiling 40-years arriver and newreparted leven the tubers sported to the ceiling 40-years arriver and newreparted leven the tubers sported to the ceiling 40-years arriver and newtreparted leven the tubers.

The real question, (bough, was, How would it sound? Opened in 1891, the Manhattan concert hell has long been renowned for its rich sound Conductor Wilhelm Fortwangler once remarked that the hall with the best acoustics was the one with the best performances, but at Carnegie, second-rate symphonies sometimes suunded first rate There, the resonance bathed performers in a mellow amber glow, and at orchestral climaxes the floor vibrated sympathetically heneath the listeners, feet What did it matter if the subway occasionally added its profundo rumble to the bass, or if passing file sirens sounded a wailing obbligato to the treble? Musicians and audiences loved it just as it was

That Carnegie Hall has passed into legend in its places is a brighter, more brilliant performance space whose sound has a sharper, harder edge. Woodwinds and brass now glitter where once they gleamed. At the same time, cellos and double basses pur where once they roares "an eage Hall now sounds crisper,"

although it still retains much of its fabled warmth. In its new incarnation, it is closer to Boston's lush but clear Symphony Hall than to its former voluptious self.

Yet contrary to myth, the old a ... um's sound was not perfect alumns the 1946 filming of the movie Carnegie Itall, the ceiling above the stage was ripped open to accommodate ventilation and lights The hole was masked by can vas panels and curtains, which may actually have enhanced the hell's warmth by soaking up excessive high frequencies. But the first dozen or so rows lay in a dead spot, and an unsettling echo off the back walls was noliceable in loud, brassy passages Despite its reputation. Carnegie was not mute as good as Boston's jewel and the Grosser Musikvereinsaal in Vienna, or newsi spaces such as the Philharmonie in Berlin. and Symphony Hall in Salt Lake City

Time had not treated Carnegae kindly. The actiling was leaking, and the Boorboards were rotting Says Chairman of the Board James D Wolfensohn "It's not has we wanted to change it because was had the money and thought: I would be fur. There simply was no alternative." Under the supervision of A constituan Ab Melzer the

The tabled hall, redone from floorboards to rafters

A more brilliam quality, though the subway still rumbles

old naterials were replaced as much ea possible with new ones poissessing the same some properties. Notes Lawrence Goldmen, the hall's director of real estate planing and development. "Each element was

tested on the way out and on the way in inevitably, the sound was altered Some orchestral players claim they cannot hear one another adequately in performance, that the communication among them no longer has an intimate, chamber music quality Some listeners miss the old soul-rattling vibrations Says Acountician Larry King, who was not in volved in the project "Carnegie Hall doesn't shake the skull as it did before Summing up the negative reaction, Music Critic Leighton Kerner of the Village Force declared. New York City now has another Avery Fisher Hall," referring to the acoustically troubled home of the New York Publishmoni, at Lincoln Center Others diagram—11 is an extracted-nary-acounting hall, "asys Conductor Denian Rousell Davies." There the Perlains it is mean it positively, a speciatoulity before the positively, a speciatoulity before consideration of the positively, a speciatoulity before the art of the removation, calls it a "little brighter deduct of Carneges Hall and one of the leaders of Carneges Hall and one of the leaders in the fight to always in the deviation in 1920, asys. "What you hear now as this consideration of the leaders of Carneges Hall and one can be always." What you hear now is this consideration of the leaders of the l

A sampling of recent events largely bears out that judgment, ween if it is still too early to tell how it the hall ultimately will turn out. The Boxim Symphony under Seiji Oza-

wa which performed Mchler's Resussestion Symphon during opening week bloomed in the new environment, but the Philadelphia Orchesirs under Riccardo Muii veris 'Errore' Symphony Bass Samuel Ramey effortlessly reached the far edges of the balcony in his train-phent January rectal, but it took several minutes before Warren Jones his accompania; adjusted his clode strand cleanly bedee strand cleanly

The renovation has eliminated the dead spots and the echo, al-though the subway frams still an office of the dead spots and the exh. I hough the subway frams still an office of the drapery has revealed the full sweep of the proscensum arch, giving the hell a more vived visual configuration, but it also reunforces pays the subway of the subway of the cramped old lobby tas been transformed into a gracious entired fundamental fundamental subway to the subway of t

The most important diffurence between the old hell and the new, however, is likely to be the way performers adapt The old heli flattered them and to some extent distrused technical deficiencies, particularly in intension. In the new Carnege performers will have to experiment with senting arrangements and stage positions to obtain the most favorable acoustics "Carnome always had the reputation for musicums that you could just go out there and play," says Conductor Davies "Now they must work more to do their best "This may mean that at first there will be fewer memgrable evenings of the kind that heve made the hall pre-emment But in the long run Carnette Hall will offer a truer forum for projecting the world's musical talent. That alone makes the \$10 million r - By Michael Weish, Physic ted by Mary Cranin and Nancy Howman How York

- the 1986 FTA Honor Rollz; of sumes have writed to have thein xnoped; now of have to re-do them became of newly learned facts.

"Someday man will find a peaceful use for my machines."

Thanks for the copy of your fly report and the letter It makes me feel great now that your kit has fown the 14 hours The system of feeding the maple pear and Canary seed is working for you - that is providing the weather is root, etc. on the heat and sunshine it will be a much different story. you couldn't expect too much from a geit on a 90 degree day in 1973 & flew a kit 10 /2 hours and won the costest, it was 91 to degrees. Hus usually do better in the heat - & think if they com fly higher then it should be cooled up there. You should be conful with the pite in the hot weather as you don't want to excilition by having them land before the dropper sieval is given fly Them from 3 Pm to dark if possible and give a drink before refere, Rice may help in the diet as it holds water don't over do it. The 14 han kit you have, what I might suggest is to try them on Jong Day and Then put they away until next March, Stine Then a good rest and allow them to go through

PS. I will attempt to all liersouti and spook to him. the would you'll have your hards full with whe bother with the old kit? To for you've con the 3 contents in the Honor Sextan and that means \$100 per home in doinging = \$ 3100 which is usually paid at the end of the islan & believe. I'm glad that you've voluntered to update the Honor Rolls. Bill Kahlert will give me the info' that I need and I'll forward it to you. What I also have in mind is to make a list singilar to the Honor Rolls but coming after it and entitled - "Honorable Mentions", It would Rich up where the Honor Rolls leaves of and would give recognition to fancier, etc. By the way, Bill Kahled says that he has started to repetate the Honor Rolls. We spoke sriefly on 5/31 about this and will have more to discuss I see that you were flying the let once every 6-7 days and that it worked very well for you I think it is time for exet of set up electric prot lighte and get the first occuptomen to the dork! Stow lake care and good flying!

Dear Valued Customer:

As you know, the banking industry has been affected by fising expenses and changes in earket conditions. While The Bowery always tries to avoid increasing coate to our customers, it has become necessary for us to change the balance requirements for our Savings Account.

Effective July 1, 1987, should the average of your daily balances during an alendar quarter fall below \$400, a \$4.50 fee will be applied. Of course, if your account balance during any calendar quarter is usually over \$400, you will not be affected by this charge. In order to avoid a fee, atop by your branch and we can help you to:

- Concolidate Accounta By combining your savings accounts into one, you
 may increase your balance to the required minimum.
- Transfer Funds If you have account at other banks, we can transfer these funds into your Savings Account to meet the required minimum.
- Deposit Additional Funds By bringing your balance up to \$400.00, you'll meet the required minimum and avoid fees.

Please note that the fee does not apply to an account in your child a name. If you have not already done so, please contact us about your child a account. The quarterly fee of \$4.50 will be waived for children up to age 18.

We've enclosed a list of fees and charges associated with your Savings Account - Please keep this for your records and future reference. If you have any questions, please visit your Eowery branch or call 7 days a week, 24 hours a day:
